Some of the sidewalks need repairs sadly. In some instances they are actually dangerous to the passing pedestrian. This should be remedied at once. McKenzie & Co., who are now engaged in surveying Government land on Applegate, last Saturday received a fine solar compass from Troy, New York.

Simon Caro will leave for Roseburg in a few days and those indebted to the firm of Fisher & Caro will find it economical to settle before he takes his departure. Fancher & Johnson's self-heating sad-iron is one of the most popular household articles now in use...

W. I. Friedlander, of the well-known firm of S. Marks & Co., Roseburg, who has been selling for sometime, has fully recovered his health, we are pleased to learn. L. H. Zigler, formerly of this place, has located at the mouth of the Siuslaw, in Douglas county. "Low" has the best wishes of a host of friends wherever he may go. Ashland College has just received a complete set of philosophical and chemical apparatus from the East, which will no doubt prove valuable to the students. The Brass Band received a new bass horn and snare drum this week; also several pieces of popular music. "And we feel so awfully jolly when the band begins to play." Hon. L. O. Stearns, Great Sachem of the Improved Order of Red Men, has called a session of the Great Council of the order, to meet at Portland on August 4th next.

R. S. Dunlap will add stone steps to the Sexton's house and otherwise improve the City Cemetery, which promises to be one of the finest burying-grounds on the Coast at no distant date. Clough & Carl are hauling passengers to Coos Bay from Roseburg for \$6 each and are also selling through tickets to San Francisco for \$14.50, furnishing a pleasant ride as well as cheap passage. S. D. Brastow, who ran as express messenger between this place and Yreka along-side of C. C. Beckman and A. E. Raynes in the days of gold, passed through town last week. He is now acting as assistant superintendent of Wells, Fargo & Co.'s express business. E. L. Albert and Effingham Schieffelin, sons of C. Schieffelin of Rogue river, have struck it rich in the quartz mines of Arizona and are said to be possessed of mining property that will make them quite wealthy. Geo. Brown and John Hockenjos are now engaged in constructing a neat frame building for Mrs. J. M. McCully. It will be occupied by E. T. Kugler, instructor of music. John Miller has gone to San Francisco and he will lay in a first-class stock of goods for the Hunter's Emporium, where Fred. Furry may be found during the interim. A couple of our citizens indulged in a horse-race Sunday last, which proved quite interesting. No fast time was made, but some elegant feats in horsemanship were performed. The M. E. Church is being put in excellent repair and will receive the finishing touches this week. Rev. D. A. Crowell and J. T. Rolosen are the supervising architects. Bro. Cornell of the "Mercury" exhibits fondness for our local items and he would also appropriate our editorial squibs without bestowing a scintilla of credit. Naughtily, that! Leonard of Atholton, Josephine county, has forwarded agricultural machinery to Lake county, intending to attempt the cultivation of a portion of his large ranch in that region. M. A. Brentano and family arrived from Del Norte county (Cal.) Friday. Mr. Brentano is engaged in business at the Corners, Smith river valley, to which point he returned this week. The sympathetic citizens of Jacksonville were this week favored with an opportunity of bestowing alms upon a one-armed mendicant, who exhibited a decided partiality for the ardent. The boarding-house connected with Ashland College will be under the management of H. C. Hill and wife, who efficiently conducted the same institution under Prof. Skiffmore's regime. Theo. Cameron returned from Ashland precinct last Tuesday, accompanied by his mother, who has nearly recovered from the injuries she sustained here on May-day, we are glad to learn. John Kelley, the accomplished vocalist and violinist, well known to early residents of this section, is giving entertainments in Northern California, assisted by his wife. He will probably pay us a visit. A very large concourse followed the remains of Jos. Wetters to their last resting place. The Old Fellows and German Red Men turned out in full force, the deceased being an old member of both orders. J. R. Cameron this week purchased over 14,000 pounds of wool of O. Harbaugh of Elton precinct, paying him 18 cents per pound. This is one of the heaviest transactions in wool that have ever taken place in the valley. The Morrell Minstrel Troupe, one of the most popular companies that travels through the interior, will perform at the Club Room to-night, as also to-morrow evening. We anticipate a crowded house on each occasion. It is said that the Hamilton & Chappel diggings near Uniontown have been robbed upon different occasions recently, and it is believed that the culprits have been carrying on a regular system of robbery for several months past. The Foot's Creek Minstrels will tonight give an entertainment at home for the benefit of the new school-house. The evening's amusement will conclude with a dance, followed by a basket supper. A pleasant time is anticipated. J. E. Beggs' teams, three in number, brought 22,000 pounds of freight from Roseburg the other day. One wagon, driven by Geo. Freeman, had over 10,000 pounds aboard. These are considered among the heaviest loads ever hauled to the valley. J. W. Manning and S. Booth started for Roseburg Monday with about forty head of horses purchased for the cavalry service by the former gentleman. They are said to be the finest lot of animals that have been sent from this section for sometime. W. H. Byars' surveying party passed through the valley last week en route from Roseburg for Goose Lake valley, where it will enter upon a contract for the survey of some Government land. Sam. L. Simpson, Oregon's poet laureate, accompanied the party. W. P. Wilkinson informs us that a hail-storm of uncommon severity occurred in the neighborhood of his farm on Butte creek one day last week, demoralizing all kinds of vegetation and doing other damage. The hail-stones were the largest that have ever fallen there. Judge Watson of the Second Judicial District recently decided that A. A. Fink, James F. Gazley and James F. Gazley, Jr., pay to Sol. Abraham and W. R. Willis damages to the amount of \$200 for obstructing the Canyon road and collecting tolls belonging to said Willis and Abraham. A party, consisting of Jas. P. McDaniel, Robt. A. Miller, Chas. Prim, Wm. Mensor, A. H. Maegly and Henry Kubi left for the Siskiyou mountains Monday, intending to spend several days in hunting and fishing. They neglected to undertake any extensive contracts for furnishing venison and fish. The fraud who represented himself as being an agent for the "Journal of Fashion" and "Andrews' Bazaar" has been captured at Fort Jones, Cal., where he was engaged in his nefarious business at the time. Hiram Morse, of Oakland, Cal., editor of the former magazine, says he will send the "Journal" on receipt of the "receipts" to any who may have given their subscriptions to this scoundrel. Thos. P. Sheridan, a prominent citizen of Roseburg, but addicted to drink, borrowed the key to Hon. L. F. Lane's law office one night last week and proceeded to play off said key with that gentleman's library and papers, which he thoroughly demoralized and scattered to the winds. He afterward shot at Judge Mosher, but fortunately missed him. Mr. Lane will institute suit against Sheridan, whom he estimates has done him \$5,000 damage.

MINING NEWS.

Considerable prospecting is now in progress and more will be attempted. Mining operations are still in full blast in many portions of Josephine county. Wm. Healey is at present engaged in prospecting a bar in the Big Applegate that he believes will pay well. A full supply of mining blanks and Copp's Hand-book of Mining Law can always be obtained at the Times office. Frank Ennis informs us that water is beginning to fall at the Sterling mine and a clean-up will be made in a few days. Most of the miners have suspended operations for the season. The large mining companies are all busy yet, however. The Squaw Lake Company is now engaged in making a clean-up at its diggings, but will resume piking immediately. Mr. Felling, a gentleman interested in the Applegate gravel mine, arrived from the north Saturday and is now paying those diggings a visit. Heavy shipments of gold-dust are now being made from Josephine county to San Francisco, which is ample evidence that the mines of that region are paying well. Egan & Co. are down 38 feet upon their ledge near Willow Springs and find the vein four feet in width and still widening. The ore is of an excellent quality. John Orth and Henry Paue have relocated the Orth quartz ledge on Applegate and propose prospecting it at an early date. The rock promises to be of an excellent quality. Wm. Nickell, who has returned from Briggs' creek, does not give a flattering account of that section. He says the diggings are deep, hard to work and not particularly rich in gold. Capt. A. P. Ankey of Portland arrived in town Wednesday and is looking after his mining interests in this section. He is one of the owners of the Sterling mine, which enterprise he paid a visit. Parties recently from Silver creek report that there are about 100 miners in that section making good wages, though none have become possessed of a bonanza as yet. Prospects continue good and money seems to be plentiful. M. A. Brentano has relocated a quartz ledge in the vicinity of Shively gulch and upon which several thousand dollars were expended at an early day, but since lying idle. He believes that it will prove to be a valuable mine yet. A Silver creek correspondent says Simmons & Co. and H. Todd are making \$10 a day, and Feldt & Ficke are also doing well. Mike Boer is said to have refused a considerable sum of money for his claim. Others are working away with fair results. Gin Lin cleaned up over seventy ounces of gold last week, which is the result of a two weeks' run. He will clean up more frequently than formerly, fearing that his sluices may be robbed at anytime, an attempt at which having already been made. Kretzer & Otten, mining on Farmer's Flat, recently picked up a nugget of gold valued at \$120, as also other smaller pieces, one of which weighed almost an ounce. Water has failed here and preparations for next season's work will soon be commenced. Towne & Reynolds, in the Sterling district, have completed ground-slucing and are now engaged in cleaning-up, which will occupy some time. Mr. Reynolds informs us that the Spring run proved an average one, the results of which have been quite favorable. Ex-Governor Chadwick has been recalled to the Willamette valley, but will return in a few weeks. This gentleman is doing much to develop the mining resources of Southern Oregon, and it is to be hoped that he will meet with the success belonging to him and his colleagues. Helms, Koster & Co. are prospecting for a quartz ledge in the vicinity of their diggings on Foot's creek. They believe that a vein of rich ore exists somewhere in the immediate neighborhood, as a quartz nugget containing several hundred dollars in gold and other smaller ones have at different times been found there. Drifting is carried on with good success by different parties on Foot's creek. Johnson & Allison have purchased a half interest in the diggings of Smith & Orlers, and have preparations under way to commence work in a short time. In this way mining can be continued throughout the Summer and until wet weather makes ground-slucing practicable. We learn that an immense mining enterprise is projected in the interest of California capitalists, which may take a definite shape at no distant date. It is proposed by the gentlemen having this matter in hand to purchase the various Applegate mines and run a ditch that will cover them all, as also a large extent of diggings several miles beyond. We hope to give the full particulars to our readers before long. MONUMENT COMPLETED.—J. H. Russell of Ashland, the pioneer marble-worker of Southern Oregon, has recently completed a beautiful monument for the tomb of the late J. J. White. The "Tollings" says that it is made of Josephine county marble, with a sandstone base, and in design and finish it will bear comparison with work of this kind turned out in any marble yard. Mr. Russell will set in place in the Rock Point cemetery in a short time. We are glad to note that Mr. Russell, who does good work and deserves a liberal patronage, is finding his business increasing. PROBATE COURT.—The following business has transpired in this Court—Hon. Silas J. Day, presiding, since our last report. In the matter of the estate of Thos. G. Dewes, deceased, John Bolt appointed administrator and Wm. Ray, John O'Brien and C. B. Matten appraisers of said estate. In the matter of the estate of Jos. Cox, deceased, Final statement of M. A. Houston, administrator, approved and said administrator discharged. In the matter of the estate of Jos. Wetters, deceased, Frederick Wetzler appointed executrix and Max Muller, K. Kubi and Herman v. Helms appraisers of said estate. A PARTY that visited the Sterling mine on Sunday last had the day's amusement considerably heightened by a balky horse that refused to move uphill under any ordinary circumstances. Added to this came a drenching rain, which fell at an opportune moment when escape from its cooling effects was impossible. The affability of Superintendent Fenis also had its share. They neglected to take any preventive and positive cure in all cases of fever and ague. Truly yours, AMOS PATTERSON, Contractor, Portland, Oct. 5, 1878. DR. MINTIE & CO. treat all Chronic and Special Diseases with success. No. 11 Kearney St., San Francisco, Cal.

Lucky Queen Items.

S. Houser of Oakland, Or., paid us a flying visit. He returned last Tuesday, accompanied by his daughter, Miss Ella, who goes to visit friends at that place. J. C. Trullinger of Astoria arrived at this place this morning. He came to look after his mining interests and to prospect several localities in the northern portion of Jackson and Josephine counties. Rodabaugh, Trullinger & Co., have commenced work on their new ditch to carry water to their gravel mine known as the Thurston claim, situated on Horse creek, a tributary of Jump-off-log. The ditch is to be about two miles long. One day last week William Pollock caught a very large brown bear in his trap, and being a tender-hearted fellow, thought it would be cruel to take the life of his prisoner without giving him a show for his liberty. So he notified all the neighbors in the neighborhood to appear on the battle-ground at eight o'clock the next morning. The appointed time came and all were at the post. After some preliminary arrangements Captain P. ordered the prisoner to be opened wide, when Mr. Brain walked to the door and, seeing the hunters and their dogs, came to the conclusion he would not go. Out he was hustled and away he went, the dogs close behind, soon leaving Captain P. in a very bad humor. That evening Captain P. was minus his bear, while Lieut. Tetherow lamented the loss of his favorite dog. They concluded to treat the next bear in a less considerate manner. Lucky Queen, July 11th.

County Court Proceedings. JULY TERM. Officers present—Hon. Silas J. Day, Judge; E. K. Anderson and C. Magruder, Commissioners; E. B. Watson, Clerk; Wm. Hybee, Sheriff. Norman Fisher, County Treasurer, was authorized to receive and receive for all monies due this county from Lake. The petition of Jephtha Davidson and others for the return of a portion of the creek was dismissed for want of prosecution. Wm. Bybee, Sheriff, filed his report of monies collected and paid over, showing amount still due to the county, \$2,312.82. Report received and said officer given until the first Monday in August in which to collect the balance of the same. The petition of Jas. Elliott and others for a county road leading from John Linville's lot to intersect the valley road was postponed until the next term for proof of posting notices. In the matter of the petition of J. B. Thomas and others for a road leading from R. S. Armstrong's mill on Evans' creek to the divide between the waters of Trail and Evans' creeks. Report of viewers accepted and said road established as a public highway. Report of J. D. Fountain, School Superintendent, showing the amount of school money received and distributed during fiscal year to have been \$7,457.25, was approved. The report of Newman Fisher, Treasurer, upon the condition of the school fund, showing the amount received during the past fiscal year to have been \$7,683.70, with \$7,105.99 as the amount disbursed, was approved. The annual reports of E. B. Watson, Clerk, and Norman Fisher, Treasurer, were examined, approved and ordered published in the Democratic Times and "Oregon Sentinel." Bills to a considerable amount were audited. BURNED IN EFFigy.—Mrs. Dunaway was burnt in effigy on the streets of Jacksonville on the night following the advent of the "New North Star" by a party expressing correspondence from this place, and which reflected in a shameful and unjust manner on at least one of our citizens. The offense is done and the severity of the condemnation, but we doubt very much whether this was an appropriate way of expressing it. PERSONAL.—We this week received a pleasant call from Lieut. Shelton, who was on his return to Fort Klamath from Vancouver, accompanied by his family. We found the Lieutenant a very affable gentleman, speaking in the highest terms of the hospitality for which the people of Jacksonville are proverbial. It is to be hoped that he will find occasion to visit us frequently, for he is always welcome. SCHOOL TEACHER WANTED.—The Directors of Uniontown school district desire to engage the services of an efficient teacher, whom they will pay the best of wages. Application should be made forthwith. LOST.—On the 28th of June, between Blackwell and Rock Point, a heavy silver watch, four o'clock case, with chain. The finder will be liberally rewarded by returning it to F. M. Parker, or leaving it at the Times office.

MARRIED. WOODY—MILLS.—In Josephine county, on July 6th, by R. Brown, J. P., Marshall Woody and Miss Matilda Mills. BORN. FRYER—At Eagle Point, July 7th, to the wife of J. J. Fryer, a daughter.

THRESHER FOR SALE. A FIRST-CLASS HAINES' HEADER, together with wagon and all necessary appurtenances, all in the best order, will be sold cheap and on easy terms. Any one desiring a good machine will avail themselves of the opportunity now presented. For further particulars, inquire at the Times office, soon.

DR. MINTIE'S NEPHRETICUM. DR. MINTIE'S NEPHRETICUM works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, are cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back, side and head are cured when all other medicines have failed. See what the druggists of Portland and San Francisco say of Dr. Mintie's Nephreticum and English Dandelion Pills: "We have sold a large amount of Dr. Mintie's medicine. The English Dandelion Pills, also the famous Nephreticum, and in all cases highly recommended." John A. Childs, Druggist, Second street, Portland. "H. H. To the People of Northern California and Southern Oregon! ASHLAND COLLEGE

NORMAL SCHOOL. LOCATED AT ASHLAND OREGON. First Session will Commence Sept. 15th, 1879.

BOARD OF TRUSTEES: REV. L. L. ROGERS, President. A. G. ROCKEFELLOW, W. H. ATKINSON, REV. J. S. MCCAIN, JACOB WAGNER, JOHN WALKER, REV. W. F. CHAPMAN, G. F. BILLINGS, CLARK TAYLOR.

FOR THE PURPOSE OF FOUNDING THE Ashland College and Normal School, the property known as the Ashland Academy has been placed, free from debt, under the control of a Board of Trustees, who have inaugurated the enterprise by filling the following positions in the FACULTY:

REV. LOWELL L. ROGERS, A. M., President; Professor of Mental and Moral Sciences. W. I. NICHOLS, A. M., Vice President; Professor of Mathematics. MRS. A. A. ROGERS, Preceptress; Teacher of English Grammar. MRS. JENNIE BALDWIN NICHOLS, Teacher of Music and French.

Other competent instructors will be secured as fast as the needs of the Institution require, so that pupils may be provided with the best facilities for commencing and completing the following COURSES OF STUDY:

1. CLASSICAL, requiring six years, including preparatory studies. Graduates receive the Degrees of A. B. and A. M. 2. SCIENTIFIC, requiring four years. Degree conferred, B. S. 3. NORMAL, COMMERCIAL, AND MEDICAL, occupying three years each. Diplomas given certifying to attainments of graduates. EXPENSES.

Tuition in four Collegiate Branches, \$6 a month. Music, \$5 a month (use of instrument \$1 additional). Vocal music in class, \$3 a quarter. Board in Boarding Hall or in Private Families, \$3.50 to \$4.50 a week. Rooms or Cottages for self-boarding, \$2 to \$3 per month. FURNITURE LIST OF TEXT BOOKS.

Rolinson's Mathematics, Steele's Series in Natural Sciences, Harkness' Latin, Fauguel's French, Reed's Series in English Composition, Richardson's Piano Instruction. PROMINENT FEATURES AND ITEMS OF INTEREST.

1. The College will be chartered and the Normal or Training School for Teachers will be made, it is hoped by special enactment, an adjunct of the Public School system, and Diplomas made equivalent to first-grade certificates. 2. Ashland has no saloons. The sale of intoxicating liquors is prohibited by the City authorities, who are sustained by a strong public sentiment. 3. The School will be under the supervision of an Evangelical Christian Church. The work will be reverently read and studied; the worship of God encouraged; but the Institution will be sectarian in no objectionable sense. 4. Book-keeping, Business Arithmetic, English Composition and other branches, specially preparatory for Business Life, will receive unusual attention. 5. The Preceptress will give her chief attention to the care and oversight of the young ladies. 6. An Endowment of \$20,000 will be, there is reason to hope, promptly subscribed, enabling the Trustees to reduce the rates of tuition, especially to Teachers, after the present year. Address communications to Ashland College and Normal School, ASHLAND, OREGON.

ASHLAND MARBLE WORKS.
