

WEDNESDAY, JULY 25, 1879.
 CAL.—H. M. Barnes of Yreka, accompanied by his newly-wedded wife, is the honey-moon in this place. We have a hearty welcome and bespeak a stay.

RECEIVED.—The first peaches of the season have appeared this week and were of a fine quality at six cents per pound. The orchard of R. Brown on the south side of the river is doing well, and though small in size were of fine quality.

EAR AGO.—Just one year has elapsed since the first Democratic Times first appeared in enlarged form. It now enjoys a larger subscription list than ever, and is published in Southern Oregon 250 bona fide subscribers having added thereto during that time.

PROGRESSING RAPIDLY.—Holt's brick hotel is booming up and will be ready for the foot before long. It will be a fine structure and a monument to Mr. Holt's energy and enterprise. Larger towns than Jacksonville are unable to boast of less pretentious buildings.

ICE CREAM FESTIVAL.—The next event on the program will be the ice-cream festival under the auspices of the ladies of the Presbyterian Church, and which will take place at the Club Room next Thursday evening, having been postponed a day. A pleasant time is in store for all who attend and everybody is invited to participate.

DIPHTHERIA.—Dr. Danforth informs us that this dreadful scourge has made its appearance among children in different portions of the county and that in some instances it has assumed its worst phase. The greatest caution should be taken that the disease is not spread, and medical treatment will also be best in every case.

CONVENTION CALLED.—The Temperance Convention has called a county convention, which will be held at Colver's hall on the 27th of September. J. W. F. of this place and other speakers have their intention of being present and addresses. An interesting session is anticipated.

PROPRIETOR.—Frank Cluggage, brother of the proprietor of the town-site of Jacksonville, is expected here before long. We learn he will have a resurvey made, toward defining the possessions of Jas. Cluggage, he will then offer for sale. It is to be that such will be the case, for a large area of land in this vicinity has laid idle and in an unimproved state because no title could be obtained to it.

STATE SCHOOL FUNDS.—The State Board of School Land Commissioners has made its annual apportionment; but, as many of the local agents have failed to report, the amount apportioned is not as large by several thousand dollars as the previous one. Jacksonville's share itself falls short nearly \$800, being \$1,015.56 for 2,993 scholars. Josephine county has 745 scholars and receives \$176.80, and Lake county gets \$384.64 for 601 scholars.

FOR YREKA.—Billy Thompson left for this week, having in charge George Ovenson's fine trotting horse "Sir Walter," who is placed in training for the annual trotting fair. We expect to see "Wal-livest" trotting this fall, as he is the fastest stallion in the country, running and trotting horses will also go into training for the fair races at Yreka and some excellent trials of speed may be anticipated.

MORRILL'S MINISTRIES.—This popular troupe gave two of its performances at the Club Room last week, which were well attended and duly appreciated. The familiar faces of Harry Lorraine, Billy Donnelly and Charley Morrill, Jr., were missed, but in their places were found Walter Parks and Charley Kohler, both very clever performers. As a jig and clog dancer Parks is hard to beat, being one of the very best that travels. The troupe will tarry with us again upon its return from a tour through Oregon and the Territories next fall, when something new may be expected.

A GOBLER THAT WOULDN'T BE A GOBLER.—W. B. Kincaid, residing on Rogue river, is possessed of a turkey gobbler that shows a disposition to usurp the rights and privileges accorded to the female bird and has taken upon himself the duty to hatch a nest of eggs. He had been missed for several days past and when found in the grain-field by the harvesters was indignantly engaged in incubation, while his mate was serenely awaiting developments at a respectful distance. It has not been ascertained whether this coincidence is directly due to the recent agitation of the woman suffrage question, but it is none the less remarkable.

ACCIDENT.—L. B. Tucker of Ashland was unfortunately once to meet with a serious accident the other day. He was driving an empty hay wagon through a gate near his barn, says the "Tidings," when the wagon struck the gate and threw him out upon the tongue. The horses started off on a run, and Mr. Tucker, with his feet fast in the harness, was dragged some distance along the ground, and finally, overcome by the wheels of the wagon and left lying in the field insensible. Assistance was at hand and he was carried into the house, where Dr. Chittwood attended to his injuries. His collar-bone was broken and he received a severe cut upon the back part of the head, beside other bruises. He is able to go about again now, with his arm in a sling.

THE WOOL PRODUCE.—It is estimated by those well informed in the matter that over 300,000 pounds of wool will be shipped from Jackson county alone during the year. This, at the average price paid, will net sheep-owners in the neighborhood of \$50,000, which is quite a neat sum to be distributed for a single item. The grade of sheep has been greatly improved in the past few years by the introduction of the Leicester and Merinos—principally the former—and as the importance of this industry becomes more apparent and the number engaged in it increases we may expect still further innovations. The Jackson county staple is at this time noted for fineness of texture and its general excellence, standing at the head of the list in price and quoted at a cent lower than the best Humboldt wool of the San Francisco market. Wool being a saleable article at a remunerative cash price, farmers themselves are paying more or less attention to raising sheep, and few are even now entirely without them. We will not therefore be surprised if, in the course of a few years, a decrease in the grain crop will be offset by a corresponding increase in the production of wool.

BRIEF REFERENCE.

Harvest is in full blast. A circus is said to be on its way hither. The County Jail mourns for an occupant. For business cards go to the Times office. Warren Lodge meets Wednesday evening. New goods just received at Breckenfeld's. Novelties of every description at Mensor's. The Sisters returned from Portland yesterday. Ashland will soon enjoy the luxury of a brass band. 'Tis now the busy farmer improves each shining hour. There will be no services at the M. E. Church Sunday. Blanks of every description always on hand at the Times office. Dr. A. C. Stanley of Table Rock is constructing a neat residence. The Sheriff's deputies are interviewing a delinquent tax-payer. H. F. Phillips has added a new horse to the Ashland livery stable. Oregon wool is quoted at 17¢20c. For Eastern and 24¢25c. for valley. There is a steady flow of immigration into Oregon, much of which we receive. Sheriff Bybee sold two horses Saturday, which were bid in by Reames Bros. We have just turned out a number of receipts books that are neat and cheap. The residence of Col. John E. Ross narrowly escaped destruction by fire recently. The Scipion gallery, which paid us a visit last year, is migrating this way again. The Railroad and Table Rock saloons received a fresh supply of ice yesterday. J. Wimer of Waldo has taken charge of the Waldo Hotel and will make it a first-class one. Miss Millie Vining gave her friends a party Tuesday evening that proved a very pleasant affair. A watch tinker is the last of the peripatetic nuisances that have visited this section with their presence. David Cronmiller is constructing another building on his premises, which will be used as a paint-shop. Cattle are accumulating in Josephine county, comparatively few having been driven out in the past two years. Beef is to be congratulated upon his new sidewalk. It is a substantial as well as a timely improvement. The Roseburg Foundry, owned by Zimmerman & Frazier, formerly of Ashland, is now running on full time. Rev. Father Blanchet will hold services at St. Francis Church, Eagle Point, on the first Sunday in August. O. Weaver was fined \$5 by Justice Huffer last Saturday for an alleged assault upon P. J. Ryan, which he paid. Goocher & Cunningham, of the Williams creek saw mills, have established a depot for their lumber in this place. The large band of cattle driven from the Butte creek country last May is ranging near Camp Harney, Grant county. R. Guilbert of Yreka brought another load of his soda to town Saturday, which may be found at the different saloons. Pat McMahon last week brought to town an immense beef-head weighing sixty-three pounds when dry. It came from Big Butte. The corner-stone of the new Masonic building at Ashland was to have been laid this week with appropriate ceremonies, we learn. John B. Farley, one of our leading educators, has been engaged to teach a six-months' school by the directors of Uniontown district. In addition to the premiums to be awarded at the next Siskiyou county fair there will be prizes for the best penmanship by children. Chris. Ulrich and family have gone to the Siskiyou mountains for a few days. They were accompanied by parties from Sterling. J. A. Panky informs us that rust has made its appearance in the grain-fields of Sant's valley, but threatens no serious consequences. The Sexton's house in the City Cemetery has received some finishing touches at the hands of R. S. Dunlap and presents a neat appearance. The M. E. Church has been thoroughly renovated and is the recipient of sundry improvements that add greatly to the appearance of the structure. The completion of the Rock Point bridge has been retarded by the scarcity of necessary lumber. It will nevertheless be finished in the specified time. Chinamen are becoming numerous in Josephine county again. We had hoped that these pests were gradually departing hence, never to return. E. Jacobs is in recent receipt of several elegant children's carriages, velocipedes and wagons; also a fine assortment of French candies. Call and see them. Thos. McAndrew lost another boy by diphtheria on Tuesday last—a bright boy nearly four years old. The bereaved parents have the sympathy of all. The citizens of Phenix are again agitating the question of building a school-house and P. W. Ottwell has very generously offered to bear one-fifth of the expense. A substantial bridge is being constructed across Wagner creek, near the residence of Jas. Helms. This is an improvement that has been necessary for some time. The demand for Matt. Dillon's fine whiskeys has forced him to draw on old Kentucky for another supply. Matt. knows how to please, and that is why he succeeds so well. Yesterday was the warmest day experienced this season, the thermometer denoting 95° degrees in the shade. It is quite likely that old Sol proposes making up for lost time. Business men can keep their money at home by ordering their bill-heads, letter-heads, notes, receipts, etc., at the Times office, where the best printing is done at low rates. Warm weather threatening to continue, there seems to be a general inclination to flee to the mountains and the coast. The Soda Springs are also receiving many visitors. Our latest fashion notes report a tendency to straw material for young ladies' Summer hats and plenty of it—the more the better. They balance the head just about right. The eldest daughter of E. H. Auterlieth, Esq., is afflicted with diphtheria, but is not dangerously ill, we are pleased to say. A few other cases are reported in this vicinity.

G. Karewski will soon receive a fine lot of Fish Bros.' wagons and buggies direct from the Michigan factory. They are of the latest and most improved patterns and second to none. We have just received a supply of elegant gilt-edged and chromo cards from New York and are now prepared to print visiting cards in the most approved styles and at Eastern rates. Hon. D. L. Green of Galice creek had the misfortune to lose his youngest daughter by typhoid fever on the 11th. Considerable sickness is said to prevail in that neighborhood at present. Salmon are abundant in Bear creek, a considerable number having been speared of late by residents of Ashland. A large number of trout have also been caught in the same stream. Farmers who pretend to know estimate that there will be about 300,000 bushels of wheat threshed this season. The surplus is not liable to be as large as was at first expected. A board of officers, consisting of Capt. W. H. Winters, Lieutenants Adams and Bontelle, on the 23d inspected the thirty-nine cavalry horses purchased for the Government by J. W. Manning. The party that went to the Siskiyou last week has returned. Game and fish were found to be abundant and there was no lack of sport. No evidence of their prowess was noticeable, however. Some of the fixtures belonging to the Ashland Academy under the Skidmore regime will be sold at Sheriff's sale on the 1st prox. by virtue of an execution issued in favor of E. K. Anderson. The bogus agent who took subscriptions for the "Ladies Bazaar" at \$1 per copy now occupies a room in the Siskiyou county jail. Squire Green of Fort Jones gave him forty days in that haven of rest. C. W. Savage, host of the New State Hotel, will give the supper for the Old Fellows' hall on the 18th prox., which is a guarantee of its excellence. The best of music has also been engaged for the occasion. In a juvenile encounter last Tuesday, Sam DeReboam, one of the pugilists, shield a brick that took effect on the upper lip of his adversary, Frank Cimbrsky, and broke off four of the front teeth close to the gum. Geo. Sylvester is selling a compound that has a wonderful effect upon coal oil, rendering it non-explosive and purifying it, as it were. From the "Sentinel" we learn that Sylvester is quite as remarkable as his powder. Two peddlers of pinhead jewelry passed through town this week. As Marshal Helms received inquiries as to their whereabouts from below, they are probably wanted there. Bilks are certainly on the increase. The Improved Order of Red Men propose beautifying their cemetery in various ways and have asked permission of the Board of Trustees to construct a gateway that will enable them to reach the grounds with little trouble. The Brass Band tendered H. M. Barnes and wife of Yreka a serenade on Wednesday night. Several of our citizens were likewise complimented. The Band is becoming quite proficient and furnishes excellent music. Grain of all kinds is ripening fast and the farmer has in some instances commenced cutting. The prevailing weather is of great benefit, especially to wheat, which is filling out finely. Barley and oats are also of an excellent quality. W. B. Kincaid and son have been awarded the contract for furnishing Fort Klamath with 700 cords of wood and will commence its fulfillment at once. They receive an average of nearly \$3 per cord. Wm. Acock has taken a sub-contract from them. The entertainment given by the Fort's Creek Minstrels in aid of the district school-house at that point last Friday evening was well attended. The troupe has been strengthened by the addition of several performers and the affair proved quite a success. A Murphy creek (Josephine county) correspondent writes: Crops never looked better on Applegate than this year. Health is good. The mines have almost closed down for the Summer. Wimer's mill is in full blast and turning out superior flour and lumber. An attempt to enter Wimer's store at Waldo was made Friday night and came near being successful. The burglars had succeeded in effecting an entrance through the front door, but were probably frightened away before being able to follow up their advantage. Jackson Grant, the Indian who killed Dennis Spellin at Portland in 1878, has been sentenced to imprisonment for life by Judge Bellinger. Grant was sent to the Penitentiary from this county several years ago for stealing Col. J. N. T. Miller's "Brick Pomeroy" and is a hard case. Lake county will soon make provision to pay off her indebtedness with this county and it is expected that Josephine county will follow suit. When these sums are disbursed our debt will be materially decreased, and we may be able to "resume specie payments" in the course of a few very years. Holman's liver pad, which has been proved a sure cure for fever and ague and disorders of the stomach and liver, can be obtained at reasonable rates by sending to John E. Day, Yreka. Parties in this place who have used it can attest its wonderful qualities. For price and further particulars see advertisement elsewhere. R. J. Cameron paid Butte creek a visit this week and was surprised to find that portion of the county improved so much of late. In company with his brother, Thos., he had located in that section as early as 1852, when there was a howling wilderness, but now is thickly populated and well improved. Time certainly works wondrous changes. From a private letter from Dr. J. W. Robinson we learn that he started for San Francisco on the 22d, where he will remain for a month or more attending lectures, visiting hospitals, etc. He will return to this place early in the Fall and permanently locate for the practice of his profession. His many friends wish him a pleasant trip and safe return. Nothing like going from home to learn the news. A telegram to the "Oregonian," dated Jacksonville the 15th, announces that "in the city election held that day the Republican ticket was elected by 100 majority." Perhaps that journal thought to perpetrate a "goak" upon its readers, for such an event could never happen in these classic shades. None of those who went from Fort Klamath were successful in the rifle practice at Vancouver. The eight that will go to San Francisco to compete with the representatives of the departments of the California and Arizona are all privates. Fifteen shots were fired at 300 yards and fifteen at 500 yards, and the best shooting was done by Sergeant Wells, who made 112 points out of a possible 150.

MINING NEWS.

Preparations for next season's work will soon be commenced by different persons.

Parties are engaged running tunnels into Hogan hill, two miles east of Waldo. A full supply of mining blanks and Cope's Hand-book of Mining Law can always be obtained at the Times office.

Jas. Lawrence has gone to the placer mines on Applegate he is interested in and will spend several weeks in prospecting.

Desselles & Co.'s Scott's gulch claim and the hydraulic mine of Wimer & Co., near Waldo, are both running day and night.

Water is failing generally and most of the large hydraulic companies will soon be obliged to suspend operations for the season.

John Enos and others are now engaged in mining on the big bar of Rogue river, but with what success we have not learned.

Magruder, Owen & Co., who have projected an immense mining enterprise, will resume operations on their Applegate ditch in a short time.

It is reported that certain parties mining on Silver creek took out \$240 in a single afternoon. It proved to be a pocket in the bed-rock.

No quorum of the stockholders of the Emeline Quicksilver Company being present at the annual meeting announced for the 17th, said session has been postponed until the 16th of August.

C. D. Failing, an interested party in the Applegate gravel mine, which he has been paying a visit, returned to the Willamette valley Friday apparently satisfied with the prospects.

The miners of Forest creek hardly did as well as they anticipated, but expect to make full amends next season, when they propose being rigged out in good shape and ready for water when it comes.

Mr. Nicholson, of French Flat, Josephine county, is now engaged in sinking another shaft, to better prospect his diggings. His mine would pay more if he were able to push his drifting and hoisting with greater speed.

Attention is called to the advertisement of E. G. Denniston, of San Francisco, who is furnishing the silver-plated amalgamating plates which are proving so popular among miners. They are worthy a trial, at least.

The miners of Gall's creek have all finished for the season, with the exception of Pfeil Bros., who will not complete their clean-up until several weeks later. The Spring run has been paid for, in a financial point of view.

Preparations for next season's work will soon be commenced at the Hamilton & Chappel diggings near Uniontown. A half mile of ditch more is necessary and this will be completed and everything put in readiness by the time wet weather sets in.

Professor Ellison proposes to furnish any one with capital to work mines of platinum who have not means of their own to work them. This metal resembles the black sand used in iron molding, and is more valuable than gold. There is no doubt that deposits are to be found in the mountain ranges of this State.

Gen. Liu has furnished each of his men with a Smith & Wesson pistol as a precautionary measure against lawless robbers, who threaten to become both numerous and troublesome. He also proposes insuring the lives of the Mongolian against the probability of killing themselves with their newly acquired playthings.

Superintendent Klippel of the Squaw Lake diggings was in town the latter part of last week. He informs us that the recent clean-up proved satisfactory to the owners of the mine. There is still an abundant supply of water and piping has been resumed and will probably continue for several weeks longer.

A clean-up was commenced at the Sterling mine last week, which will conclude this season's operations. Some excellent ground has been washed off and a large amount of gold dust will no doubt be realized; but how much we will probably not be able to learn, as the superintendent and proprietors are very reticent upon this subject.

Alex. Watts of Williams creek was in town yesterday, from whom we learn that water is failing fast and that J. T. Layton has hardly a full head for the one "giant" he has in operation. Mr. Watts has just finished the survey of the Steamboat Company's quartz claim, which an incorporated company is about to commence prospecting thoroughly.

Messrs. Chadwick and McNevin will probably bond a quartz ledge situated on Elder creek, Josephine county, which prospects well and gives promise of being quite extensive. These gentlemen are evidently bent on ascertaining if quartz exists in paying quantities in Southern Oregon, and they should receive all possible encouragement in their efforts to develop our mining resources.

NEW BUILDING FOR ASHLAND.—Ashland Lodge No. 45, I. O. O. F., has decided to build a brick building in conjunction with Messrs. Fountain & Farlow, Inlow and Helman, these gentlemen erecting the lower story and the lodge the upper. It will be a large and substantial structure, with 61 feet front and 60 feet depth, and will be built on the ground in the burnt district owned by the parties above named. Ashland is therefore assured another edifice that will be a credit to her, something she is to be congratulated upon. Thus do coming events illustrate that her loss by that disastrous conflagration will be her gain in the end.

WITH US ONCE MORE.—H. M. Barnes, who about one year ago canvassed this section for enlarged pictures, is again in town and has on exhibition at G. W. Elliott's store some very fine examples of large photographs finished in India ink in a style unsurpassed, for which he is taking orders. Those large and elegant chromos at the same place he will sell at Eastern rates and the finest of chromos can now be had for less than San Francisco prices.

NEW MUSIC.—E. C. Brooks is in receipt of 100 pieces of new and popular sheet music, both vocal and instrumental, which stock he proposes replenishing every month. This will be of public convenience and Mr. Brooks should be encouraged in his endeavors to keep the market supplied with the latest music.

THE SPIRIT OF IMPROVEMENT.—Jacksonville is improving rapidly. Besides the new buildings mentioned before, Schump & Forman are about constructing a carpenter-shop in the southern portion of town and other structures will be erected in the same neighborhood this Summer, to say nothing of those proposed elsewhere.

PERSONAL NOTES.

Jos. Solomon is up from Woodville. J. H. Hoffman has returned from Lake Co. Judge O. Jacobs has been elected Mayor of Seattle.

Carlos Merritt of the Ashland "Tidings" made us a call Saturday last. Mrs. Chambers of this place has returned from a visit to Big Butte. Paymaster Kiefer paid off the garrison at Fort Klamath the other day.

N. Delamater of Josephine county is in town and will remain a few days. Judge E. C. Mason of Lake county has returned from the Willamette Valley.

Henry Conn of Linkville passed through town this week en route from Roseburg. W. C. Myer left the Willamette valley last week and expects to return home to-day.

Capt. Ripley and Lieut. Duncan of Fort Klamath returned from Vancouver yesterday. Mrs. Jas. Abel and Miss Lizzy Baker of Siskiyou county are visiting relatives at Ashland.

Thos. G. Devens is still engaged in a hunt for the "Lost Cabin," which he believes is located in Douglas canyon. Assessor Goldard is making good headway with the assessment of the county, which he hopes to complete in a few weeks. C. Schieffelin will pay his parents, residing in Pennsylvania, a visit before long. He expects to leave here about the 1st prox.

Chas. L. Mosher has gone to Corvallis to resuscitate the "Benton Democrat." He will still retain his interest in the Roseburg "Star." A sister of Judge Baldwin of Williams creek arrived from Illinois Tuesday and will pay this section an extended visit before returning.

A party, consisting of Col. John E. Ross, J. B. Wisley, W. J. Stanley and others, have gone to the head of Evans' creek on a deer hunt.

H. L. Webb and John Cimbrsky returned from Lake county this week. They report that country growing rapidly and in a flourishing condition.

Mrs. Chrisman of Lafayette and Mrs. G. H. Stewart of Vancouver, who have been paying this place a brief visit, returned to their homes last week. Miss Mary Chrisman will remain awhile longer. C. B. Watson of Lakeview passed through town Sunday. He has just completed a surveying contract in the Stein mountain country and is en route for Portland to confer with Surveyor-General Tolman.

F. W. Ewing, formerly of Ashland, has been renominated by the Democracy of Modoc county, Cal., for District Attorney. He will probably have no opposition, having given general satisfaction, and aspirants to the office being few. Harry Wright returned this week from a visit to his old home in Santa Rosa, Cal. He was accompanied by a brother, W. A. Wright, well known in educational circles of that section, who entertains intentions of permanently locating among us.

E. D. Foudry left for Josephine county yesterday to look after the Taylor mine on Rogue river, of which he is receiver. He will combine business with pleasure, being accompanied by his family and Miss Maggie Dougan and proposing to spend several days in recreation.

Gen. T. G. Reames and J. R. Neil returned last week from a trip to the Wagner creek mountains, where they spent a few days in hunting. Deer were so plentiful that they found much amusement in pelting them with snowballs from huge banks of snow that still linger high up in that region.

Wm. M. Turner, editor of the "Sentinel," has gone to San Francisco in the hopes of recovering his failing eye-sight. He has been suffering from cataract for several years, which has totally destroyed the sight of one eye and threatens that of the other. We trust that he may find the relief he seeks.

PROBATE COURT.—The following business was transacted before Judge Day since our last report. In the matter of the estate of H. Colver, deceased, Maria Colver, guardian of the minor heirs of said deceased, and her bondsmen were discharged from further liability.

In the matter of the estate of Jas. A. Stewart, deceased, Semi-annual exhibit of Elizabeth Stewart, administratrix of said estate, examined and approved. In the matter of the guardianship of the minor heirs of M. Walker, deceased, H. F. Barron, guardian, files a supplemental inventory, which was approved and ordered made for the sale of certain personal property.

In the matter of the estate of Jos. Wetterer, deceased, Resignation of Herman Helms as one of the appraisers accepted and E. D. Foudry appointed in his stead. MARRIED.—Dr. G. H. Aiken and Miss Ida Martin, well and favorably known in Jacksonville, were united in matrimony at Oakland (Cal.) on the 23d. The happy couple will take up a permanent residence among us, starting for home to-morrow and traveling by way of Portland. We tender our congratulations and best wishes, hoping that the fullest measure of happiness and prosperity may be accorded them.

GRAND RAFFLE.—Those magnificent pictures at Geo. W. Elliott's will be raffled off unless sold immediately. They will be put in at San Francisco rates and chances have been placed at the low price of \$1. A fine opportunity is thus afforded to obtain the most beautiful of chromos for a mere song. For further particulars see posters.

REAL ESTATE TRANSACTIONS.—The following transactions in real estate have been recorded since the last issue of the TIMES: J. R. Neil to Minnie A. Neil, premises in Jacksonville. Consideration, \$250. U. S. patents to John Tupper and wife, J. B. Thomas, D. H. Sexton and Stephen D. Taylor have been recorded.

RACE PROPOSED.—We learn that there is some probability of the well-known trotting stallions "Ophir" and "Sir Walter" meeting in a speed contest at Yreka next October, in which event an exciting race may be expected, as both horses are known to be fast.

THE NATIONAL GOLD MEDAL was awarded to Bradley & Ralston for the best photographic in the United States, and the Vienna Medal for the best in the world. 429 Montgomery street, San Francisco.

SETTLE UP.

ALL PERSONS KNOWING THEM—selves indebted to the undersigned, either by note or book account, are requested to call immediately and make a settlement. A word to the wise is sufficient. J. S. SOLOMON. Woodville, June 14, 1879.

SUMMER BOARDS.

A family of four persons, two of them children—a boy aged seven, and a girl of ten years, were spending the Summer in the country, quite a long distance from any town. The little boy, the pride of his parents, was taken suddenly and alarmingly ill. The mother was nearly frantic with grief, as all the simple remedies at hand seemed to have no effect. A neighbor, who had been sent for in great haste, took with her a package of Froese's Hamburg Tea. As soon as it could be prepared a potion was administered, and soon a change was apparent for the better. In a few hours he was entirely restored.

MARRIED.

NEWMAN-BRESSLER.—In Manzanita, July 20th, by Elder H. C. Fleming, Thos. B. Newman and Mrs. Hadlessa Bressler. BARNES-HACKETT.—In Yreka, Sunday, July 16th, by Rev. Chas. Miller, H. M. Barnes to Mrs. A. Hackett.

[We extend our congratulations and wish the happy couple a long life of unalloyed bliss.] REDFIELD-DAVIS.—In Josephine county, by Hon. Thos. F. Floyd, County Judge, July 18th, to David Peninger and wife, a daughter.

BORN.

ROLOSON.—In Jacksonville, July 12th, to J. T. Roloson and wife, a son. PENNINGER.—In Willow Springs precinct, July 18th, to David Peninger and wife, a daughter. LOUISIGNONT.—Near Jacksonville, July 16th, to the wife of Jos. Louisignont, a son. WAGNER.—In Ashland, July 13th, to the wife of Jacob Wagner, a son.

DIED.

McANDREW.—At the family residence on Bear creek, John Charles, son of Thomas and Margaret McAndrew; aged 3 years, 6 months and 22 days.

DR. MINTIE'S NEPHRETICUM.

DR. MINTIE'S NEPHRETICUM works wonders in all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, are cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back, side and loin are cured when all other medicines have failed.

See what the druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills: "We have sold a large amount of Dr. Mintie's medicines. The English Dandelion Pills; also the famed Nephreticum, and in all cases highly recommended." John A. Childs, Druggist, Second street, Portland. C. H. Woodward & Co., Druggists, corner First and Alder streets, Portland.

Messrs. Abraham Carroll, wholesale Druggists, Nos. 3 and 5 Front street, S. F. We regard the Nephreticum as the best Kidney and Bladder remedy before the public. All druggists keep it, and it is for all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills. For Biliousness, Dropsy and Liver troubles, Use Dr. Mintie's English Dandelion Pills. For Fever and Ague, Use Dr. Mintie's English Dandelion Pills. Every family should not fail to keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will give immediate relief and a cure in all cases, if taken according to directions, which they are recommended for. Dr. A. E. MINTIE & Co.—Gents: I volunteer to say your English Dandelion Pills equal and even surpass all you claim "from my experience in their use." Fancy they have no equal for Dropsy and Liver troubles. J. A. STROUBBRIDGE, First Street, Leather Merchant, Portland, Sept. 17, 1878.

Dr. A. E. MINTIE & Co.—Gents: I have used your famed English Dandelion Pills for torpid liver and dyspepsia and can freely say, they are the best Pills I ever had. I can recommend them as a sure preventive and positive cure in all cases of fever and ague. Truly yours, A. J. FARRINGTON, Contractor, Portland, Oct. 5, 1878.

DR. MINTIE & Co. treat all Chronic and Special Diseases with success. No. 11 Kearney St., San Francisco, Cal.

MRS. P. P. PRIM. MISS ELLA PRIM.

SPRING OPENING

THE NEW MILLINERY STORE.

WE HAVE JUST RECEIVED A NEW and complete stock of Millinery goods, consisting of:

- HATS OF ALL STYLES,
- RIBBONS,
- FEATHERS,
- FLOWERS,
- COLLARS,
- AND CUFFS,
- VEILING,
- ORNAMENTS, SILKS, LACES.

Gentlemen's and Ladies' Handkerchiefs. Call and see them at the building formerly occupied by Dr. Robinson on California street.

Kerbyville Mills.

THESE WELL-KNOWN MILLS, situated at Kerbyville, Josephine county, are now prepared to do a

Merchant and Exchange Business.

Will give as much flour, shorts and bran, for good merchantable wheat as any mill in Southern Oregon. Flour sacked and branded, customers furnishing sacks. The highest market price paid for good merchantable wheat in cash or goods. Satisfaction guaranteed in all instances. P. B. LEWIS. Kerbyville, July 16th, 1879.
