

WAGON ROAD MEETING.

A meeting of the citizens of Jacksonville and vicinity will be held on Saturday, November 23d, at 2 o'clock P. M., to hear the report of J. S. Howard on the new road to Crescent City. Turn out, everybody.

E. H. AUTENRIETH, M. HANLEY, J. NEUS, Committee.

CHRISTMAS AMUSEMENTS.—The Jacksonville Brass and String Band will give a grand ball on Christmas night and will also arrange a programme of festivities for the day. The Band will leave nothing undone to ensure a good time.

ATTENDANCE INCREASING.—There are now 125 pupils in attendance on Ashland College and Normal School and the number is constantly increasing. The faculty is indefatigable in its efforts to establish a first-class educational institution, and we are pleased to notice the success that is attending them.

TOLL RATES.—The County Commissioners at their last session fixed the rates of toll for the new Rock Point bridge, which are the same as charged at Chavon's bridge, to-wit: Sheep and hogs, three cents per head; horse cattle, ten cents per head; man and horse, 25 cents; one horse and buggy, two-horse wagon or buggy, or one yoke of cattle and wagon, 50 cents; four horses and wagon, or two yoke of cattle and wagon, 75 cents; each additional span of horses or yoke of cattle, 25 cents.

HOME AGAIN.—The editor of the Times has resumed his accustomed duties after a brief respite therefrom. His experience during the interregnum has been a most pleasant one and he expects to speak more fully thereof at an early date. The Times has been in excellent hands during his absence, and its readers have reason to be congratulated upon the able and faithful manner in which the functions of editor ad interim have been exercised by Adam Klippel, long connected with the editorial profession.

SOCIETY ELECTIONS.—Table Rock Encampment elects officers next Tuesday evening, and Jacksonville Lodge No. 10, I. O. O. F., will hold its election on the Saturday following. Under a new law passed by the last Great Council, Oregonian-Pacifists Tribe No. 1, Improved Order of Red Men, will elect officers one month earlier, to-wit: Tuesday evening, November 25th. Warren Lodge No. 10, A. F. & A. M., will hold its annual election on December 21st, and install officers on St. John's Day, December 27th.

THANKSGIVING DAY.—Rev. M. A. Williams will hold services at the M. E. Church on Thanksgiving Day, which falls on Thursday next. In the evening of the same day a festival will be held at the Club Room under the auspices of the ladies of the Presbyterian Church, to which all are invited. Nothing will be left undone for the entire success of the affair and a pleasant time is anticipated. The proceeds will be devoted to the furnishing of the Presbyterian Church about to be built in this place. Everybody should be in attendance.

SEVERE DEATH.—J. Heintzman, a well-known citizen of this county, died rather suddenly at Woodville on Saturday last. Some time previous to his demise he fell down the stairs of John Wood's store, in an apoplectic fit it is supposed, but received no serious injuries. He departed this life while suffering from a recurrent stroke, not having spoken for several hours. Decedent was 56 years of age and his death will be regretted by the many who knew him. The funeral took place from the Catholic Church on the following day. Rev. Father Blanchet officiating.

THE CHANGERS.—Division Agent Carl was in town one day last week looking after the interests of the O. & C. Stage Company, which has adopted the winter schedule. Stages are therefore running on slow time and arrive here from the south at 8:45 o'clock A. M. and from the north at 10:30 o'clock A. M. The Company has been strenuous in its endeavors for an uninterrupted mail service, and, considering the obstacles it was obliged to surmount, has succeeded admirably. The change will enable the drivers to make regular time until the close of winter half intere.

THE NEW PRESBYTERIAN CHURCH.—The building committee has let a contract to David Linn for the construction of the Presbyterian Church about to be commenced in this place. The contractor agrees to complete the frame of the edifice, including the roof and bellry, and give the whole a coat of paint, for the sum of \$2,400. It will be a substantial structure, with a lecture-room neatly arranged in the basement, and cannot but prove an ornament to the town when completed. The excavations have already been made and some of the material hauled upon the ground; but it is not probable that active operations will be commenced before Spring.

PERMANENTLY ORGANIZED.—The organization of the Jacksonville Jockey Club was perfected at the City Hall on Saturday last, quite an attendance being present. Col. John E. Ross was chosen temporary chairman and Frank Krause temporary secretary. The object of the meeting being stated, the following permanent officers were elected: Jacob Ish, President; J. A. Carlwell and J. W. Manning, Vice-Presidents; E. H. Autenrieth, Secretary; Max Muller, Treasurer. C. W. Kahler, E. H. Autenrieth, John Watson, S. Booth and J. H. McDonough were appointed a committee to draft the constitution and by-laws of the Club, to submit them at the meeting at the same place to-morrow afternoon. This will prove an institution of great importance to Jacksonville county and it should be fostered by its citizens.

"LEGION OF HONOR."—The following interesting programme has been arranged for the meeting of the "Legion of Honor" this evening: 1. Music by the Jacksonville Brass Band; 2. Song, "Temperance Battle Cry," by the choir; 3. Music by String Band; 4. Duet, Misses Kate Durwin and Fannie Dowell; 5. Address by W. J. Stanley of Central Point; 6. Solo, "Old Mousquetaire," R. H. MINING NEWS.

Miners are ready and awaiting water. Beck Bros. & Co. are engaged in working their diggings on Applegate. The miners of Josephine county are actively engaged in preparing for the winter run. Johnson & Allison are putting their claims on Jackson creek in first-class order for the ensuing season. E. F. Walker will leave for Grave creek this week, to look after the mines on Brimstone gulch in which he is interested. Copp's Hand-book of Mining Law, notices of location of quartz and placer mines and other mining blanks for sale at the Times office. Chas. J. Howard is surveying an extension to Sifers & Fisher's ditch, carrying water from Regue river to their mines near Big Bar. Frank Emis, who has just returned from Galice creek, informs us that the mines there are being put in order for an extended run. Capt. H. Kelly has returned from the Willamette valley to look after his mining interests in the northern portion of the county. There are about twenty men at Silver creek at present, who propose to remain during the winter and thoroughly prospect that region. Hamilton & Co., near Uniontown, are still busily engaged in draining, but expect to have everything in readiness by the time water comes. From Thos. H. Gilson we learn that the miners of Sterling creek have everything in readiness for water that, last week proved to be so abundant. McDonough, Kallher & Co. propose running a ditch from the lower end of McDonough's field to their mines near Fort Lane, which will be about a mile long. Lackland & Co., of the Palmer creek mines, are constructing a bulkhead and putting in flumes. They expect to operate on a more extensive scale than ever before. The miners who were anticipating that the rainy season had already commenced have been doomed to disappointment. Ex-Governor Chadwick will return to Southern Oregon in a few weeks and resume the inspection of our mining interests, with the view of investing capital he represents. General Lane returned to Roseburg last week from a trip to the mines in the neighborhood of Grave creek. He is favorably impressed with the mineral resources of that section. More mining will be done during the next season than for many years past, providing, of course, that there is plenty of water. The number of miners promises to be unusually large. The newly discovered mines near Crescent City are attracting much attention and many miners are wending their way thither. We have learned nothing of importance concerning them. Frank Emis, superintendent of the Sterling mine, informs us that the extension of the main ditch is about completed and that everything will be ready for active operations by December 1st. T. L. Beck of Willow Springs was in town this week. He says the recent rains enabled him to get his claims in order, so that when water does come he will be fully prepared for all emergencies. The Grand Applegate Company is piping away to good advantage and is favored with a supply of water that promises to hold out well. The horrick recently erected at those diggings is doing good service. Major Eugene Fochet, who recently spent several weeks inspecting the mines of Southern Oregon, will pay us another visit next month. He will probably then conclude whether or not an investment of capital he represents will be advisable. The Major is now at San Francisco turning his attention to something of quite a different nature. Superintendent Klippel of the Spruce Lake diggings was in town Tuesday. From him we learn that the main ditch will be extended 50 rods at once and he has a force of men engaged in the work. Mr. Klippel expects to have everything in readiness for piping in about two weeks. The lakes afford an abundance of water, so that there will be no delay on that score. Considerable mining in quartz is now progressing in the Willow Springs district, with fair results. The parties prospecting the Balls ledge are said to have struck excellent silver-bearing ore, while Banner & Co.'s vein is looking well. John Soreen, who is working the Bondeux ledge, also has good prospects. Ruten & Masden have their arasta in running order and expect to report favorable developments. Egan & Co. are still busily engaged in crushing, but have made no clean-up as yet. The vein continues to increase in size and affords an excellent quality of ore. Mr. Egan brought several specimens to town Saturday, in which considerable free gold could be seen. The company has about sixty tons of ore on the dump, all of which is very fair in quality. An offer, based upon a contingency, has been made for the mine, but the owners have not accepted it as yet. It is also proposed by parties from abroad to put up an eight-stamp mill for an interest of the ledge, but as to what is claimed for it, this is one of the most promising lodes that has been discovered in the State and may prove a veritable bonanza.

SEVENTEEN YEARS AGO.—Wednesday Rev. Father Blanchet celebrated the seventeenth anniversary of his arrival in Jacksonville, during which time he has had uninterrupted charge of this parish. Great changes have taken place since then and the steady progress and increasing prosperity that have ever manifested themselves are due to his efficient administration of the affairs of his pastorate more than to anything else. A ROSERING paper states that it is estimated that at least a fourth of the farmers of Regue river valley went to Roseburg this season to purchase their supplies. This estimate is not conspicuous by reason of its accuracy; but it is an indisputable fact that for one reason or another a considerable amount of road money is sent abroad that ought to be retained at home. SETTLERS can have their notices for land sold and other land notices published in the Times by requesting the officers of the Baseburg Land Office, through the County Clerk or other agents, to send them to this establishment where the service will be performed at the very lowest rates. QUARTERLY MEETING.—The first quarterly meeting for Jacksonville Circuit will embrace the first Saturday and Sunday in December.
