ALL SCRIS.

The population of California is estimated at 350,000, a gain of 110,000 since 1870.

The Grand Lodge of Masons, of Great Britain, gave \$2,500 to the Irish Relief It is stated that Gon. Banning, of Los

Angeles, a leading Republican, has declared for Hancock. Sporting men are offering bets on Han-

cock's popular majority, giving a margin of 250,000 to their opponents.

Ex-Congressman Luttrell has removed to Arizona for a permanent home. He is engaged extensively in mining.

The Democrat feels happy over the prospect of a big wheat crop in Linn county, as there is no prospect for rust now.

The Independent press throughout the North is generally supporting Hancock, while the same supported Hayes four Americans took all the first prizes for shooting at Wimbleton, England, last

week, three of them being tied, but all took prizes. An ordinary woman's waist is thirty inches round. An ordinary man's arm is about thirty inches long. How admira-

ble are thy works. Oh nature! The citizens of Salem have appointed a committee of five to make arrangements for a Fall meeting of horsemen and

others on the State Fair grounds. Put away the long blonde tresses That our darling used to wear; She will never, never need them,

For our darling bangs her hair. In one of the San Francisco Democratic clubs are sixty veteran soldiers of the Uaion army who voted for Hayes in 1876,

but who will vote for Hancock this time. Mary Beang deemed herself neglected by her lover at Denver. Therefore she shot the man with whom she found him playing cards when he ought to have been

visiting her.

One of the largest lumps of solid gold ever seen in San Francisco, and now on exhibition, is about fourteen inches long by seven in width and six in height. Its value was estimated at \$55,000.

Thos. Jefferson is said to have been the only smart man that ever lived who parted his hair in the middle. The sensible woman who bangs hers has not been heard from. Correspondence solicited.

The stories of Garfield's boyhood multiply. The steersman of the canal-boat whose horse-power Garfield managed was found the other day, and, being asked what kind of a boy Jazaes was, said: "Well, I don't think he was any worse than a

"Pat." said the editor to Maloney. "here's an item about a man who killed his wife and child and then hung himself. What ought to be the verdict of the coroner's jury?" "Joostitiable suercide," said Pat, for a man that's as mane as that ewt to hang himself."

"Do you see that spring over there?" said a settler in Arkansas to a stranger. Well, that's an iron spring, that is; and it's so mighty powerful that the farmers herses about here that drink the water of it never has to be shod. The shoe just grow on their feet nat rally.

Ohio has taken a new departure. From an unusually heavy death rate of the Ancient Order of United Workmen, it has gone to the other extreme. With 3,000 members, it has only one eath notwo months. Pennsylvania, with 9,000 members reported, had ten deaths in Major

Reports of business, for the year past, in New York show that the business has immensely increased. The export of our product has gone ahead of anothing known in past years, and the import of it. Sometimes its impurity is indicated by one foreign goods have also shown great in of the diseases named; sometimes by a gloomy, crease. The last half year shows great increase of business activity.

Young man, don't swear. There's no occasion for swearing outside of a printing office, where it is useful in proofreading, and indispensably necessary in getting forms to press. It has been known to materially assist the editor in looking over the paper after it is printed. But otherwise it is a fool, h habit.

- It is nothing strange that Mr. and Mrs. Hayes have slept in Geo. Washington's bed at Mount Vernon, for Lancoln, Buchanan and several others have done the same thing. But Mr. and Mrs. Haves have been sleeping in Santuel J. Tilden's bed at the White House for several years. That is something nobody else has done.

THE Philadelphia Chronicle-Herald, an Independent-Democratic journal, says: "If Gen. Garfield didn't know that there was a colored gentleman in the wood pile when Oakes Ames offered him a slice of Credit Mobilier for next door to nothing, carried it for him without cost, and paid over \$329 to him as a dividendand all this without a dollar of investment on the nominee's part, Garfield is too sweet a dear innocent to be entrusted with so important a trust as the Presidency. Shrewd, wicked men are always buzzing around a weak, innocent President, in the hope of promoting their bad schemes by his innocent aid. We want in the White House a man not so innocent but that he knows vice when he sees it and not so familiar with its hideous mien that he embraces it. If General Garfield was not corrupt he was weak, and we leave our esteemed contemporaries who are managing his campaign the dilemma of the alternates.'

vegetable alteratives - Stillingia, Mandrake, Yellow Dock - with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.

Its ingredients are so skilfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease. The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience

of its usefulness. Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known. that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.
