

DEMOCRATIC TIMES.

Official Paper for Jackson, Josephine & Lake Counties, Oregon.

FRIDAY, JUNE 27, 1884.

CARL SCHURZ says partyism cannot be relied on to rally the better element of Republicans to the support of Blaine.

STRANGE as it may appear, the most vicious assaults upon the Republican candidate for the Presidency come from Republican journals.

THE TIMES circulates 1,800 copies, which list is constantly increasing. This circulation is larger than that enjoyed by any newspaper published in Oregon, outside of Portland. This makes the Times a superior advertising medium.

REPUBLICAN papers are parading the fact that Jay Gould is highly pleased with the nomination of Blaine, and has written a letter to the Tribune to that effect. That is one great reason why the people should not support him. He is the monopolist's candidate.

THE New York Times (Rep.) publishes from three to four columns a day from Republicans who endorse its course in opposing Blaine, and who say they would vote for such a man as Cleveland or Bayard, but will under no circumstances vote for Blaine.

THE Associated Press, the managers of which have forbidden the transmission of dispatches unfavorable to Blaine, has commenced a vigorous campaign against Gov. Cleveland notwithstanding that he is not yet a candidate. It looks very much as if he was the man on the Republican leaders' feet's most.

WITH the last issue the Yreka Journal entered upon its 29th volume. Rabt. Nixon has been publishing it for the last twenty-three years, with considerable success. It is an excellent local paper, but its political statements are greatly prejudiced and rather unreliable. The paper appears in a new dress.

THE attorney of the Standard Oil Company has been appointed attorney-general of the United States, and leaves his office in Washington and goes to Pennsylvania to assist that corporation to evade taxes it owes the Commonwealth, while the star-robbers are suffered to escape in Washington. The good, honest, clean, upright Republican administration should continue in office; the dear people need it badly.

THE Republican press is vigorously pressing the claims of Ben Butler to the Democratic nomination for President. Such a thing is not talked of seriously by the Democracy, however. Butler would make the best President the country has had since Lincoln; but he does not pass gracefully as a Democratic candidate. The party indulged in a dish of crow in 1872 that has badly sickened it of any more fowl of that description.

THE Portland Standard is wasting its energies in a boom for Hon. S. J. Field. Bro. Nutter has a weakness for monopolists and their methods, and consequently Judge Field suits him exactly. The resolution against that gentleman's nomination, so unanimously passed by the California Democratic convention at Stockton, reflects the sentiments of four-fifths of the Democracy of the Pacific coast. They much prefer a Democrat of Hon. A. G. Thurman's stamp.

THE Republicans have turned a remarkable somersault in adopting the anti-Chinese plank in its present platform. Many more Republicans voted against the original bill than for it, and a Republican President vetoed it. The second bill was passed by Democratic votes. Blaine's senatorial henchmen from Logan stalling the measure and Logan lodging the vote. The attitude of the two parties on the question is commended to the consideration of the Pacific states voters.

WE have received a pamphlet containing the report of the committee which examined the charges made against Rev. A. J. Hunsaker by the Portland Mercury some time ago. This gentleman was accused by that unscrupulous sheet of taking improper liberties with a young lady from Ashland while aboard the stage then running to Ashland. The committee finds from the evidence of competent witnesses that the charges are slanderous and without any foundation whatever. Some law should be passed by the next legislature that would reach this class of papers and punish them severely.

GOV. CLEVELAND of New York seems to be the favorite with a majority of Democrats for the first place on the Presidential ticket and we would not be surprised if he received the nomination on the first ballot. He has proved himself an able, honorable and high-minded official, far above the average run of politicians, and a good deal like his illustrious predecessor, Mr. Tilden. We consider him the strongest man the Democracy can nominate at this time. He can beat Blaine easily, for he will not only get all the votes of the party, but of most of the independent Republicans besides. New York would be sure for him.

THE Republican press of the Yreka Journal's stripe would hold the California Democracy entirely responsible for the failure of the legislature of that State to pass any salutary railroad legislation at the extra session. Those journals are not honest enough to state the facts in the matter. They forget to tell that the Republican legislators, with a few honorable exceptions, voted in favor of the railroad right along, and that but for a few corrupt Democratic senators Gov. Stoneman and the San Jose platform would have been vindicated. The California Democracy is almost solid against the encroachments and lawlessness of the C. P. railroad and other monopolies, and with very few exceptions its leaders are anti-monopolists. It is only natural that papers which publish the arguments of railroad attorneys and are in the employ of Stanford & Co. should question the honesty of others.

EDITORIAL NOTES.

HERMANN's majority will not reach 2,000, while Judge Thayer's will be nearly 2,000.

THE telegraph reports that it is proposed to force Tilden to accept the Democratic nomination.

BISHOP SIMPSON, the venerable bishop of the M. E. Church, died at Boston recently, aged 73 years.

EVEN President Arthur and his cabinet are giving the Republican ticket their great endorsement.

COMMISSIONER GIBBSON and Morgan & Sanz, New York speculators, have suspended. Many millions of dollars are involved.

CITY WORKERS are pestering farmers in the Willamette valley and have already destroyed many fields of grain. Jack county does not have any such luxuries.

THE Republican managers are engaged in the delectable business of boycotting Herge's Weekly, the N. Y. Times and other papers they cannot control.

THERE have been heavy rains in California. The levee broke near Stockton and did great injury to farms in that vicinity. Damage in other portions of the State is also reported.

IT is amusing to see the Republican papers try to pooh-pooh the Independent movement out of existence. If we judge from the space they occupy in this enterprise they are greatly worried over it.

THE business interests are arraying themselves against Blaine. He is just the man to disturb our relations with any foreign power on the slightest provocation. The people can have no use for such an unsafe man.

CONGRESSMAN CALKINS has been nominated for Governor of Indiana, beating W. W. Dudley, pension agent, a few votes. He is not a particularly strong man and will be easily defeated by Hendricks, Gray or any other popular Democrat.

MRS. DUNWAY's paper keeps up the fight against those who voted no on the woman suffrage amendment in a manner more forcible than elegant. Vituperation and misrepresentation are too prominent in that lady's warfare for people who want argument.

FROM every quarter come the news that many Republicans will not support Blaine and Logan, and there are many influential journals and men in this revolt. If the Democrats act judiciously at Chicago on July 8th, thousands of Republicans will vote their ticket in November.

SEVERAL army wagons were brought from Vancouver Monday and forwarded over the O. & C. R. R. to Fort Klamath, to remove the detachment of the Twenty-first infantry stationed there to California, whence they will proceed to their new quarters at Sulez, Nebraska.

SEVERAL Democratic State conventions send delegates to Chicago pledged for Cleveland, and the Indiana delegation is instructed for McDougal. Now let the friends of those gentlemen pool their names so that the presidential ticket will read Cleveland and McDougal. It can be easily effected.

QUITE a number of people from this section will visit Portland on the 4th of July, and there will be some from northern California also. The railroad has made great improvements and tickets for the round-trip will cost only \$12, good from July 21 to July 31 inclusive. From Yreka the rate will be \$18.

FALLERS of bankers, business men and speculators continue at a lively rate in the East. Thousands of workmen are also on a strike because their employers insist on retaining their small wages still more. And yet the Republicans inform us that the country is prosperous and contented under their rule.

THE Senate has passed a bill pensioning Mexican veterans, but it is so loaded down with provisions that the noble object originally in view is lost sight of. Senator Vest stated the case exactly when he said the Republican majority was influenced by the fact that the war with Mexico, that had cost so much glory on Americans, was a Democratic war.

THE railroad company has given such inducements in the transportation of fruit and fruit boxes that our farmers feel much encouraged. This is decidedly a fruit growing section and we hope that immediate steps will be taken so that we can furnish the Portland Mercury with fruit. There is no reason why this cannot be done. All that is necessary is enterprise and good management.

NOT A SAFE MAN. The Oregonian, the leading Republican newspaper of Oregon, hits the nail on the head when it says: "The German foreign policy of Mr. Blaine. Twice say they left Germany because the foreign policy of that country was too vigorous for them, and came here under the idea that the citizens of this country were not to be disturbed by foreign broils or commotions, or taken away from their homes and business for the honor of the emperor or the emperor's son." And many other foreign broils and commotions, and plenty of nations, too, object to Mr. Blaine on the same grounds. He has proved a reckless statesman and will not make a safe President. While Secretary of State under Mr. Garfield, he was always "spooling for a fight or quarrel" with some foreign power. The people do not want war. It is hazardous and unprofitable business.

CIRCUIT COURT PROCEEDINGS. The following business has been transacted in this court since our last report: H. C. Dollarhide vs. O. & C. R. R. Co.; damages. Continued. J. A. Higgins vs. Jacob Mills; to foreclose mortgage. Dismissed. W. C. Daley, J. R. Tozer and H. S. Emery vs. A. D. Holman et al.; specific performance of contract for conveyance of land. A. D. Holman appointed guardian of them for U. S. G. and Otis O. Holman, minors. State vs. C. W. Keston and others; robbery. On motion of the district attorney the indictment against said Keston was dismissed, so that he could be used as a witness for the State in the trial of his co-defendants. It was ordered that he also be placed under bonds of \$1,000 to appear as such witness, and in default of bail he was committed to the custody of the sheriff. State vs. Chas. Bassett, Frank Howard, Wm. Brisson and J. M. Jarrett; indictment for robbery, being armed with dangerous weapons. On trial.
