

GENERAL NOTES AND NEWS.

In Chicago hogs are a cent a pound cheaper than a year ago.

The Portland city directory for 1887 puts the population of that city at 37,000.

The extensive firm of Baninger & Frank of Baker city have failed, with liabilities of \$100,000.

The people of Crescent city and Smith River are interested in keeping the Chinese out of that country.

Six and seven cents will be the price of shearing in eastern Oregon. A fast man will shear 100 sheep in a day.

The legislature of Missouri has fixed \$1000 as the price for a liquor license in towns of 10,000 inhabitants.

Sunset Crooks thinks Cleveland will easily get the whole New York delegation and Hill is too tired to antagonize him.

The Senator Warner Miller of New York is on his way to the east coast via California, Oregon and Washington Territory.

Rev. Mullins, former pastor of the Taylor street M. E. church of Portland, is now doing business as an insurance agent in Iowa.

The road leading to the Pine and Silver mining districts will soon be in good condition for travel.

Eugene city is reported as booming, the city is reported as booming, the city is reported as booming.

Len Myers of New York and W. N. George of England ran the 1000-yards race in Australia.

Scott Bar. Cal. claims to have the tallest postmaster in the United States.

An Eugene city paper says that hydropneumonia is giving more careful attention to their vines than for some years past.

The average of European girls when they marry, according to a German statistician, is 25 years, and that of men is 28 years.

The office of sheriff of Multnomah county is worth about \$10,000, and of Clatsop \$8000; that of governor of Oregon \$15000 a year.

The United States navy consists of 43 serviceable vessels, 100 gunboats, 16 receiving ships, and 16 vessels partly completed.

A mammoth sack brush taken from the McIntyre ranch, can be seen at the office of Nichols & Hanaker, Linkville, which measures at the base one foot in diameter.

The Moral Educators of Chicago have formally thanked Mrs. Cleveland, wife of the president, for the good example she sets before the human race by wearing high-necked dresses.

A book on etiquette tells "how to let a man larger than yourself that he is a star."

There is a law prohibiting the catching of Chinook salmon before April 1st. Notwithstanding this law, about 100,000 and 200,000 pounds of this fish was shipped east west before last Portland.

A new kind of engine has been placed in the printing establishment of Godfrey & Moore, Salem. It is called a Dow water engine, and is run without steam or electricity. Water is the moving power.

The Oregon insane asylum contains 437 patients. The number of convicts in prison is 272. Prisoners serving their term 245. Second term 31. Third term 5. Sixth term 1. Twenty-two are up for life.

Congressman Dr. W. H. Cole of Maryland died in Washington lately with Bright's disease, after having been confined to his house about six weeks. This makes six deaths of members in the forty-ninth congress.

Claims against the United States government for payment of damages to the Chinese who were driven out of Tacoma, Squak and Newcastle have been prepared and forwarded to Washington. They will aggregate over \$100,000.

In the prohibition county of Rock Castle, Kentucky, Eliza Fish, an old woman, was whipped for selling liquor after being warned to stop. She was being done, several slaves were fired from over the fence and three men fell dead.

At one of the Salem salvation army meetings an over-enthusiastic man exclaimed: "Last night I was clasped in the arms of a wicked man. Tonight he drove me out of Tacoma, Squak and Newcastle. If it were not for the weather you would be at a loss to know what to talk about. Now take me."

The fund for the relief of Mrs. General John A. Logan, started by George E. Lemon, proprietor of the National Tribune, now amounts to \$40,000. It is Lemon's intention to increase the fund to \$100,000. Since congress refused to pass the bill to pension Mrs. Logan, he thought there was no difficulty in raising the money.

The statement is in print that the celebrated actor, P. W. Clark of Louisiana may be seen any day at the races in London carrying on the business of a professional bookmaker. In his slave days Pinkback was himself put up as stakes in a game of draw poker on a Mississippi steamboat and changed names then and there.

The West Side Telephone, published at McMinnville, says that recently several young girls from 16 to 18 years old paraded the streets with light colored dresses in their mouths. The Telephone man is horrified at the spectacle and says such conduct is unworthy of the young ladies who profess to be a lady. The young ladies mentioned are attending a college there.

A Brooklyn man was recently imprisoned eight days for kicking a girl against her will. We have never kissed a girl against her will, but we have kissed them against fences and barns and apple trees, and other hereditations and appertinences, and if we had been locked up eight days for every misdemeanor, our life would be mortgaged for the next 16,000,000 years. Yum! yum! More—Colombian.

A Terrible Surgical Operation

A FATAL MISTAKE.

The Cleveland (Ohio) Press, of February 23d, 1885, published an account of a fatal surgical operation which caused a great commotion among medical men throughout the whole country.

Dr. Thayer, the most eminent surgeon in Cleveland, pronouncing it scandalous. It appears that a Mrs. King had been suffering for many years from some disease of the stomach, which had resisted the treatment of all the physicians in attendance.

The disease commenced with a slight derangement of the digestion, with a poor appetite, followed by a peculiar indescribable distress in the stomach, a feeling that has been described as a faint "all gone" sensation, a sticky slime collecting about the teeth, causing a disagreeable taste. This sensation was not removed by food, but, on the contrary, it was increased.

After a while the hands and feet became cold and sticky—a cold perspiration. There was a constant tired and languid feeling. Then followed a dreadful nervousness, with gloomy forebodings. Finally the patient was unable to retain any food whatever, and there was constant pain in the abdomen. All prescribed remedies failing to give relief, a consultation was held, when it was decided that the patient had a cancer in the stomach, and in order to save the patient's life an operation was justified.

Accordingly, on the 22d of February, 1885, the operation was performed by Dr. Vance in the presence of Dr. Tuckerman, Dr. Perrier, Dr. Arms, Dr. Gordon, Dr. Capner, and Dr. Halliwell of the Police Board. The operation consisted in laying open the cavity of the abdomen and exposing the stomach and bowels. When this had been done an examination of the organs was made, but to the horror and dismay of the doctors there was no cancer to be found. The patient did not have a cancer. When too late the medical men discovered that they had made a terrible mistake; but they sewed the parts together and dressed the wound that they had made, but the poor woman sank from exhaustion and died in a few hours. How sad it must be for the husband of this poor woman to know that his wife died from the effects of a surgical operation that ought never to have been performed. If this woman had taken the proper remedy for Dyspepsia and Nervous Prostration (this was what the disease really was), she would have been living today, and the article has an extensive sale.
