FRIENDS OLD AND NEW.

Make new friends, but keep the old—
Those are silver, these are gold;
New-made friendships, like the wine,
Age will mellow and refine.
Friendships that have stood the test—
Time and change—are surely best;
Brow may wrinkle, hair grow gray,
Friendship never knows decay.
For 'mid old friends, tried and true,
Once more we our youth renew
But old friends, alas! may die,
New friends must their place supply.
Cherish friendship in your breast.
New is good, but old is best;
Make new friends, but keep the old—
Those are silver, these are gold.

The streets of Canton are only three or four feet wide, and when a woman with a bustle on gets into one of them, she has to go clear through before she can turn around.

A member of the cabinet denied recently Dr. McGlynn's statement that the Pope had sounded the cabinet on the subject of receiving an embassador from the Church of Rome.

The startling fact is now learned that Hon. J. N. Dolph, U. S. Senator, walked into Oregon in 1852. He comes in now on a free pass, and his daughter has just married a newspaper man.

Willis H. Bocock, who was last week elected Professor of Greek in Hampden Sidney College, Virginia, is said to be the youngest college professor in the United States. He is 22 years old.

In his paper, the Standard of a late date, Henry George has a long article on the excommunication of Dr. McGlynn, in which he endeavors to prove that some public ceremony will be necessary.

If Sherman or Blaine were president and had promised to attend the Grand Army encampment at St. Louis, would the Democratic members of the Grand Army refuse to meet him? Hardly!

Several of our exchanges have stated that Adam Forepaugh was coming to Oregon with his great circus. We are unable to find anything in the bill to that effect. Adam will probably not come here.

The editors of Benton county have formed a press association and invite the editors of Oregon to meet at Yaquina bay on Saturday, July 30th, for the purpose of organizing a State Press Association.

Marple, the convicted murderer of Corker, is lying in jail at Layfayette at an expense of $15 a week to the taxpayers. They talk of sending him to the Palace hotel, San Francisco, as a matter of economy, if this thing lasts much longer.

It is now complained that the President does not wine and dine the members of the cabinet, senators, congressmen and foreign ministers as much as his predecessors, and is saving a good part of his salary. This is only another evidence of his good sense.

The fastest sheep-shearing ever done in Washington territory was accomplished near Sprague last week, for Coolidge & Benshaw of Colfax. Twenty-one men sheared 2380 sheep in one day, eight of the number being bucks. The highest tally was made by Joe Burlingame of Pomeroy, 174.

Senator Dolph, accompanied by his son Chester, left Washington last week for a two months' stay at his home in Oregon. Senator Dolph's health has much improved of late. On his return he will be joined by Mrs. Dolph at some one of the summer resorts in the neighborhood of Washington.

Baker city clamors for the establishment of reduction works at that place, as the high rates of freight on the O. R. & N. road precludes all chances of reducing ores by shipment to Portland. The present rate is $27.50, which leaves nothing for the miner on anything less than $50 rock, which is far above the average.

The President discussed the question of elevating Secretary Lamar to the supreme bench with all the cabinet officers, Lamar of course excepted, and they have expressed general satisfaction with the proposition. It is stated the appointment has been fully decided upon, provided a good man can be secured for the interior department.

When the money kings of Wall street commence robbing each other, it is a small consolation to the gullible poor who were first fleeced, to stand by and watch the performance. Gould has downed Field for a block of 50,000 shares of Manhattan. The question is now asked who did Field down for it and who is there left to down Gould?

The victory of the Sacramento-bred colt, C. H. Todd, in the great Derby race at Chicago, should be something for the cognoscenti in racing matters to study over and reflect upon. Here is a race worth to the winner an average of $10,000 each year, exclusive of bets or pools; and in three out of the four years of its existence it has been won by a California-bred horse.

The conviction of Jacob Sharp, of the crime of bribery in New York, is an epoch in American history of crime in high places and ranks far above the punishment of Bill Tweed, the defunct boss of Tammany. The men who traffic in the purchase or sale of other men's consciences, and particularly the elastic consciences of aldermen, will have to seek another locality than the Empire City.

The Baker city papers give glowing accounts of rich discoveries in the Silver creek country, near the middle fork of the John Day. The California mine is working in a vein of ore that pays about $50 per ton for two feet, and at least $200 in gold for a streak of ten inches. Taber & Swan, on Cracker creek, are working a ledge of thirty feet in width, worth $12 per ton in gold and rich sulphurets.

Another mining disaster has been recorded, by which five men lost their lives by a fire in the Comstock mines, Virginia, Nev., and the news that this number is doubled is hourly expected. Five men were rescued, but six of the unfortunate miners are still entombed on the 1500-feet level of the Gould & Curry mine. Every effort is being made to reach them, but at the present writing little hope is entertained of their being taken out alive.

Over three months ago Frank Percy, a Portland book-keeper, suddenly disappeared, being last seen by his friends at Umatilla. Long and anxious search was made for him, but he could not be found. It was feared he had been murdered, or become insane or perished, though there was some evidence that he went east over the Short line. His accounts were all straight, and his domestic relations were supposed to be pleasant. A few days ago, however, he was seen and recognized in Kansas city, where he has been living in a secluded manner for sometime. It seems to be a case of cruel desertion of his family.

A Terrible Surgical Operation

A FATAL MISTAKE.

THE *Cleveland* (Ohio) *Press*, of February 23d, 1883, published an account of a fatal surgical operation which caused a great commotion among medical men throughout the whole country. Dr. Thayer, the most eminent surgeon in Cleveland, pronouncing it scandalous. It appears that a Mrs. King had been suffering for many years from some disease of the stomach, which had resisted the treatment of all the physicians in attendance. The disease commenced with a slight derangement of the digestion, with a poor appetite, followed by a peculiar indescribable distress in the stomach, a feeling that has been described as a faint "all gone" sensation, a sticky slime collecting about the teeth, causing a disagreeable taste. This sensation was not removed by food, but, on the contrary, it was increased. After a while the hands and feet became cold and sticky—a cold perspiration. There was a constant tired and languid feeling. Then followed a dreadful nervousness, with gloomy forebodings. Finally the patient was unable to retain any food whatever, and there was constant pain in the abdomen. All prescribed remedies failing to give relief, a consultation was held, when it was decided that the patient had a cancer in the stomach, and in order to save the patient's life an operation was justifiable. Accordingly, on the 22d of February, 1883, the operation was performed by Dr. Vance in the presence of Dr. Tuckerman, Dr. Power, Dr. Arms, Dr. Gordon, Dr. Capner, and Dr. Halliwell of the Police Board. The operation consisted in laying open the cavity of the abdomen and exposing the stomach and bowels. When this had been done an examination of the organs was made, but to the horror and dismay of the doctors there was no cancer to be found. The patient did not have a cancer. When too late the medical men discovered that they had made a terrible mistake; but they sewed the parts together and dressed the wound that they had made, but the poor woman sank from exhaustion and died in a few hours. How sad it must be for the husband of this poor woman to know that his wife died from the effects of a surgical operation that ought never to have been performed. If this woman had taken the proper remedy for Dyspepsia and Nervous Prostration (for this was what the disease really was), she would have been living to-day. SHAKER EXTRACT OF ROOTS, or SEIGEL'S CURATIVE SYRUP, a remedy made expressly for Dyspepsia or Indigestion, has restored many such cases to perfect health after all other kinds of treatment have failed. The evidence of its efficacy in curing this class of cases is too voluminous to be published here; but those who read the published evidence in favor of this dyspeptic remedy do not question its convincing nature, and the article has an extensive sale.
