A Sad Affair.

The community was greatly shocked last Saturday to hear that Neil Grigsby, son of J. S. Grigsby of Manzanita precinct, aged about 19 years, had committed suicide that morning. He was one of a party of young folks who had gone to Big Butte creek precinct to gather berries and spend a few weeks in recreation. It seems that he was deeply in love with a cousin, who saw fit to decline his proposal for marriage, and in a fit of jealousy and despondency he took his life. The weapon young Grigsby used was a Winchester rifle, the muzzle of which he placed to his heart, while a short distance from camp, in the presence of the girl he was enamored of, and touched off the trigger with a stick. He survived a few hours, the ball ranging upwards and coming out at the left shoulder-blade. The body was brought to his parents' residence, where an inquest was held by Justice Leever. The jury returned the following verdict: "We, the jury in the case of W. C. Grigsby, after hearing the testimony and examining the nature of the wound, have come to the decision that he came to his death by a gunshot wound inflicted by his own hand."

The Crop Outlook.

Harvesting has passed its zenith,—in fact, the large majority of the farmers have finished threshing their crops and are either hauling them to market or storing them. The acreage this year is considerably larger than that of any previous year, and the prospects at the beginning of the season seemed quite favorable for an immense yield; but the several extremely hot days during the last of May and forepart of June, when the grain was in the milk, shriveled much of it and otherwise did much damage. In our opinion there is more grain in the valley this year than there was last, though many disagree with us. Regarding the price, it would seem that there are no fixed quotations at present. We learn that at one of the warehouses along the railroad only 55 cents a bushel is offered, while some of the millers are offering more. However, it is quite certain that grain will open at a lower price than was expected.

A Grape Country.

What is known as the White Sweetwater grape has made its appearance in this market and is of excellent quality and flavor. We never saw grapes that would beat those grown in southern Oregon, and it is surprising to us that no more people are engaged in their culture. The time will soon come when the foothills around Jacksonville and numerous other localities will teem with vineyards producing immense quantities of the choicest grapes. The soil and climate of many portions of this part of Oregon are especially adapted to the successful cultivation of this kind of fruit and of all kinds of it, too. Whenever these facts are generally known people will come to establish what are now known among the leading industries of California—the manufacture of wine and raisins.

One of Our Promising Farms.

One of the very best cultivated and most productive farms in southern Oregon is that of Hon. J. H. Stewart, in Eden precinct. Watermelons, berries, fruit and vegetables of all kinds grow in reckless profusion there, evincing the skill and industry of the proprietor. Mr. S., having had charge of the place less than two years, has not yet had an opportunity to fully demonstrate the productiveness of his farm nor his ability as a farmer. It will take a few years yet to put his place at its best. Then can be seen if the soil of this section cannot compare favorably with that of any other.

Prisoner to be Released.

Hon J. K. Weatherford of Linn county, one of the leading attorneys of the Willamette valley, was at Jacksonville a few days ago, in the interest of Wilson, who has been held to answer on a charge of horse-stealing and is confined in the county jail. The defendant is respectably connected, some of his relatives being rich. It is quite likely that they will furnish the required bonds, in which event he will shake the dust of Oregon from his feet and quietly steal away to other scenes.

P. S.—Since the above was written Wilson has been discharged from custody.

New School Teacher.

The directors of Jacksonville school district have secured the services of W. M. Blackford of Ohio, a graduate of the Lebanon (Ohio) normal school and a schoolmate of Prof. G. H. Watt, to fill the vacancy in the school caused by the death of the late Wm. Priest. Prof. B. has the best of recommendations as to his worth and efficiency, and as he has had several years first-class experience as a teacher, will no doubt give satisfaction. The directors propose leaving nothing undone to promote the excellence and prosperity of our school, which already ranks among the best in the State.

Prohibition Leagues Formed.

Dr. J. W. Watts of Yamhill county has recently been speaking in this valley in favor of the prohibition amendment. The "Tidings" says that at Ashland an amendment league of 82 members was formed with H. J. Teel as president, the members being both men and women, pledged to work for the amendment. At Jacksonville a league of 39 was organized, with Judge Day as president; at Phoenix a league of 38 with Dr. Kahler as president; at Medford a league of 44.

Fire.

The granary of Haskell Amy of Central Point was burned to the ground last Wednesday night, together with some agricultural implements. Fortunately the building was some distance from any other and the fire did not spread, until it was discovered and kept from doing any further damage. This was no doubt the work of an incendiary. The loss is estimated at $450, upon which there was no insurance.

A Chick again on The Wing.

Geo. H. Chick, who has bilked nearly everybody having anything to do with him, is making himself quite scarce around Redding, the scene of his last magnificent(?) mining scheme. He left this county mourned by many confiding creditors, which seemed to be the case everywhere Chick knows nothing about mining and is a fraud of the first water. We warn the public against him.

Prohibition Lectures.

Prof. Bork, of Michigan, will lecture on prohibition at the M. E. church in this place to-morrow (Saturday), August 27th, at 8 o'clock P. M. and on Sunday at 11 A. M. and 8 P. M. All are invited.

Physicians Have Found Out

That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive subcutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggravating as a consequence, chalky deposit which produces stiffness and distortion of the joints. No fact which experience has demonstrated in regard to Hostetter's Stomach Bitters has stronger evidence to support than this, namely, that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the poisons often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fevers, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders. See that you get the genuine.

Unnecessary Misery

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

Races.

The match race which took place last Saturday, at Capt. Barnes' place near Central Point, attracted a large crowd. The contestants were Stilly Riddle's "Nelly Gray," from Canyonville, and C. C. Rippey's gray horse, "Cap.," the stakes being $250 a side and the distance 500 yards. The mare was a great favorite in the betting and won easily, with hands down. Her owner has made another match race, this time with Crit. Tolman, who names the roan pony "Ten Cents," a well-known racer. It will be run at Yreka, Cal., on the second day of the fair, for $500 a side. This will probably be the leading event, and of itself will bring many people together, as both animals are known to be fast.

On Sunday a match race for $40 a side was run on the same track, between a bay horse from Canyonville and A. T. Kyle's "Buckskin." The latter won handily. There was also a large turnout on that day.
