A Great Victory A Terrible Case of Scrofula

Cured by Hood's Sarsaparilla

"In the winter of 1879 I was attacked with Scrofula in one of the most aggravating forms. At one time I had no less than thirteen large abscesses over and around my neck and throat, continually exacting an offensive mass of bloody matter disgusting to behold, and almost infolerable to endure. It is impossible to fully describe my sufferings, as the case.

After three years of misery, having been treated by three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last twelve months, the scrofulous cruptions have entirely ceased, and the abscesses have all disappeared, except the unsightly scars, which are daily becoming 'smaller by degrees, and beautifully less.' I do not know what it may have done for others, but I do know that in my case, Hood's Sarsaparilla has proved an effective specific indeed. As an evidence of my gratitude I send these facts unsolicited, and I am ready to verify the authenticity of this cure, by personal correspondence with any one who doubts it." Charles A.
