Official Paper for Jackson, Josephine & Lake

FRIDAY .... FEBRUARY 24, 1888.

Said convention will be composed of 155 delegates, apportioned to the various counties on the vote cast for the candidate for Congress at the election of 1886, being one delegate for each county and one for every 200 and fraction over 100 votes so cast.

Total			155

The committee respectfully recommends that the county conventions for the election of delegates to the State convention, unless otherwise ordered by the local county committee, be held on Saturday, March 24, 1888.

B. GOLDSMITH,
Chairman Democratic State Central Committee.

JOHN A. DIMMIG is now on trial in San Francisco for the murder of Henry Benhayon. The case promises to be full of interest.

THE editor of the TIMES has been appointed a member of the congressional committee for Oregon. The honor was entirely unsolicited, and is as much of a surprise to us as to others.

THE Benton *Leader* will soon be enlarged and printed by steam power. We are glad to learn of Bro. Pipes' prosperity, for he is an able and fearless writer and a staunch Democrat.

THE Democratic national committee, after a protracted and heated contest, selected St. Louis as the place of holding the next Democratic notional convention, and June 5th as the date of the meeting.

SENATOR FARWELL, of Illinois, is a fair specimen of the protectionist. While favoring unlimited free trade in tobacco and cigars, he is opposed to any reduction of the taxes on blankets, salt, coal, rice and other necessaries of living.

THE young Democracy of Roseburg organized a Cleveland club a few nights since. A similar step should be taken at Jacksonville and in every other precinct in southern Oregon. In unity there is strength, and thorough organization brings that about.

THE Republican senate judiciary committee has decided to favorably report a bill to repeal the act preventing ex-Confederates from holding positions in the army and navy. Another howl from the press and statesmen (?) of the bloody-shirt school is in order.

THE German crown prince is slowly dying of the same disease which carried off Gen. Grant, and his death will probably cause much of a change in the affairs of the empire, as Emperor William, his father, is quite old and cannot be expected to survive much longer.

THE Republicans are trying hard to find a successor to Congressman Hermann, and many names are being suggested. J. C. Leasure of Pendleton, C. W. Fulton of Astoria and Glenn O. Holman of Baker city, all lightweights, being the most prominent brought forward so far. If a Republican is to be elected, the present incumbent would suit southern Oregon better than anybody else.

INTERESTED PARTIES, who have been trying hard to boom Gen. Phil. Sheridan for president, have found in him a different man than the mercurial Blaine. In a recent conversation he said: Nominate me? I would not accept. But there is not the slightest probability of my being nominated; and in any event I should not accept. No, not under any circumstances. I do not want that or any other civil office." This ends the matter, for Sheridan means just what he says.

A JACKSONVILLE correspondent of the *Oregonian* very truthfully says: A large number of new people are in the valley already looking for homes in the "Italy of Oregon." Jackson county, and Rogue river valley in particular, will boom during the present year. The effects of a coming boom is already being felt. Land is being cleared on all the hills adjoining this city. The time is not far distant when all of the available land on the foothills will be planted in one vast garden of fruit and grapes.

WE hear the name of Hon. John M. Gearin, a prominent attorney of Portland, mentioned in connection with the Democratic nomination for congress. He is a popular and able speaker, and would make a good representative. The only thing that we are afraid of is that he might be slaughtered at the polls in Portland by the friends of E. J. Jeffrey, who charge him with selfishly trading off that gentleman in a reckless manner in 1884, when he was a candidate for sheriff and Mr. Gearin the nominee for district attorney on the same ticket.

IT is quite popular with our Republican friends to let the people know that there is a great opposition to President Cleveland in his own party, and that he will secuse the Democratic nomination only after a bitter fight. This idea is purely imaginary and only exists in the fertile brain of the opposition. The wish fathers the thought. Mr. Cleveland will be nominated unanimously by the Democratic convention, and his election is already a foregone conclusion. He has made one of the very best and safest executives the country has ever had, a fact that cannot be successfully gainsaid by anyone.

A SAN FRANCISCO dispatch of the 19th gives this account of the melancholy death of Jos. L. Capprice of Crescent city, who is also well-known in southern Oregon: A sad accident happened this morning at the Folsom street wharf, which resulted in the death of Joseph L. Capprice, a well-known former resident of this city. The steamer Crescent City arrived from Crescent City early in the morning. Capprice and his wife were passengers on board, and were ready to leave the vessel as soon as the gang plank was run out on the dock. Just as Mr. Capprice, who preceded his wife, was placing his foot on the plank, he was taken with an epileptic fit, from which disease he has been a sufferer for sometime, and pitched forward head first into the water. The unfortunate man was dead when his body was taken out of the water. Capprice was thirty-three years of age and a saloon-keeper by occupation. He leaves a widow and one child.

EDITORIAL NOTES.

HIGH PROTECTIVE TARIFF means unreasonable percentage for the manufacturers; tariff reform means plenty profit for them and easier times for the laboring man.

CONGRESSMAN RANDALL is preparing a new tariff bill to reduce the surplus, as a substitute for the Mills or Cleveland bill, and the Republicans will also have a bill, similar to Randall's.

IF true political economy were studied more and partisan politics less, we should soon be rid of the obnoxious wool tariff. It does not add one cent to the profits of the home grower, and is a useless clog on our woolen manufacturers.

MOUNT VERNON, Illinois, was wrecked by a cyclone a few days since and many were killed and wounded. Five hundred homes, including the court house and other substantial brick buildings, are a heap of ruins, and many are destitude.

SENATOR HENRY L. DAWES, Republican, of Massachusetts, says of the president's message: "As to the question of the reduction of the taxes, I believe in going to the very lowest possible point consistent with the needs of government; but what articles should be exempt from taxation is a subject which no man can pass on off-hand."

AT the meeting of the House Democratic committee at Washington, Feb. 18th, a number of vacancies of the committee were filled, as follows: Colorado, Belam Hughes; Nevada, George Cassiday; Idaho, John Hailey; Wyoming, Mr Post; Oregon, Charles Nickell. There was some informal talk of work to be done, and the committee adjourned to meet Thursday next, with the senate committee, to select an executive committee.

A WASHINGTON special to the *Times* says that President Cleveland recently discussed the subject of revenue reduction with a protection congressman at length. Reference having been made to his message, the President said that his message was prepared as a presentation of the doctrines maintained by the democratic party, as he construed them; but he could not permit that to stand in the way of unity in the party. On the contrary, he would sign any measure upon which both wings of the party could agree.

MR. BLAINE'S letter is characteristic. It seems impossible for the man to be outspoken and straightforward; in anything. He says: "I wish to state to members of the Republican party that my name will not be presented to the national convention called to assemble in Chicago in June next for the nomination of candidates for President and Vice-president of the United States. I am constrained to this decision by considerations entirely personal to myself." He does not say he will not be a candidate, but leaves it in a shape to be talked about. This keeps him in sight and hearing, which is his main object.

ADVICES from Washington are to the effect that the majority in the ways and means committee have substantially agreed upon the tariff reduction bill. Should the bill go through on the basis proposed it would cut off from $80,000,000 to $85,000,000 from the annual revenues. The following is presented as an outline of the committee's bill: Free list—Wool, salt, lumber, 150 chemicals and numerous raw materials of no great importance. Metal schedule—Steel rails to $11 or 12 per ton; pig-iron to $5 per ton; tin-plate about 30 per cent. Sugar, 20 per cent.; tobacco, 66 per cent.; fruit brandies, free; glass, amount not yet decided on.

GENERAL MANAGER A. N. TOWNE and General Traffic Manager J. C. Stubbs, of the Southern Pacific Company, left San Francisco on the 20th, for a trip over the California & Oregon road. They intend to go as far as Portland. Mr. Stubbs has never been over the road before, and it is understood that he is making the trip to fully inform himself of the traffic possibilities of the new road. The object of Mr. Towne's visit is said to be one of pleasure. It is quietly stated, however, that he is after someone's scalp, for giving delayed passengers in the recent landslides near Mount Shasta any cause to complain at the way in which they were treated.

A PLEASANT HOUR of leisure may be whiled away over the pages devoted to fiction and poetry in *Harper's Magazine* for March. William Black continues his "In Far Lochaber," and Mrs. Lucy C. Lillie contributes a clever sketch about the praiseworthy fickleness of a young man and the tact of the young woman who loved him wisely and well. Miss Sarah Orne Jewett relates a pleasant tale about "Mere Pochette" and two loving hearts that were too much for her. The most charming poetical fancy of the number is Alfred Parson's illustration of Wordsworth's sonnet "In sight of the Town of Cockermouth." In addition there are verses by George Parsons Lathrop, Charles Henry Webb and Julia C. R. Dorr.

No man that we can at present call to mind, capable of successfully conducting a metropolitan journal with full dispatches, has the necessary money, and others will not contribute it, unless they be made dictators of the paper's policy. The "boss" Democrats entrench themselves behind their office desks, apparently tie up their salaries in stockings, and flatly refuse to advance a cent for the party's good that does not carry with it a written guarantee of their money's return and with big interest. When such leading Democrats as Gov. Pennoyer, Barney Goldsmith, Chairman of the State Central Committee, Collector of Customs Abraham, Postmaster Roby, U. S. Marshal Myers, John Whiteaker, Collector of Internal Revenue, Surveyor-General Taylor, etc., etc., refuse to take stock in a daily Democratic paper, is it any wonder that we small fry grow sick at heart, that we ask ourselves how did such men—politically speaking—climb to places so high?—*Sunday Welcome.*

The New Town of Tolo.

Griffin Bros., who are making preparations to boom the latest candidate for public favor, say: Tolo is located on the California and Oregon R. R., near the center of Rogue river valley, Jackson county, Oregon. Rogue river, the magnificent stream from which the valley takes its name, is one mile east of Tolo; Grant's Pass is twenty-two miles northwest; Jacksonville is nine miles south; Ashland is twenty miles southeast; Rogue river free bridge three and one-half miles northeast; the world-renowned "Table Rock" is two and one-half miles north. Tolo is the nearest place on the railroad to Sam's valley and Butte creek valley, and three miles nearer to all the great fruit, alfalfa, farming and stock ranches up Rogue river. Rogue river drains the great timber region in the northern and eastern part of Jackson county; and preparations are now being made to float a large number of logs down that river to Tolo, where they will be sawed and shipped. The town of Tolo will be at once surveyed and laid out after the most approved methods pursued in California. All the streets and avenues will not be less than 90 feet wide. The lots will be from 25 to 50 foot frontage and 120 feet deep, with a 20-foot alley through the center of each block. The location is sightly and healthy. The drainage is natural and perfect. The best of water can be had anywhere by digging. Lots will be for sale Feb. 1, 1888.

For Sale.

A first-class piano and a small safe will be sold at a reasonable figure, either for cash or note with approved security. Apply soon at the TIMES office.

MR. JOHN W. FURBUSH,
An Army Veteran,
OF WAKEFIELD,

who has probably suffered more than any man or woman in America to-day. Taken sick while in the Army, he has endured untold agonies since. Describing his first symptoms he said: "My head ached and my appetite was poor. I felt a faintness at the pit of the stomach, and a bad taste in my mouth, while my skin was sometimes hot and sometimes cold. I next felt pains in my back and around the lower portion of my body, and noticed a peculiar odor and color in the water I passed, which was scanty at one time and free at others. Sometimes it pained me to void it, and again it was almost impossible to do so at all. Finally I began to pass clear blood accompanied with the greatest strain and agony."

No less than 20 eminent physicians attended Mr. Furbush at various times, but not one of them could help him. He was near death's door. And yet he says: "I am alive and well to-day, wholly through the wonderful power of Hunt's Remedy which took me from the verge of the grave."

This Great Remedy *absolutely cures* all Kidney, Liver and Urinary Diseases.

MINING NEWS.

The best and cheapest mining blanks for sale at the TIMES office.

A fresh supply of the American Mining Code, standard authority on the subject, for sale at the TIMES office.

Pankey Bros. of Willow Springs precinct have found a very rich quartz ledge on Thos. Wright's land. It shows free gold in abundance, and the discovery is undoubtedly a valuable one. Considerable excitement exists over the prospects.

A correspondent of the Grant's Pass "Courier" writes from Grave creek that Frank Oggier of the Steam Beer mine is under full headway with a force of four hands, and running night and day. This is a handsome property, yielding from two to five thousand dollars during the mining season. Next comes the famous Brushy diggings, which are owned principally by J. W. Goff, Geo. W. Chapin and J. B. Hutch of Grant's Pass; these diggings are also under full headway, being run by a force of three men night and day. The mines are considered the best and most extensive on the creek, bearing coarse gold. The company has taken out a great many nuggets weighing from $2.50 up—the largest weighing $301, and pays the owners a handsome income every year. Next in row is the noted Brimstone mines, which are run by Frank Davis & Co., and is under full headway. It is a fine property. Then comes the Rice Bros., & Thurston, Rice & Co., and last, but not least, is the Live Yankee, owned by H. M. Chapin. All the above-named diggings are run by hydraulic pressure, with fine water privileges, and considered good paying property.
