THE "TIMES" IN ERROR.

To the Editor of the Times:

Your last issue brought the news to me that I was vigorously opposing the Rogue River Room Bill.

The following is a list of letters remaining uncollected in the Grant's Pass postoffice.

The city council of Grant's Pass on behalf of this place, as well as the entire rights of this county, as a municipality, has the honor to inform you.

To the Hon. Committee on Corporations, House of Representatives, Oregon Legislature, Salem, Oregon:

On behalf of the county of Josephine and the town of Grant's Pass, we desire to respectfully call your attention to the great injury and injustice that would be done by the passage of House Bill No. 45, referred to you.

There are on the headwaters of Rogue river and its tributaries vast tracts of valuable timber, amounting to many millions of feet.

The boom proposed to be built by said bill is located at a point that it would cut off the passage of logs to this county without the payment of one dollar per thousand feet.

We respectfully request that you have seen this issue of Rogue river from this point to its mouth, and it may be desirable in the future to run logs to the mouth of the river.

We desire further to call to your attention that we have at this point the largest sawmill in the state.

For the same reason it is desirable that the right to the timber on the headwaters of Rogue river, and the location of the town and the rights granted in said bill for just such a location, be made impossible.

We respectfully set forth still further that there is nothing in the bill as proposed that requires said company to expend any money in the improvement of the channel of said river for the navigation of logs.

For the same reason it is desirable that the right to the timber on the headwaters of Rogue river, and the location of the town and the rights granted in said bill for just such a location, be made impossible.

We respectfully set forth still further that there is nothing in the bill as proposed that requires said company to expend any money in the improvement of the channel of said river for the navigation of logs.

For the same reason it is desirable that the right to the timber on the headwaters of Rogue river, and the location of the town and the rights granted in said bill for just such a location, be made impossible.
