

The Democratic Times.

OFFICIAL PAPER FOR JACKSON COUNTY.

THURSDAY, APRIL 14, 1889.

The Roseburg Review is now an eight-column semi-weekly and is considered with more and more interest. Success to it.

Fully one-half of the beautiful town of Cheney, W. T., was destroyed by fire on the 18th inst. It will be immediately rebuilt.

San Francisco is to have a zoological garden at Golden Gate park. The manager has said so, and it will have to be.

New York City was visited by the greatest fire known there for many years, on the 15th inst., which destroyed more than three million dollars' worth of property.

The San Francisco papers say that Deyser Bros. of New York have offered \$200,000 for Al Farrow, the king of the mile track. M. T. Waller of Lakewood has several colts sired by the famous horse, but they are not for sale.

With its customary happy faculty for caricature, the sugar trust has just issued the alarming cry of a short crop—just as the alarm cry is coming out of the country, and is significantly more so than the cry of a short crop of sugar.

When the country is thoroughly supplied with Wanamaker's unmentionables, the postmaster-general's berth should be thrown open to other candidates. There is a rumor that the war of Lydia Pinkham and the \$3 shoe man. What this great republic needs is a practical application of the principle of the war in office—Eganism.

There are no granges in Oregon south of Lane county at present. C. Simpson, lecturer of the state grange, will visit the southern counties after the session of the state organization in May next to assist in the work of organizing a number of subordinate bodies. When properly conducted, the grange is no doubt of great benefit to the farming world.

The crew of the lost steamer Danmark, and all her passengers were saved from the wreck by the timely appearance of the Milwaukee. The crew of the Milwaukee, who were in the vicinity of the wreck, were the only ones who were not killed.

Pursell has brought suit against the London Times for libel. The American press is inclined to think that the Times has a right of action against Pursell for more than one reason. The Times has libeled Pursell in its issue of the 10th inst. by publishing an account of the crew of the Danmark, which accounts for the long delay in hearing from them after the wreck was sighted.

Gen. Adam Badeau has been beaten again. He commenced a campaign in the Court of Claims to recover pay as a retired army officer from the year 1870 to the date of his discharge. He was defeated by the Court of Claims, which decided that he was entitled to no more than the pay he received as a general, first at Havana and then at London. The Court of Claims decided against him, but he will not give up.

Lord Lonsdale, the English enthusiast who about a year ago started out to find the north pole, accompanied by Indian and Esquimaux guides and sledges, has been saved from starvation by being dragged on a sled by his guides to the coast of Alaska. He has been rescued by the Esquimaux, who have taken him to their village. He is now recovering from his ordeal.

The mighty host that has for some weeks been congregated along the border of the state, and which has been admitted to move into the promised land. The singular spectacle will be presented inside of thirty days. The host is composed of the people of the state, who are moving into the promised land.

There is an encouraging sign of American independence in the bulletin sent by the executive committee of the Illinois state grange agent the tyranny of the twine trust. They urge upon their brother farmers to resist the twine trust until the power of the trust is broken or former prices are restored. Just so our unfortunates, who are struggling until British pride is humbled, the American heart ill brooks such petty grannies, and yet the grange is the champion of the trusts and combinations that will high impose a hopeless thrall upon the people unware.

The Occidental best sugar company has been incorporated, with Claus Spreckels as president, and John D. Spreckels as vice president. The company is to be organized in the city of San Francisco. The company is to be organized in the city of San Francisco.

John D. Spreckels, who is the president of the Occidental best sugar company, has been elected to the position of president of the company. He is a well-known sugar magnate and is the owner of the Occidental best sugar company.

Dr. Markham of Pelican Bay is in Jackson County, and is engaged in the business of selling sugar. He is a well-known sugar magnate and is the owner of the Occidental best sugar company.

Grubb & Ferrie are determined to make regular trips to the market. They are a well-known sugar magnate and are the owners of the Occidental best sugar company.

Many of our farmers have purchased trees of an Illinois nursery, and will attempt the propagation of the hardier fruits. This is a good idea, and it is one that should be followed by all farmers.

There is quite a war among our dealers in flour, which is now sold at 10 cents a bushel. The war is being fought by the dealers, who are trying to get a higher price for the flour.

E. Egert is fitting up the building in Linkville formerly occupied by W. D. Woodcock, and will put in a good assortment of goods. He is a well-known merchant and is the owner of the Occidental best sugar company.

CHEAP HOMES FOR ALL!!

The addition to Jacksonville, known as THE HOLMAN TRACT.

Has been platted and thrown upon the market in lots ranging in size from two to eight acres, at prices varying from \$18.00 to \$40.00 per acre—figures which barely cover the original cost of the property and expense of surveying. This property was purchased and subdivided, by

NOT FOR THE PURPOSE OF GAIN, but to induce a desirable class of immigration to settle in what is acknowledged to be the most desirable fruit section in Southern Oregon. The land is deep, rich soil, a large portion of it being sub-irrigated by drainage from the mountain and is covered with a thrifty growth of pine, laurel and manzanita brush, the value of which for firewood will more than pay the cost of clearing the land, as wood is worth \$3.00 per cord on the ground. The entire tract lies directly in the

FROST-PROOF FRUIT BELT of Jackson county. There has never been a season when orchards on adjoining land have failed to produce a good crop. It is one of the few sections in the county where the paper-shell almond will produce EVERY YEAR. The certainty of an annual crop will make this land infinitely more valuable in the near future of fruit-growing than those sections subject to killing spring frosts.

It is All in the Thermal Belt, and will produce every variety of semi-tropical fruits in the highest perfection. Intending settlers should inspect this property closely before investing elsewhere, as every lot will have a permanent and intrinsic value for fruit-growing, regardless of surroundings. The property is all

WITHIN ONE MILE OF THE COUNTY COURT-HOUSE, and the Jacksonville Public Schools, which rank among the best in the state. The entire tract adjoins the corporate limits of Jacksonville. The branch line of railroad from the O. & C. to the county-seat will undoubtedly be built soon.

NOW IS THE TIME TO BUY!! Inferior fruit land is elsewhere selling for five times the figure at which these desirable lots are offered. For further particulars apply to
