NOT FOR THE PURPOSE OF GAIN.

but to induce a desirable class of immigration to settle in what is the most desirable fruit section in Oregon.

The land is deep, rich soil, a large portion of it being sub-irrigated by drainage from the mountain and is covered with a thrifty growth of pine, laurel and manzanita brush.

The entire tract lies directly in the FROST-PROOF FRUIT BELT of Jackson county.

There has never been a season when orchards on adjoining land have failed to produce a good crop.

It is one of the best sections in the county where the paper-shell almond will produce EVERY YEAR.

The certainty of an annual crop will make this land infinitely more valuable in the near future of fruit-growing than those sections subject to killing frosts.

It is All in the Thermal Belt, and will produce every variety of semi-tropical fruits in the highest perfection.

Intending settlers should inspect this property closely before investing elsewhere.

Every lot will have a permanent and intrinsic value for fruit growing, regardless of surroundings.

The property is all WITHIN ONE MILE OF THE COUNTY COURT-HOUSE.

and the Jacksonville Public Schools, which rank among the best in the state.

The entire tract adjoins the corporate limits of Jacksonville. The branch line of railroad from the O. & C. to the county-seat will undoubtedly be built soon.

NOW IS THE TIME TO BUY!! Inferior fruit land is elsewhere selling for five times the figure at which these desirable lots are offered.

For further particulars apply to A. L. REUTER, Trustee, Jacksonville, Oregon.

MISCELLANEOUS.
