It is estimated that the total loss to the city in buildings alone is easily \$19,000,000, and all the personal losses will probably reach \$20,000,000.

Whether there is much loss of life cannot yet be ascertained.

The city is guarded by sentinels of the militia. Two flands are said to have been hung for stealing.

Heaven was merciful that the fire was allowed to occur in the daylight. The flames and smoke ascended to a clear sunny sky. The weather was warm, but not too The City to be Rebuilt at Once. Seattle, June6th.—The entile business portion of Seattle is now nothing but smoking rains. About 3 r. m. some turpentine caught fire in the basement of a two-story frame building on the southwest corner of Front and Madison streets. The building which was owned by Mrs. Margaret J. Pontius, and the first story of which was eased by the Seattle Shoe tompany, the upper floor being occupied for offices, was soon ableze. Efforts to flood the Coleman building on Front street to the senth were utterly useless, for the dames leaped across Marion street with greedy rapidity, from two saloons—the Palace saloon and the Opera House saloon—and in less than thirty minutes another square was burned to ashes, taking in Addison Smith's grocery, Merchant's wholesale confectionery and fruit store, J. While this square was burning, the operations block on the life of Front street, between and half way to Second extending up Marion half way to Second street, caught fire in the upper stories. The prevailing mild weather and freedom from cold draughts in winter will recommend the locality to all experienced track men, and it will only be necessary to provide suitable accommodations to ensure their coming.
