In other words an acre of producing fruit trees has a valuation of \$1000. It is better than any bank-for the bank is sometimes carried into Canada by the cashier, Dame nature -- a trust-worthy guardian -takes care of the principle, and the dividends never fail. Of course if you plow your orchard once in twenty years, and rob the trees of their nourishment by making a cornfield of the orchard ground, and invite the birds and orchard pests to make a restaurant of your orchard, you must not complain that your horticultural methods have precipitated a foreclosure of the mortgage on your orchard.

foreclosure of the mortgage on your orchard. **CULTIVATE YOUR ORCHARD** With half the care you give wheat-fields, and it will yield an income on a valuation of \$1000 an acre. There is not a wheat-field in this county which yields such an income, and EVERY orchard does. We propose to sell you an acre of fine alluvial soil, within cannon shot of five growing towns, close to the steel rails of a trans-continental railroad, in the most beautiful valley on the slope of the Pacific, with one hundred growing, thrifty producing fruit trees, to be selected by you. Buy it for a home to shelter you if adversity or the winters of old age overtake you and find you penniless. **ITT IS WORTH \$1,000.** We give away the land.
