The Right Way.

Horsemen are taking considerable interest in a proposed breeder's purse of $500 to be hung up f r competition at the next fair meeting of the Southern Oregon State Board of Agriculture, to be limited to trotting foals of 1889. A good two-year-old race, competed for by the best blood in southern Oregon and northern California, cannot fail to be of vast interest to the public and of great benefit to breeders in this section. The many foals of such stallions as Altamont, Adrian, Antee Echo, and of Tybault and the other descendants of Altamont in the counties composing the two districts of Southern Oregon and Mount Shasta in Northern California, insure a fine contest and good time. Of the promising youngsters in this vicinity that will be eligible, Tybault can show three very fine fillies, one owned by Gus Lin out of his fine Graduate mare, the "Bid" filly, owned by Henry Miller at Grant's Pass and McDonough's fine little "Maude" yearling. Adrien shows a lot of promising youngsters. Several of the Altamont stock in Klamath county are said to be very fine, while over in Siskiyou are a number that will class well up anywhere. It is said that the members of the Sou. Oregon, S. B. of Agriculture look with favor on the scheme, and that the race can be confidently looked for.

Amicably Adjusted.

The financial difficulties of the lessees of the Swinden ledge at Gold Hill, resulting from the unceremonious departure of Foreman Sherrard with the proceeds of the recent cleanup from the batteries, have been settled to the satisfaction of all parties. Dr. Braden, the owner, believing that the lessees were acting in good faith, at the conference of all parties interested last Monday afternoon, offered the employees the product of the mill for a ten day's run, or the chance to make their back wages out of it in that time. The men willingly accepted the proposition and express confidence in being able to make themselves whole. A similar proposal to the merchants and others who have advanced supplies, etc., to the operators was accepted by them and the mill will pass into their hands for a like term after the men are through with it. As the liabilities do not much exceed $1100, there is a probability that all claims will be paid in full. Dr. Braden has earned the good opinion of everyone by the liberal course he has pursued in the matter.

Klamath Horse Thieves Captured.

J. Buckmaster and Arthur Sylvester of Lost river precinct, Klamath county, were arrested in the Fall river section, Cal., not long since by Wm. H. Shook and Mr. Young, having in their possession twenty-one head of horses and mules belonging to Shook Bros., the Hoagland estate and other parties, at the time. They were driving them to market when discovered by Mr. Young, who resides at Fall river, and who lost no time in notifying Shook Bros. Buckmaster showed fight and was shot through the arm by Young for his pains. The criminals were brought back, and Sylvester is in jail at Linkville, while Buckmaster is being herded, as his wound is a severe one. There is no telling how many head of stock the thieves have made away with, as their depredations no doubt date back sometime. Their trial will take place at once, and there is no doubt of their conviction.

The Murdered Thomas Sutton.

Sheriff Gowan, of Klamath county, thinks that Sutton and the man with him when last seen and whose wagon was found cached in the brush in a lonely spot in Butte creek valley, were both murdered at some of the springs where they camped, either at the Oregon line, or just over the California boundary. He also believes their bodies were thrown into Little Klamath lake. The Yreka "Journal" says: He has traced the route of the man from Linkville to the California boundary, and also up to Bly in Oregon, as well as across the line into Butte creek valley, where the wagon was found. The sheriff intends investigating further, with intention of writing particulars to Sheriff Moxley, of this county. Tait, the hotel man at Tehama, is expected here this week, to take charge of the wagon and other property, and would have come here before, but for being sick and unable to travel.

A Smooth Operator Caught.

Stone, the fellow who escaped the marshal at The Dalles, has been in the business of locating people on timber claims for several years, and in southern Oregon as well. His operations have attracted the attention of land agents and law offices for a long time, but none of them have been able to fasten anything on him which would lead to his conviction. United States Attorney Mays had at last succeeded in catching Stone in a transaction which it was considered certain would lead to his conviction, and Mr. Mays has been feeling happy and congratulating himself on his good luck, and dreaming of the honors which would accrue to him, when the marshal roused him from his slumber and spoiled his chance of further rest by informing him that the prisoner had escaped.

Don't Do it Again.

The boys in town on Halloween night transcended all bounds of boyish propriety, and had their plan of barricading everyone's gates and then raising the cry of fire, by applying the torch to the tumble-down building on the bank of the creek, been carried out, doubtless some serious accidents would have ensued. The harmless pranks usually played on that occasion can be readily overlooked in honor of ancient custom; but when harness is removed from teams and women and children are compelled to stand shivering in the night air for hours while the hapless owners are searching for it, and when gates are wrenched from their hinges and pickets torn from the fences of non-residents, it savors too much of cruelty to be tolerated. Don't let this occur again boys, or the TIMES will be after you with a hot stick, as well as the authorities.

Hotel Fire.

The sensation of the week in San Francisco was the destruction of the Burlington Hotel and partial destruction of the Grand hotel by fire last Monday morning. The fire originated in a paint shop and burned fiercely from 3 o'clock in the morning until after daylight. Beneath the fourth floor of the Grand hotel the principal damage was done by water from the hose of the firemen. Through prompt efforts of the police and firemen, no lives were lost, although many guests of both hotels lost valuables and baggage. Much local interest was taken here in the fire from the fact that Dr. Robinson and wife were known to be stopping at the Grand, having gone directly there from this place last week. A dispatch from the doctor early in the day on Monday announced their safety. The total loss by fire and water aggregates nearly $250,000.

Jackson county has furnished educators to many sections, but the departure of Mrs. W. G. Archie Cunningham, recently transferred to the Gold Hill section on the railroad, was presented with a gold ring and locket by the section boys before his departure, in token of their appreciation of him as foreman.

Among the larger shipments of apples from the Illinois valley this season will be over 1000 boxes each from the orchards of L. Leonard and J. T. Bain. The fine roads this fall have greatly facilitated hauling fruit to the railroad.

F. H. Brigham the water-way engineer from eastern Oregon, who has been investigating the feasibility of constructing an irrigating and water supply canal from Rogue river below Gold Hill—operating in the interest of a wealthy company now carrying out several similar projects—has filed a water right claim to 30,000 miner's inches of water to be taken out of the river above the Jackson county line. He has also taken preliminary steps towards securing right-of-way concessions for his ditch, and prospects are good for an abundance of water in the near future for all purposes.

Twenty-Three Years in the Drug Business.

I have been a druggist twenty-three years and have sold all the patent medicines which are known in this country, and can truthfully say that I have never known a remedy for Blood Diseases of more value than S. S. S. (Swift's Specific). Mr. A., a customer, was troubled with an eruption of the skin on the back of his hands, and had in vain sought relief of the best local medical talent, also of some of the most noted specialists in New York, and as a last resort spent some months in Paris, and France, under treatment of the physicians there, and had secured only temporary relief. After all this treatment he was finally cured, sound and well, by Swift's Specific.

Another customer, Mr. B., had suffered for many years with Blood Poison, and thought he had been cured by mercurial treatment, but the disease returned, accompanied by Rheumatism of a bad type. A dozen small bottles of S. S. S. made a perfect and lasting cure.

WHY PAY $50 AND MORE FOR A CHEAP LOT

When you can get an ENTIRE ACRE of the best fruit land in Nickell's Addition to Medford for the SAME price?

Nickell's Addition joins Medford's western corporation line, is situated in a beautiful and healthful location, and is within a stone's throw of the Medford school-house. The land is particularly adapted to horticulture, and great returns would be realized there from a few acres planted in prunes, peaches, grapes, etc.

Two of its best features are that it is free from city taxes, although not lying a great distance from the business portion of Medford, while the Jacksonville-Medford railroad will run through the land near the northern boundary.

It has been laid out in tracts of five acres and less, and will be sold at very reasonable rates on the most favorable terms, viz: one-third in cash, one-third in one year, and balance in two years.

For further particulars apply to any reputable real-estate dealer, who will take pleasure in showing you the addition.

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me, and thank God I am now a well and hearty woman." Trial bottles free at E. C. Brooks' drugstore. Regular size 50 cts. and $1.00.

Will Little is driving stage for Clugage & Parker, on the Lakeview-Linkville mail line.

Quite a large audience assembled at the Presbyterian church last Friday evening to hear Dr. Dobbs lecture.

Ab. Giddings, one of the most popular drivers in the palmy days of the overland stage company, is now holding the ribbons between Shovel creek and Linkville.

Several of the parties who were indicted for gambling at Lakeview last month stood trial, but most of them did not succeed very well. T. J. McDaniel and J. Q. Adams were convicted, Frank Light pleaded guilty, and a disagreement was the result in a few cases.

MINING NEWS.

Notices for the location of placer and quartz mines, etc., for sale at the TIMES office.

The American Mining Code, standard authority on all subjects pertaining to all mining, water-rights, etc., is kept for sale at the TIMES office.

A report reaches us from Drew's valley that the discovery of free gold on School creek is causing much excitement in that locality. Dr. Frank of Lakeview offered $500 for a fourth interest in the original location, after making a satisfactory test of the ore.

Much interest is being taken in mining circles over the black suphurets, carrying gold and silver, which may prove very rich, in some of the ledges on Jackson creek. The rock in which they are found is unlike any other gold bearing quartz in this district. Beekman & Huffer's 20-foot ledge is full of the singular formation, and the glass shows plenty of metal in it.

Eupepsy.

This is what you ought to have; in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you good digestion and oust the demon dyspepsia and install instead eupepsy. We recommend Electric Bitters for dyspepsia and all diseases of liver, stomach and kidneys. Sold at 50c. and $1.00 per bottle by all druggists.

How I Saved My Life.

I was taken sick while at the dinner table with terrible distress in my stomach. Before this I had been hearty and strong. For fourteen days I kept getting worse, despite the efforts of doctors. I lost forty pounds, and was satisfied that I could live but a few days. My trouble was

Stomach and Liver Complaint,

resulting in an attack of bilious colic. At this time I saw Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., advertised, and sent for a bottle. I also sent for my physician and told him that I was going to try the Favorite Remedy. He examined it and told me to use it three days and let him know the result. In the three days I walked four miles. Dr. Kennedy's Favorite Remedy has saved my life.—W. S. Bitzer, State Mills, Ross Co., Ohio.
