Even the most injudicious legislation in the future cannot prevent a series of years of greatly increased prosperity to our farmer friends in the immediate future. The settlement of the vast empire west of the Mississippi has been almost completed in a farming sense, and our people are to be congratulated that prices of cereals and stock products bid fair to soon re-adjust themselves.

It is possible to be insures prosperity in their neighborhood.

A GENTLEMAN informs the Sunday Gazette that Secretary Window has been snubbed by Harrison, and it will not be a surprise if he should resign. Windown, so the Gazette's informant states, wanted Harrison to make financial maters, especially the bond scheme, the chief subject of his message. He impressed upon the president the importance of calling attention to the financial condition of the country, and the necessity of prompt action on the part of congress. Nearly all the cabinet agreed with Window that would be the best thing for the bacty for Harrison to make the subject of financial legislation the keynote of his message; but the president could only see the Force bill its of an interruption himpe altogether through the surprise of the cancus of his message; but the president could only see the Force bill, and let the opportunity of his administration ship by.

THE CENTAUR COMPANY, 77 MUSTAY Street, N. Y.

We challenge the reader to successfully controvert the assertion that an acre of thrifty, well-cultivated, producing orchard trees in the val-

ley of Rogue River will yield a net yearly income of \$100. It will average 100 trees to the acre, and the estimate is based upon the demonstrated fact that each fruit tree will produce \$1 in value, net, of marketable fruit each year. That is Legal Interest at 10 Per Cent. on \$1000.

In other words an acre of producing fruit trees has a valuation of \$1000. It is better than any bank—for the bank is sometimes carried into Canada by the cashier, Dame nature—a trust-worthy guardian takes care of the principle, and the dividends never fail. Of course if you plow your orchard once in twenty years, and rob the trees of their nourishment by making a cornfield of the orchard ground, and invite the birds and orchard pests to make a restaurant of your orchard, you must not complain that your horticultural methods have precipitated a

foreclosure of the mortgage on your orchard. CULTIVATE YOUR ORCHARD

With half the care you give wheat-fields, and it will yield an income on a valuation of \$1000 an acre. There is not a wheat-field in this county which yields such an income, and EVERY orchard does.

We propose to sell you an acre of fine alluvial soil, within cannon shot of five growing towns, close to the steel rails of a trans-continental railroad, in the most beautiful valley on the slope of the Pacific, with one hundred growing, thrifty producing fruit trees, to be selected by you. Buy it for a home to shelter you if adversity or the winters of old age overtake you and find you penniless.

IT IS WORTH \$1,000. We give away the land. Pay us \$10 a month, 10 cents a tree, for two years, and we will present you a warranty deed of the acre, and GUARANTEE it to have a thrifty, growing, producing orchard. Despite these facts the farmers of the country continue to value their land high, and rob its soil by sowing it with wheat and competing in the markets of the world with the serfs of Russia and the slaves of India. "Export the wheat of a country and you ship away the vital-THE FAMILY BUTTER CASE ity of its soil," says a great economic writer. The people of Jackson county should learn this as an axiom.

The Only Safe Protector of Butte or House, Tourist, Picnic and sound of the hum of the shuttles, or the thunder of the factories, or Protects Butter from all odors, dust, heat and handling. Keeps Butter cool and sweet and is easily and quickly cleaned.
