The secretary of state, who is ex-officio insurance commissioner, gives out the following as an item of news which he hopes will be published by the newspapers of the state, as a matter of public interest: Several so called "mutual benevolent insurance associations" that are unable to prove that they have sufficient capital to entitle them to a license to do business under the laws of this state have recently, in violation of our law, sent agents to the state to solicit insurance on the assessment plan. For the protection of the public the insurance commissioner states that the traveling agents of all duly licensed life-insurance companies have licenses from the insurance department to act as life insurance agents. Persons professing to be such agents should be called upon to exhibit their licenses. Fraternal benevolent societies, such as Masons, Odd Fellows and Knights of Pythias, are not required to have licenses to grant such pecuniary relief as is authorized by their regulations; but such societies do not employ agents to solicit insurance. The insurance commissioner requests that he be notified whenever the agent of any unlicensed company solicits insurance in this state, as it is his intention to secure the prosecution of such violators of the law. He sends out this item in the hope that the newspapers and the public will co-operate with him in his efforts to uphold the law and protect innocent persons from being deceived and defrauded.

All Rail to the East.

To day will be memorable in the history of Jacksonville, as witnessing the connection by rail of the old shire town with the S. P. railroad. Well may we prepare to jubilate next Thursday with the younger generation over the fact that the railroad has had a happy issue out of all its troubles. It has been a long time "aborning," but it seems lusty and vigorous, and who knows but it will be extended to salt water in one direction and to the big timber in the other before a decade goes by. Turn out everybody and dance to its success at the U. S. hall next Thursday evening.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced to buy other preparations but be sure to get the Peculiar Medicine,

WHAT About the biggest returns ever made on a small investment is that reported by John Alexander, of Mariposa, California. He writes:

The best investment I ever made in my life was one of $1.25. It brought me health, wealth and happiness. The investment I made was the purchase of one bottle of Moore's Revealed Remedy." Thousands of other people have had equally as good returns from the purchase of this sovereign remedy. It cured Richard Williams of Newcastle of asthma in a week. It did the same thing for John Hewitt of this city. R. C. Oates and Captain Al. Taylor of Seattle over their own **$1.25** signatures say that it cured their rheumatism in a marvelously short time. J. M. Jones and W. P. Johnson of Seattle attest its efficacy in curing liver and heart troubles. Thousands of reputable citizens from one end of the Pacific Coast to the other write its praise. If you are ill, what better investment can you make than the purchase of a bottle of Moore's Revealed Remedy? If you feel bad every morning on arising, if you are tortured by rheumatism, if you have any of the ills of mankind, invest $1.25 in Moore's Revealed Remedy and see if it will not give you relief. Scribner's Magazine

For the coming year will be noteworthy for a number of special features which the Publishers believe are of very unusual interest, and among them the following may be mentioned :—

Sir Edwin Arnold

contributes to the December number the first of a series of four "Articles upon Japan," its people, its ways, and its thoughts. Mr. Robert Blum, who was commissioned to go to Japan for Scribner's Magazine, has prepared a very remarkable series of drawings to illustrate Sir Edwin's papers. Articles upon the recent Japanese Festival, will follow, illustrated by Mr Blum.

Henry M. Stanley

has prepared for the January number an important article upon "Pigmies of the Great African Forest." Another contribution in this field will be Mr. J. Scott Keltie's account of the recent African Exhibition held in London. Both papers will be amply illustrated.

The Wrecker,

a Serial Novel by Robert Louis Stevenson and Lloyd Osbourne, will run through a large part of the year. Illustrated by Hole. A two-part story by Frank R. Stockton will also appear.

Prof. James Bryce, M. P.,

author of "The American Common Wealth," will write a series of Four Articles upon India embodying the results of his recent journey and studies on this land of never-ending interest.

Ocean Steamships

will be the subject of an important series somewhat upon the lines of the successful Railroad Articles, "Passenger Travel," "The Life of Officers and Men," "Speed and Safety Devices," and "Management," are some of the subjects touched upon and illustrated.

Great Streets of the World

is the title of a novel collection of articles on which the author and artist will collaborate to give the characteristics of famous thoroughfares. The first, on Broadway, will be written by Richard Harding Davis, and illustrated by Arthur B. Frost. Others will follow on Piccadilly London; Boulevard, Paris; The Corso, Rome.

The price of Scribner's Magazine admits of adding a subscription to one's other reading at very small cost. Orders should be sent at once.
