

TO ADVERTISERS.

The Times have a circulation of 2500, the largest enjoyed by any newspaper published between Portland and Marysville, California, a distance of 700 miles.

The Olympic club of New Orleans has declared Robert Fitzsimmons champion heavy-weight pugilist of the world.

A CHICAGO man has determined that wheat is worth ninety cents a bushel—if fed to hogs.

PORTLAND CHRONICLE, Rep: Those who imagined the popularity of Senator David B. Hill to be on the downward plane must have felt the littleness of their insight into human affairs when the 1500 delegates to the Democratic convention at Saratoga refused to consider the name of any other Democrat for governor of New York.

ONE would naturally conclude from reading the statements of the gold metallists that a considerable portion of our globe was composed of silver.

CHINA is having a rude awakening from her dream of invincibility against foreign invasion.

LET the new tariff alone; give industry and trade a chance to recover under stable conditions; let all Democrats stand together for good candidates and sound principles; so shall Democracy triumph in New York this year and in the nation in 1896.

It is reported that France and England are on the verge of war, but there seems to be a diversity of opinions as to the cause thereof.

Choice Homes For All.

Those wishing homes should not fail to attend to the administrator's sale of the Amy property in Central Point precinct, which will take place on the premises on October 15th.

Clubbing Rates.

The SEMI-WEEKLY TIMES has clubbing arrangements with all the leading newspapers and periodicals in the Union, and is prepared to furnish any of them at greatly reduced rates.

To the Public.

After Sept. 20th barley will be rolled, graham flour and corn meal manufactured at the Medford Nursery on the last three days of each week.

CHEAPER CLOTHES AND HIGHER WOOL.

Free wool will make cheaper clothes, benefiting all the people, and will increase the price of domestic wool, benefiting the farmer.

Under the McKinley law the rate of duty on cheap woolen cloth was from 150 to 163 per cent, and on dearer cloth from 80 to 90 per cent.

THE HOPE OF DEMOCRACY.

David B. Hill is a game cock who always keeps his spurs sharpened. He is ever ready for a fight, regardless of the odds against him.

Almost a New York Daily.

That Democratic wonder, The New York Weekly World, has just changed its weekly into a twice-a-week paper, and you can now get the two papers a week for the same old price—\$1.00 a year.

Keep Your Money at Home.

KLAMATH LANDS.

THE MILITARY RESERVATIONS AT KLAMATH INDIAN RESERVE. WASHINGTON, Sept. 12, 1894. The Honorable Secretary of the Interior—Sir: I have the honor to acknowledge the receipt, by reference from the department, of a letter August 5, 1894, addressed to Hon. J. N. Dolph, United States senator, by the Indian agent at Klamath agency, Oregon, and copy of a letter from one of my predecessors in office, bearing an endorsement of Senator Dolph, inquiring "if the reservation mentioned cannot without delay, be surveyed, appraised and sold without further legislation."

In reply, it is proper to state that those parts of the military reservations without the Klamath Indian reservation, may be surveyed, appraised and sold without further legislation.

The history of the reservations, "Fort Klamath" and "Fort Klamath Hay Reservation," is briefly this: The two reservations were reserved for military purposes by executive orders dated April 6, 1869; they were relinquished and transferred to the department of the interior by executive order dated May 4, 1886, for disposal under the act of July 5, 1884 (23 Stats., 103).

Stopped Smoking to Save. Xerxes Jones determined to quit smoking, not, you know, that it had any harmful influence upon his health, but solely for the reason that he didn't feel justified in spending 25 cents a day for the weekly luxury.

THE HUSTLER GETS THERE.

There is no good reason why American farmers should feel apprehensive of the future, says the N. Y. Times. There must be competition. It is the way the world is made and nature organized.

PICKETT AND THE ARCHIVES.

The Light Turned on a Hidden Chapter of Wartime History. Frank Riggs, the son of the famous banker and his father's successor in the annual circles at Washington, tells me an interesting story that corrects a false impression which many good people have carried for years.

Pickett had been the chief clerk of the Confederate state department or held some similar office which made him custodian of the archives. When President Davis and his cabinet fled from Richmond, Mr. Pickett carried the records away and hid them in some place that escaped the searchers of the United army, and the manner of their disappearance was a mystery until they were delivered to Secretary Fish.

"The facts have never been told," said Mr. Riggs. "For Mr. Pickett carried the strictest pledges of secrecy from my father in regard to the disposition of the money. But both of them are dead now, and there is no reason why the truth should not be known."

On Monday, just to please his little wife, good Jones bought a 40 cent box of mixtures and handed it over with the remark: "No, my dear, it's no extravagance. Just about what I saved on cigars today, and we both can enjoy this after tea."

JOSEPHINE COUNTY ITEMS.

A. H. Morey of Albion visited Grant's Pass last week. Albert Crow of Merlin has gone to Arizona, to seek his fortune.

Victor Peterson is teaching school in the lower Williams creek district, and Geo. Hart in the other.

Strawberries continue to ripen in this county. A Morris, who lives just north of town, exhibited some fine ones recently.

Lach Harnett, the well-known correspondent, is in this county, writing up the mineral resources of this section for the Observer.

A Sunday school convention will be held at the Baptist church in this city on October 17th and 18th. An interesting program has been prepared.

Sam. Prentiss has recovered from the gunshot wound in the leg which he received sometime since, and is again at his post in Jewell & Dodge's hardware store.

A special election will be held at Grant's Pass on October 8th, to vote on the proposition of bonding the city for an aggregate sum of \$22,000.

KLAMATH COUNTY NEWS.

E. J. Poole, formerly of Medford, is now a resident of Olney, Klamath county, where he has opened a blacksmith shop.

The old steamer Mayflower, plying between Klamath Falls and Keno, started from the latter place one day last week, towing two barges loaded with lumber.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also caused by ten or more caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (no matter how long) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

DYSPEPSIA

Is that misery experienced when suddenly made aware that you possess a diabolical arrangement called stomach. No two dyspeptics have the same predominant symptoms, but whatever form dyspepsia takes

The underlying cause is in the LIVER,

and one thing is certain no one will remain a dyspeptic who will

Start the Liver working and all bodily ailments will disappear.

For more than three years I suffered with Dyspepsia in its worst form. I tried several doctors, but they afforded no relief. At last I tried Simmons' Liver Regulator, which cured me in a short time. It is a good medicine. I would not be without it.—JAMES A. ROANE, Salem, Pa.

It is of vital importance that it should be understood by persons whose kidneys are inactive, that this condition of things is usually indicative of a state of organs where life hangs in the balance. Bright's disease, diabetes, albuminuria are all diseases of a very obstinate character in their mature stage, and all have a fatal tendency. They often baffles the most practical medical skill and the most approved remedies of material medica. But opposed at the outset—that is to say, when the kidneys begin to discharge their functions ineffectively—with Hostetter's Stomach Bitters, the dangerous tendency is checked. Very useful, also, in this household medicine for those ailments of common occurrence—constipation, biliousness, dyspepsia and nervousness. It is a safeguard against malaria and averts chronic rheumatism.

Fortunes are lost annually.

Directly and indirectly, by people who cannot do their own figuring, write their own letters, or keep their own books; and who do not know when business and legal papers which they must handle every day are made out correctly. All these things, and much more, we teach thoroughly.

Hundreds of our graduates are in good positions, and there will be openings for hundreds more when times improve. Now is the time to prepare for them. Besides, a business education is worth all it costs, for one's own use. Send for our catalogue, to learn what and how we teach. Mailed free to any address.
