THURSDAY.....OCTOBER 4, 1894.

On Dorris' feet Are the smallest of twos, But surely some elf Has enchanted her shoes, For, wherever we go, Walk, row or ride,

In church or at tennis, Her shoes come untied At times it is trying. But what can I do When poor Dorris murmura "Oh, bother that shoe!"

So down I must flop In the dust and dirt To tie up the shoe Of that dear little flirt. These precious girl tyrants! We cannot rebel,
For even their ribbons
Are filled with their spell.

Since old fashioned aprons
No longer they use, They tie a poor man
To the strings of their shoes.

—Vassar Miscellany.

BAKERS' BREAD.

A Few Facts About a Somewhat Familiar Article of Food.

Styles change in bread, as in everything else, and shapes that were more working power in the big buildings or less familiar 10 years ago are now No to both questions. not made at all. Every baker tries to have something distinctive about his very scarce and the price had increased. output, and almost every baker thinks | Every man who burned coal was having his bread is the best. So everybody who it fed into the fire boxes a mere spoonbuys bakers' bread knows there is really ful at a time, so as to make the supply a great difference in it in appearance and last as long as possible. In other words, in taste. The housewife makes wheat he was getting almost perfect combus bread of one kind of flour; the baker tion, and consequently there was little, makes it generally of three—two brands if any, smoke pouring out of the stack. of spring wheat flour and one of winter He was getting the full value of his wheat, mixed, with the result of mak- | coal, and this, it might seem, would be ing a finer, whiter, smoother loaf. Bak- a good thing for him to do whether or ers do not all agree as to the exact pro- not there was a coal famine. portions in which these flours should be . To some minds the late improvements
