The Ohio Democrats, by taking strong ground for free and unlimited coinage of silver are not only doing missionary work for this year, but they are laying the foundation for bigger and broader work in the years to immediately follow.

In view of the fact that a considerable sum of money is spent annually in Oregon for text books, some of the legislators, with the best interests of the people at heart, may favor the passage of such a law.

From now on the N. Y. World, which has been coming to you regularly once a week, will come twice a week. This is in line with modern progress, and is a part of that large policy of advancement that has made that newspaper the wonder of the land.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
