Suit for a Large Sum.

Charles Hopkins has commenced suit in the United States circuit court at Portland against John Parkinson and Meta B. Parkinson, E. L. Tallman and Nellie E. Tallman. Charles Hopkins is a citizen of the state of Washington, and the defendants citizens of the state of California. The complaint alleges that on the 9th day of November, 1893, the Parkinsons executed their promissory notes to plaintiff for $61,602. These notes were secured by mortgages on certain lands in Jackson county, Oregon. The notes and mortgages were secured also by a mortgage covering certain real property in the county of King, state of Washington, and the mortgages on Jackson county property were made as additional security. The Tallmans are made parties to the suit for the reason that they claim a lien on the property by deed or otherwise. By a provision of the mortgage to the Jackson county property, Hopkins, on November 28, 1893, or 19 days after the date of the notes, released 50 acres of the land, which is excepted from the foreclosure.

File Your Notices.

We would call the attention of the readers of the SEMI-WEEKLY TIMES to the fact that the time will be up the first of January in which a person can file for record his notice of intention to hold and work his mining claim on which no assessment work has been done the past year. On July 18th of this year congress passed an act to amend section 2324 of the revised statutes, U. S., relating to mining claims. Under the provisions of this act miners were exempted from doing the annual amount of assessment work on their claims. To take advantage of this it is necessary for every man who has not done his assessment work to file his notice of intention in the county clerk's office; otherwise his claim can be relocated.

Nothing in It.

G. W. Boggs, the well-known operator in mines, is expected to return from Tacoma in a short time and resume his operations in southern Oregon. THE TIMES has it from the best source that the authorities of that city have no case against Mr. B., who served as treasurer for two years and handled millions of dollars during that time. The money in question was deposited in the State savings bank by order of the council, and it was no fault of his that it was lost; and the charge that there was anything criminal in the matter is ridiculous. Mr. Boggs has made many friends during his short sojourn in southern Oregon, all of whom will be glad to hear that he will be fully vindicated.

Dramatic Company Coming.

The old favorites, J. G. and E. Alma Stuttz, who played in Jacksonville about eight years ago, are too well known to need any special mention, further than that they are, as usual, supported by an elegant caste and a large company. They will produce here one of their best pieces, from a well-selected repetoire, and as prices are reduced and one night is all the people of Jacksonville will have the pleasure of seeing them, every one should take the opportunity and attend. Remember the date: Wednesday, Nov. 28th. Seats on sale at the S. F. Variety Store.

Get Your Fruit Trees.

L. R. Warner of Medford, agent for the Albany Nurseries, whose products have gained an extended reputation, has lately received a full line of goods in his line, consisting in part of the best and most popular kinds of apple, peach and prune trees, small fruits of all kinds, shade and ornamental trees, etc., which may be seen at his delivery yard south of the Medford bank. His prices are the most reasonable. Call and examine for yourself.

Body Probably Identified.

Oakland, November 13.—It is believed that the unknown Oakland man who was found murdered at Silver Lake, Or., may be Charles Schaessens, a former waiter at the Maison de l'Opera in the MacDonough Building. The proprietor of the restaurant says that the description of the murdered man corresponds with that of Schaessens, and that the waiter recently went to Oregon. Schaessens was an unmarried Belgian, twenty-three years old, with no relatives in this country.

Estray Notice.

Strayed, from the Field farm in Sterlingville precinct, during the latter part of March, a bay mule, about five years old, with a long, dark mane and tail, no brands or other marks perceptible. A suitable reward will be paid for his return. Enquire at the TIMES office for particulars.

Henry Wilson, the postmaster at Welshton, Florida, says he cured a case of diarrhœa of long standing in six hours with one small bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy. It can always be depended upon. When reduced with water it is pleasant to take. For sale by all druggists.

W. A. McGuire, a well-known citizen of McKay, Ohio, is of the opinion that there is nothing as good for children troubled with colds or croup as Chamberlain's Cough Remedy. He used other remedies without benefit and then concluded to try the children's medicine, and to his delight it soon effected a permanent cure. 50-cent bottles for sale by all druggists.

Common Sense

Should be used in attempting to cure that very disagreeable disease, catarrh. As catarrh originates in impurities in the blood, local applications can do no permanent good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla.

Hood's pills cure constipation by restoring the peristaltic action to the alimentary canal.

From

High Government Authority.

No authority of greater experience on food products exists than Dr. Henry A. Mott, of New York. Dr. Mott's wide experience as Government Chemist for the Indian Department, gave him exceptional opportunities to acquaint himself with the qualities and constituent parts of baking powders. He understands thoroughly the comparative value of every brand in the market, and has from time to time expressed his opinion thereof. On a recent careful re-examination and analysis he finds

Dr. Price's Cream Baking Powder

superior to all others in strength, purity, and efficiency. Dr. Mott writes:—

"New York, March 20th, 1894.

I find Dr. Price's Cream Baking Powder to be superior to all others, for the following reasons:—

1st. It liberates the greatest amount of leavening gas and is consequently more efficient.

2nd. The ingredients used in its preparation are of the purest character.

3rd. Its keeping qualities are excellent.

4th. On account of the purity of the materials and their relative proportions, Dr. Price's Cream Baking Powder must be considered the *acme of perfection* as regards wholesomeness and efficiency, and I say this having in mind certificates I have given several years ago respecting two other baking powders.

The reasons for the change in my opinion are based on the above facts and the new method adopted to prevent your baking powder from caking and deteriorating in strength.
