DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price.

By dealers, agents, etc., and in a few instances as a premium for subscriptions to papers. Announcements of these comparatively worthless reprints are very misleading. They are advertised to be the substantial equivalent of a high-priced book, while they are all Reprint Dictionaries, phototypic copies of a book of over fifty years ago, which was sold for about \$5.00, and which was much superior to these imitations, being a work of some merit instead of one Long Since Obsolete.

The Webster's Unabridged Dictionary published by our house is the only authoritative one of that name. It bears our imprint on the title-page and is protected by copyright from cheap imitations. As a dictionary lasts a lifetime it will not be better to purchase the LATEST AND BEST.

Webster's International Dictionary of ENGLISH, Biography, Geography, Politics, etc. 1860. 1842. 1844. 1846.

BRIEF MENTION.

Roseburg granted 3 saloon licenses last week.

Bananas, oranges and lemons can always be found at Wetterer's.

Large quantities of flour are awaiting shipment to China from Puget Sound ports.

The best brands of cigars, tobacco, etc., can always be found at Joe Wetterer's.

The Belknap Springs Hotel, east of Eugene, was destroyed by fire last week. Loss, about \$2500.

Alvord, on trial for embezzlement from the First National Bank of New York, is no petty thief. He managed to "touch" the bank for \$690,000.

Manila has about 165,000 inhabitants. There is a smaller number of saloons there in proportion to its population than in any city of its size in the United States.

Peter Sells, the well-known circus manager, of the Sells Brothers and Forepaugh shows, has been granted a divorce from his wife on the ground of gross neglect of duty.

Mayor Harris of Eugene has issued an order to the police for the enforcement of the laws and ordinances in regard to gambling. It is believed it is being scrupulously obeyed.

A large quantity of newspapers, suitable for wrapping, pasting on walls, putting under carpets, etc can be obtained cheap, in quantities to suit, at THE TIMES Printing House.

The celebrated Snap Shot, the best medicine in the world for allaying inflammation in man or beast, can be found at Dr. Robinson's drug store, also at Dr. Hinkle's, Central Point. Try it.

Two sticks of giant powder exploded at the Yankee Boy mine, in Myrtle creek district, last week. Lon Robinson and Frank Outman were blowing it. While they were in the tunnel a terrific explosion took place outside, completely demolishing their blacksmith shop.

Don't use any of the counterfeits of DeWitt's Witch Hazel Salve. Most of them are worthless or liable to cause injury. The original DeWitt's Witch Hazel Salve is a certain cure for piles, eczema, cuts, scalds, burns, sores and skin diseases. City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

A Portland white woman files complaint against her husband for divorce, the papers revealing the fact that he is a Chinaman. She alleges the stereotyped cause for divorce, "cruel and inhuman treatment, rendering life burdensome." It is said that not a few Chinamen in Portland and San Francisco have taken white wives.

Exposure to a sudden climatic change produces cold in the head, and catarrh is apt to follow. Provided with Ely's Cream Balm you are armed against Nasal Catarrh. Price 50 cents at druggists, or Ely Brothers, 56 Warren street, New York, will mail it. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation, cleanses and cures. Cream Balm quickly cures the cold.

The butterfly invariably goes to sleep head downward, its eyes looking straight down the stem of the grass, says the London Spectator. It folds and contracts its wings to the utmost, partly perhaps to wrap its body from the cold. But the effect is to reduce its size and shape to a narrow ridge, making an acute angle with the grass stem, hardly distinguishable in shape and color from the seed-heads on thousands of other heads around. It also sleeps on top of the stem, which increases its likeness to the natural final of the grass.

Just The Blues.

Many a woman dresses to go out, feels irreligious, sits down, and falls into a fit of despondent musing. Ask her what's the matter, and she'll probably answer "Just the blues." And what are the blues? Only another name, in general, for a disordered liver and a diseased stomach. Cleanse the liver, heal the stomach, purify the blood, and there'll be no more blues. It can be done by the use of Dr. Pierce's Golden Medical Discovery. This medicine puts the diseased organs of digestion and nutrition into a condition of sound health. It eliminates from the blood all impure and poisonous substances, and cleanses the clogged liver. It contains neither alcohol nor narcotics.

"I had liver complaint for the past fifteen years, complicated with dyspepsia and gall stones," writes Mrs. N. Berner, of 412 Elm St., Oshkosh, Wis. "I doctored with seven of our prominent doctors, and not one or all of them have done me the good, nor begun to do what your medicine has. I have used three boxes of Dr. Pierce's Golden Medical Discovery, one vial of his Pleasant Pellets, and one bottle of Dr. Pierce's Favorite Prescription, and have gained about eighteen pounds since I first began to take these remedies."

Dr. Pierce's Pellets cure biliousness.

Babies Who Live in the Sky—How They Kill Three Bears—How the Leaves Came Down.

A very strange family lived up in the sky—Mother Cloud and her Raindrop babies.

One day she called them all about her and told them of a wonderful journey which they must take away from her. At first they cried for babies do not like to leave their mothers, but soon they began to smile when she said that some day they would come.

She told them that she was going to put them on a train in care of Col. Wind, who would help them to get to the stations where they wished to go. This made them all happy, for all children love the "choo choo cars."

So saying, Mother Cloud bade her Raindrop babies goodbye, and the train started, whistling and bustling through the air.

Very soon Conductor Wind came along and shouted, "All passengers off for Brookville!" Several of the Raindrop children got off at this station. Mother had told them to do whatever work at hand they found to do, and to do it well. At Brookville they found some very thirsty cows who wanted drink and some poor little flowers parched with the heat, so they went busy giving them refreshment.

The train rolled on and whistled louder than ever. The next station was Riverdale. Here a large number of Raindrops were helped off by the conductor. Very near the station was a mill whose wheels were running very slowly, as the water was low, so the little helpers set to work to turn the great mill wheel which saved the logs into boards. How hard they worked!

The train moved on to the last station, Oceanside. There were only two little passengers left to get off here, and they were met by a great many little Raindrop cousins. The mother had told all the children when their work was finished to go to Oceanside and wait there.

Mother Cloud felt very lonely one day for her little children, so she went to see her friend, Mr. Sunshine, and told him how she longed to see her babies. He was a very genial, kind hearted man, so he said, "All right, I'll take my golden chariot and go for them." So he started off in his beautiful coach, drawn by fiery steeds, with the rainbow for a harness, and all the Raindrop children clapped their hands with joy when they saw him coming, for they knew they were going home to Mother Cloud.—Etta D. Ellsworth.

Boy Kills Three Bears.

Three wild bears in one day by a 13-year-old boy is something out of the common. This, however, is the record of George Mahly of Lock Haven, Pa.

One morning while George was wandering aimlessly near Hammersley's fork he discovered three bears. Going home quickly, he got his father's gun, returned to the scene and shot one of the animals, afterward dragging it home. The Mahly household was greatly astonished. After dinner the lad made another trip to the place of his adventure. As he saw no bears there he hid in a thicket and watched. In a little while he saw the head of another bear thrust through a fence not ten feet away. He fired, hitting the bear in the left shoulder. After whirling around a few times bruised and loaded, then Mahly ran home again, leading his gun, while his mother stood speechless with astonishment. He merely said, "More bears!" and bounced out of the house. As he got into the front yard he saw the third bear slowly crossing the road quite close to the house. One shot ended the career of this one. Dragging it to the house, he wiped his brow and merely said: "There! If anybody wants the other one, he's got to go and haul it in."

How the Leaves Came Down.

"I'll tell you how the leaves came down," The great tree to his children said: "You're getting sleepy, Yellow and Brown, Yes, very sleepy, little Red."

"Ah!" begged each silly, pouting leaf, "Let us a little longer stay!" Dear Father Tree, behold our grief; "This such a very pleasant day We do not want to go away."

So just for one more merry day To the great tree the leaflets clung, Frolicking and danced and had their way, Upon the autumn breeze swung, Whispering all their sports among.

"Perhaps the great tree will forget And let us stay until the spring, If we all beg and coax and fret." But the great tree did no such thing; He smiled to hear their whispering.

"Come, children all, to bed!" he cried, And ere the leaves could urge their prayer, He shook his head, and far and wide, Fluttering and rustling everywhere, Down sped the leaflets through the air.

I saw them on the ground they lay, Golden and red, a huddled swarm, Writing till one from far away, White bedclothes heaped upon her arm, Should come to wrap them safe and warm.

The great tree true looked down and smiled "Good night, dear little leaves," he said, And from below each sleepy child Replied, "Good night," and murmured, "It is so nice to go to bed."

MINING NEWS.

Placer miners are busy. Alfred Anderson is developing a promising ledge in Foothills creek district.

Broad & Reid are prospecting Oregon Belle No. 2, on Ball's creek, with fair results.

Notices for the location of placer and quartz mines, etc., for sale at THE TIMES office.

Miners' liens, deeds to mines, water right locations and other mining blanks always on hand at THE TIMES office.

J. M. Westlake, who is said to be interested in prominent mines in Colorado, is in Josephine county, inspecting its mining resources.

The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office.

Frank Roundtree, who is acting as engineer for Dr. Ray at the Braden mine, informs THE TIMES that the hoisting works recently put in there do excellent service.

A bill has passed the U. S. Senate, and will doubtless become a law, declaring unoccupied public lands containing salt deposits to be subject to purchase under the mining laws.

Scarcity of Poorman's creek, was in Jacksonville Tuesday, is THE TIMES that that district is the best supply of water ever known, and an unusually successful season is anticipated.

Simmons & Cameron of Waldo, who have opened a new cut, will make a first-class showing this season. They have enlarged the ditch running on Scotch Gulch and otherwise increased their working capacity.

A Washington correspondent writes to the District Commissioners of the pasting of advertising labels on crates of bread and wanted them to stop the practice, but the commission assured him that the official chemist's opinion was that the use of these labels on bread is in no way detrimental to health.

Electric coal cutting machinery is rapidly displacing handwork and other varieties of mechanical mining appliances in the collieries of Great Britain and the United States. The coal thus mined is cleaner, the waste less and the effect of the machine on the ventilation and temperature of the mine less than with any other mechanism.

A singular battle was witnessed recently in an English apiary. A hive of bees was besieged by a large swarm of wasps. The bees made valiant sorties to try to drive away their besiegiers, and the wasps made furious assaults to drive out the bees. The battle raged for two days, at the end of which time the bees evacuated the hive and the wasps took possession.

Consumption

Destruction of lung by a growing germ, precisely as moldy cheese is destruction of cheese by a growing germ.

If you kill the germ, you stop the consumption. You can or can't, according to when you begin.

Take Scott's Emulsion of Cod Liver Oil: take a little at first.

It acts as a food; it is the easiest food. Seems not to be food; makes you hungry; eating is comfortable. You grow stronger. Take more; not too much; enough is as much as you like and agrees with you. Satisfy hunger with usual food; whatever like and agrees with you. When you are strong in, have recovered your strength—the germs are dead; you have killed them.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists, 409 Pearl St., New York.
