Special Commissioner Rockhill, representing the United States in the re-establishment of order in China, has been withdrawn from Peking, and will return home soon. It is not so much religion as land-grabbing on the part of the Powers that has aroused the ire of the Chinese. The missionaries have been unjustly blamed for the cause of the recent troubles in the great Far Eastern empire. They have been used as an entering wedge for commercial development and aggression. The foregoing and many other pertinent observations to the differences between the Powers and China were made aboard the United States transport Albatross, on which she was a passenger from Taku, by Mrs. Ragsdale of Santa Rosa, Calif., wife of J. W. Ragsdale, United States consul at Tien-Tsin. For Over Fifty Years. The company is a large concern, employing constantly from 25 to 30 artists, mostly young ladies. Mr. Kraus informs us that they have work enough for that many more ladies, and those who have any painting in the line of portrait-drawing or any kind of work, and wish to perfect themselves in the art would do well to communicate with the company at Portland. "I am so Glad you are well, Dear Sister."

This picture tells its own story of sisterly affection. The older girl, just budding into womanhood, has suffered greatly with those irregularities and menstrual difficulties which sap the life of so many young women. Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,—that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus in the early stage of development and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system.

Could anything prove more clearly the efficiency of Mrs. Pinkham's Medicine than the following strong statement of Grace Stansbury?

"DEAR MRS. PINKHAM:—I was a sufferer from female weakness for about a year and a half. I have tried doctors and patent medicines, but nothing helped me. I underwent the horrors of local treatment, but received no benefit. My ailment was pronounced ulceration of the womb. I suffered from intense pains in the womb and ovaries, and the backache was dreadful. I had leucorrhoea in its worst form. Finally, I grew so weak I had to keep my bed. The pains were so hard as to almost cause spasms. When I could endure the pains no longer, I was given morphine. My memory grew short and I gave up all hope of getting well. Thus I dragged along. To please my sister I wrote to Mrs. Pinkham for advice. Her answer came, but meantime I was taken worse and was under the doctor's care for a while. "After reading Mrs. Pinkham's letter, I concluded to try her medicine. After taking two bottles I felt much better; but after using six bottles I was cured. All of my friends think my cure almost miraculous. I thank you very much for your timely advice and wish you prosperity in your noble work, for surely it is a blessing to broken-down women. I have full and complete faith in the Lydia E. Pinkham Vegetable Compound."—GRACE B. STANSBURY, Herington, Kansas.

BAD COLDS. Quinine is 10 years behind. Colds do not now have to be endured. Mendel's Dynamic Tablets (called dynamic from their energy) crowd a week's ordinary treatment into 10 hours, and about the worst of colds over night. "It was the worst case of grip I ever had. A half dozen friends had strep throat, and I caught the first night. I endorse and recommend them to the people."—Barney Bentley, ex-member of Congress and attorney, 101 Sansome street, San Francisco, July 7, 1900. "Winter colds have always been serious things to me. They are hard and stay for months. But the last was stopped suddenly by Mendel's Dynamic Tablets. Both cough and cold disappeared in a couple of days. Nothing else does this for me."—Mrs. Emma L. Hollis, 14, Moss st., San Francisco, Aug. 6, 1900. "I live across the street from where Mendel's Dynamic Tablets are made. That is how I first got them. They stop colds without notice. I took a dozen boxes with me for my self and friends when I went to Nome."—H. L. Van Winkle, Captain, 207 E. Washington St., San Francisco, Aug. 9, 1900. For sale by City Drug Store, Jacksonville.
