The State Senate violated the resolution for the appointment of clerks one day last week, in giving its committee on game clerical assistance; but, as Miss Laura Jones is the beneficiary of this act, no one is inclined to object to this breach of reform.

THERE is no perceptible change in the vote for U. S. senator. Corbett has gained a vote, that of Speaker Reeder, and McBride one, that of Representative Dresser. It looks as if John H. Mitchell's chances are booming; but he will not allow his name to go before the joint convention unless he is certain of election.

Those who belittle the opinions of those who favor bimetalism are referred to the treasury report for January, which states that the gold coined that month aggregated \$12,000,000 and the silver \$2,700,000. If a gold-standard administration can find use for so much silver, what might happen if a party pledged to give the silver impartial treatment was placed in power?

The population of incorporated towns of Oregon, as ascertained by the census taken last June, has finally been announced from Washington. Ashland and Grant's Pass, the two largest towns in the valley, were previously given a population of 2700 and 2300, in round numbers, respectively. That of other towns in southern and southeastern Oregon is as follows: Medford, 1791; Roseburg, 1690; Jacksonville, 653; Central Point, 322; Gold Hill, 285; Lakeview, 761; Klamath Falls, 447.

THIRTY years ago the importation of goods to this country amounted to \$11.96 per capita. Last year they were \$10.90 cents. Then our exports were \$10.46 per capita, and for the year 1900 were \$19.42. From these figures it appears that we are sending less money out of the country now than formerly, and sending many more goods away for money at present than in the past. Both of these conditions contribute to the increased wealth of our land, which unfortunately is becoming very much centralized. We are producing more of the things we need than in the past, and also producing a far greater volume of goods for others to purchase and consume.

Why all this great ado over the late Queen Victoria in America? Why this putting of flags at half-mast, and these grief meetings in the larger cities of the United States on the day of her burial? They can be translated into nothing but snobishness, hypocrisy and toadism of the most sickening nature. To the credit of the English people it may be said that no such exhibitions would be made in Great Britain over the death of President McKinley, Kaiser Wilhelm or any other ruler. It was quite proper that the English should mourn for their dead sovereign in the most respectful manner; but why should they be aped in this country must remain a profound mystery to all true Americans.

ONE of the most cruel and callous statements ever made by a public man was that of Senator Carter of Montana, in speaking in the U. S. Senate in reference to the Philippines. "This is a practical age," he said. "We'll keep the islands if it pays; not otherwise." The question then is has it paid? The people are spending over \$165,000,000 a year in conquering the Philippines, while there is only a profit of \$165,000 in the trade we have with them; and that goes only to a few persons. How long will the people stand that? asks the Guard. According to even Mr. Carter's depraved ethics the Administration should loosen its grip on "our new possessions," for if one thing is clearer than another it is that they are not paying, and never will.

SENATOR HUNT's bill to amend the registration law, so that voters who could or did not register for the June election can get their names on the register so that they can vote at the presidential election, is a good one. It provides: "The county clerk shall, on the first Monday in September, immediately preceding a presidential election, reopen the registration books for that year in order that any electors not already registered that year who are, or will be, qualified to vote for presidential electors at the ensuing presidential election, and those who after registration, have removed to another precinct, may register in the precinct in which they live and said registration books shall be kept open until 5 o'clock p. m. 15 days prior to the day of said presidential election."

EDITORIAL NOTES.

THE State Senate has passed the Brownell bill, providing for a constitutional convention, and it will doubtless become a law. The convention will meet in Salem on the second Monday in September, 1902. It shall consist of 61 delegates, to be elected at the June election, 1902. The session is limited to 30 days and the per diem to \$3 per day. The constitution shall be submitted for adoption or rejection in June, 1904. The bill appropriates \$30,000, or so much thereof as shall be necessary.

WHILE there is no information to be had locally regarding the purchase of control of the Southern Pacific by the Harriman syndicate and in the interest of the Union Pacific, there is much speculation as to what the new deal means for this country. It is assumed by some that it means a closer affiliation of the Oregon lines—the O. R. & N. and the O. & C. The latter is now operated by the Southern Pacific under a lease that will not expire until 1927; but it lacks a good deal of paying expenses, and it is not doubted that the Harriman interests will do something to improve the status of the property.

Those who have been appointed by President Fisher of the Oregon Press Association as delegates to the next meeting of the National Editorial Association recently adopted the following resolution: "Resolved, that we, as Oregon's delegates to the N. E. A., which convenes in Buffalo, June 10-13, during the Pan-American Exposition of 1901, do hereby pledge ourselves, individually and severally, to do all in our power toward having said N. E. A. meet in Portland, Ore., during the exposition of 1905, which is to be held to commemorate the Lewis and Clarke expedition; and we also pledge our hearty support to the commission appointed by our state executive to represent Oregon at the Pan-American Exposition, and request that every member of our state association aid in seeing that the state and its resources be properly advertised and displayed at Buffalo during the entire exposition."

CANADA has commenced what the United States should have accomplished long ago—the ownership of all telegraph lines. A dispatch from Toronto says: The Dominion government has practically taken steps to purchase the telegraph system of Canada, extend the lines enormously and operate them in connection with the postoffice department. It is also seriously proposed to follow a similar course with the telephone; but in the case of the latter municipalities will be licensed, as in Great Britain, to operate the system within their own limits. The great desire of Canadian statesmen is to see cables owned by Great Britain under the Atlantic and Pacific, joined at each ocean by wires owned by the Dominion, crossing the country, thus practically girdling the globe by a cable absolutely under imperial control. The business men of Canada are unanimously in favor of the scheme, which is a first-class one, even if Populistic.

Miners, Paste This in Your Hats.

The Revised Statutes of the United States—Section 2320—limit a lode claim of mineral-bearing quartz to 300 feet on each side of the vein and 1500 feet in length. Section 2333 fixes the area of a vein or lode claim within the limits of a placer patented to the same person at 25 feet of the surface on each side of the vein or lode. Therefore a lode claim within the limits of a placer location is limited to 25 feet of the surface on either side of the middle of the vein. A placer location confers neither title to nor possession of, nor withdraws from subsequent location by others, known lodes or veins of mineral in place within its limits, under the last section named above, which provides that a placer patent, failing to include a patent for a vein or lode claim known to exist within its limits, shall be deemed a conclusive declaration that the placer claimant has no right to the same. Since a placer patent confers no possession to known lodes or veins within its limits, a subsequent location of a vein or lode within the limits of the placer claim is not a trespass, as against the placer claimant, within the rule of law that a trespasser on a lawful possession can acquire no rights. But a lode claim is an interest in real property which, as against all but the United States, is treated as a fee, and will support an action to quiet title, under a law authorizing a person in possession of real estate to bring an action to determine adverse claims to same.—[Scientific and Mining Press.]

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends; but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys, and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at City Drug Store.

WANTED.—Capable, reliable person in every county to represent large company of solid financial reputation. \$200 salary per year; payable weekly; \$5 per day absolutely sure, and all expenses; straight, bona-fide, definite salary; no commission; salary paid each Saturday and expense money advanced each week. STANDARD HOUSE, 321 DRUG-BORN ST., CHICAGO.

HERE AND THERE.

Remember The Boss.
F. E. Dunn of Eugene on Monday sold 15 bales of 1899 hops at 10 cents.
With the best and neatest job printing THE TIMES will accommodate you.

The S. P. purchased fourteen million feet of ties for use on its Oregon lines during 1900.
C. J. Howard, editor of the Nugget, has been confirmed as postmaster of Cottage Grove.

Stationery, notions, smokers' articles, etc., also a fresh line of lunch goods, at Joe Welterer's.

Representative Grace's bill relating to the poisoning of domestic animals has passed the house and will become a law.

Certificates for scalp bounties for the use of notaries and justices of the peace—latest forms—for sale at THE TIMES office.

Two large steamers have been purchased by the Canadian Pacific Railway, to run between Vancouver, B. C. and Skaguay.

Hon. L. B. Cox, a prominent lawyer of Portland, is dangerously ill, from the effects of an operation performed for the removal of a malignant growth.

Wm. Koepp, watchmaker and jeweler, is located at the corner of California and 5th streets, opposite Judge Day's real-estate office. Satisfaction guaranteed.

City Drug Store will refund you your money if you are not satisfied after using Chamberlain's Stomach and Liver Tablets. They cure disorders of the stomach, biliousness, constipation and headache. Price 25 cents. Samples free.

Thomas S. Kirk, superintendent of public instruction of California, says that there are now about 15,000 qualified teachers in that state and only 7,500 positions. This is a gentle hint to our young people to adopt some other profession other than that of teaching.

A dispatch from Topeka, Kansas, dated Feb. 4th, says: Mrs. Nation continued her work at this place on that day. She wrecked several drug stores. Their proprietors generally went word to the police, being afraid to encounter the woman. She declares that she has only just commenced her crusade.

For the weakness and prostration following grippe there is nothing so prompt and effective as One Minute Cough Cure. This preparation is highly endorsed as an unfailing remedy for all throat and lung troubles, and its early use prevents consumption. It was made to cure quickly. City Drug Store and Dr. J. Hinkle, Central Point.

The army appropriation bill—the first ever drafted for the maintenance of the greater United States army, which has just been signed by the President—has been reported to the House committee on military affairs. It carries the sum of \$118,000,000, \$4,000,000 more than it was predicted would be the amount required annually to maintain an army of 100,000 men.

The Daily Capital and the Capital job printing establishment of Boise, Idaho, have been sold by George J. Lewis to C. H. Fisher and R. S. Sheridan of Roseburg, the consideration being \$15,000. The new management took charge Monday. It is the intention, it is said, to organize a joint stock company. It is stated that the Democrats agreed to subscribe \$10,000 of the capital stock of \$25,000.

Papers have been made out for a corporation with a capital of \$5000 to establish a telegraph and telephone line from Lakeview to Silver Lake, via Crooked creek, Paisley and Summer Lake, a distance of 100 miles. It is also proposed to wire Lakeview for a local telephone system. The shares will be placed at \$10, and about one-half of the amount will be taken by business firms and stockmen who are residents of Lakeview.

Representative Poorman has introduced a bill to cure the tramp nuisance. It is a copy of the Alabama law, and reads as follows: That any person other than a railway employee, without authority from the conductor of the train, rides or attempts to ride on top of any car, coach engine or tender on any railroad of this state, or on the drawheads between cars, or under cars on trucks or of trucks, or on any freight car or mail car, on any train in this state, shall be guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than \$5 nor more than \$25, and in default of payment of such fine to be committed to the county jail one day for each \$2 of said fine.

King Edward is a victim of cancer of the throat. There is absolutely no doubt of this, and the best specialists in the kingdom agree that his days are numbered. His case is exactly similar to that of the late Emperor Frederick of Germany, and also that of the Duke of Edinburgh. Sir Felix Semon, who is in regular attendance upon His Majesty and sprays his throat at regular intervals, is authority for the statement that the dread disease runs in the family of the King, and there is no hope of his recovery. When it becomes necessary for him to make a speech, however short, his physician treats his throat for some time, spraying it with astringents and medicines. The King knows he is doomed; but he looks forward to his fate with courage.

His Life Was Saved.

J. E. Lily, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it, he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise. This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung troubles. Regular sizes 50 cents and \$1.00. Trial bottles free at City Drug Store; every bottle guaranteed."

MINING NEWS.

Notices for the location of placer and quartz mines, etc., for sale at THE TIMES office.

The Vickroy placer mines, situated in Forest creek district, are being operated by Will. Bostwick and Ed. Smith.

Miners' liens, deeds to mines, water right locations and other mining blanks always on hand at THE TIMES office.

Baker county's records show nineteen hundred quartz and placer mining locations during 1900, a large majority being of the former.

The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office.

Barrett's bill, which passed the house last week, and was printed in THE TIMES, has been amended so that 40 days is given for location work.

Mark Winningham and M. Van Gorder have become sole proprietors of the Sunset mine, located in Forest creek district, from which considerable gold has already been extracted. They will soon have the mill, which they recently purchased, in operation.

The only proposed amendment to federal mining laws proposed so far at this session of Congress is one by Senator Stewart of Nevada, prohibiting the location of more than one placer claim on the same watershed and more than one quartz claim on the same lode or vein by one person.

An oil excitement is starting in Douglas county, whether there is any oil or not. Another company has been organized, called the Umpqua Oil, Gas & Mining Co., whose place of business is Roseburg. The capital stock is \$1000, and S. C. Flint, J. T. Bridges, F. W. Benson and J. G. Crosby are the incorporators.

Education in Porto Rico.

The expense of maintaining schools in Porto Rico is very high, if we consider the amount spent for the small number of pupils enrolled, but as that country is gradually brought into closer touch with our own, their system will evidently be changed, until it reaches our present state of perfection. In this country the people are being educated to the fact that there is a sure cure for dyspepsia, indigestion, constipation, liver and kidney troubles, and that medicine is Hostetter's Stomach Bitters. It should be taken at the very first symptom, if you would avoid unnecessary suffering. It will give prompt, relief and eventually cure, as hundreds of people, including many prominent physicians, have testified during the past fifty years.

Immense Railroad Consolidation.

Months will elapse before the stupendous events of the Union Pacific railway deal are fully realized by the public. The immense interests involved, the almost inconceivable wealth required to carry the scheme through, form the most wonderful and weighty chapter of finance that this or any other country has ever known. Like a great net work of harpstrings across the sounding board of the continent, the railroads of the country are now "harmonized." On these giant harpstrings six men will play the tunes to which the seventy million people in the country will dance. These are: J. Pierpont Morgan, James J. Hill, John D. Rockefeller, E. H. Harriman, W. K. Vanderbilt and George J. Gould. In a manner similar to that noted in the Southern Pacific deal, almost every railroad in the country has been combined for "protection" and "mutual interest." The completion of the Southern Pacific deal leaves only a few complete roads in the country that continue to call themselves independent. They are the Chicago and Northwestern, the Rock Island, the Atchafalpa and the Burlington. The great St. Paul system is already in control of Hill, Morgan and Rockefeller. These roads are sure to combine with the others in time. This means that these six men control railroads sufficient to girdle the earth two and a half times, and that they control enough money to fight the country's wars, and that all these railroads and dollars are working in harmony for the further benefit of—not the people, but their masters. The completion of the Southern Pacific deal brings out the fortification of the railroads against any outside influence which they may care to oppose. There are, of course, many small railroads outside the great works; but there are very few men in Wall street that do not think there will be an entire unification of railway interests throughout the country during the next year, says the Examiner.

To Be Prepared

For war is the surest way for this nation to maintain peace. This is the opinion of the wisest statesmen. It is equally true that to be prepared for spring is the best way to avoid the peculiar dangers of that season. This is a lesson multitudes are learning; and at this time, when the blood is sure to be loaded with impurities and to be weak and sluggish, the millions begin to take Hood's Sarsaparilla, which purifies, enriches and vitalizes the blood, expels disease germs, creates a good appetite, gives strength and energy, and puts the whole system in a healthy condition, preventing pneumonia, fever and other dangerous diseases which are liable to attack a weakened system.

REAL ESTATE TRANSFERS.

The following deeds have been recorded in the office of the county recorder since the last report of THE TIMES:

O S Brown to G W Trefen, lots 38 and 39, Highland add to Ashland, 150 acres, 50 00
R K Sutton to L A Nell, 150 acres in sec 2, twp 36, 1 n, 85 00
J C Whipple to T J Kenner, property in Ashland, also 5 interest in 80 acres in sec 36, twp 36, 4 w, 65 17
Luke McGinnis to Leroy W Adams, 30 acres in sec 16, twp 36, 1 n, 500 00
J H Farleigh to Herod Corwin, lots 7 and 8, blk 3, Central Point, 450 00
Charlotte Pracht to E A Sherwin, lot 13, blk O, R R add to Ashland, 150 00
Total, 1,245 17

For Sale.

A Farm of 720 acres, located on Rogue River, suitable for grain and fruit culture or stock raising; has ample buildings and fencing.
A Placer Mine, in operation, equipped with pipe and giant; also some quartz properties. Will sell for cash or take in part payment property in or adjacent to Ashland. Terms: one-half down, balance in easy payments at 6 per cent. Call on or address:
H. L. WHITE,
Look Box 36, Ashland, Oregon.

THE TRANSVAAL WAR.

The Cape Town correspondent of the Daily Telegraph, wiring Sunday, says: It appears that in the action between General Knox and General DeWet, near Senekal, the Kaffir rifles sustained about a hundred casualties. More mounted troops are still needed. Three Boer invading columns, of which Herzog's was for a time the advance, are now moving toward the Orange river. It is believed that Piet Botha's force of 2,000 men, with seven guns from Smithfield, has crossed into the colony. British concentration is proceeding. Outlying garrisons are being withdrawn for the purpose of securing the main lines. General DeWet is expected to enter Cape Colony.

CAPE TOWN, Feb. 4.—Commando Davist with 1,400 Boers captured the British post Modderfontein and all those therein. The British lost 20 men in the engagement at Middleburg.

LOURENÇO MARQUES, Feb. 3.—There is a commando of 2000 Boers on Portuguese territory. It is supposed that their intention is to rescue the Boers here. The authorities have decided to remove to Maderia such Boer refugees as decline to surrender to the British, and also captured arms and ammunition.

The Leading Fashion Journal.

Style, refinement and effectiveness characterize the many fashion and millinery models, presented in the Designer for February, and they are illustrated in the most artistic manner in colors and in black and white. The professional modiste as well as the amateur dressmaker will find much to interest and instruct in "Points on Dressmaking," "Household Draperies," "Household Advice" and "Cookery." Mothers will gladly consult the pages of "The Kindergarten in the Home" and "Nursery Lore," the lover of fancy work is remembered in "With Crochet Hook" and "Home-made Valentines," and those socially inclined will appreciate "Etiquette Hints" and "At a Danish Valentine Party." Among the other instructive features of this number are "Floriculture," "For Health and Beauty," "Book Notes," "Congenial Fields for Women Workers," "Among Ourselves," and "The Mardi Gras at New Orleans." Fiction of high order is supplied by "A Rift within the Lute," a Valentine comedietta, and "A Knight in Army Blue," a stirring love story. The little folks are remembered in "Furnishing Miss Dollie's Parlor," which under the guise of a story gives hints for the employment of restless little fingers. The Designer combines helpfulness and entertainment for the household to a wonderful degree, and certainly supplies most generous excellence for 10 cents a number, \$1 00 a year. Standard Fashion Co., 32 W. 14th St., New York.

All the Year Round.

POPULARITY GAUGED BY NO PARTICULAR SEASON.

The fact is now established that the most successful railway route, whether you take it in the spring, summer, autumn or winter, is the Rio Grande Western Railway, the only transcontinental line passing directly through Salt Lake City, that quaint and picturesque city on the shores of America's Dead Sea. The climate of Utah and Colorado is temperate the year round, which makes traveling over the Rio Grande Western Railway, in connection with either the Denver & Rio Grande or Colorado Midland railroads, an unbounded success and delight. The dining car service is unparalleled. The road operates only the newest Pullman Palace and ordinary sleeping car equipments, as well as free reclining chair cars. For illustrated matter apply or write to J. D. Mansfield, 253 Washington St., Portland, or Geo. W. Heintz, acting general passenger agent Salt Lake City.

Something New.

Just published by the S. P. Co. is a pamphlet upon the resources of western Oregon, which includes an excellent map of the state and contains information on the climate, lands, education, etc., existing industries and their capabilities. Attention is also directed to such new fields for energy or capital as promise fair return. This publication has a need long experienced by Oregonians, in replying to inquiries of eastern friends. Copies may be had of local agents of S. P. Co., or from
C. H. MARKHAM, G. P. A., Portland.

Horses Lost.

Strayed, from Foothills creek district, about three years ago, three horses, even branded with a square or block on left hindler, points projecting from each corner thereof. One is a bay mare, 12 years old, weighing 1150 pounds, long body; another is a grey gelding, 7 years old, weighing between ten and eleven hundred pounds; and the other a chestnut sorrel mare, 7 years old, with white strip down nose, weighing about 1200 pounds. They were seen recently, ranging on the desert, near Bybee's bridge. I will pay \$5 a head to anybody who finds the above animals and will put them in some enclosure. For further particulars call on or address
P. W. GARRIS,
Kubli, Jackson Co., Or.

Only American Girl to Marry a King.

But one American girl has ever married a king, and she, a New England woman, now a widow, is living in a royal palace in the country of her adoption, almost lost sight of by her American sisters and friends. The romance of this fascinating, gifted American girl, who won the hand and heart of a king—one of the prettiest of love stories—will be one of the features of the March Ladies' Home Journal.

Large Wall Maps of the United States Given Away.

HOW TO GET ONE.
If you are going East, or thinking of sending for your family, do not buy your tickets until you have secured rates from the ILLINOIS CENTRAL RAILROAD Co. Their service is excellent by none, and they can reach all points in the East, South or Southeast from any point in Oregon and Washington. Through tourist car from Pacific coast to New York. If you will send fifteen cents in stamps to the address given below, we will forward you by return mail a large wall map of the United States, Cuba and Porto Rico, 34x50 inches. For particulars regarding passenger and freight rates call on or address
B. H. TRUMBULL, Com'l Agt.,
142 Third Street, Portland, Ore.

DIED.

WINNINGHAM—On Forest creek, Feb. 5, 1901, Nancy May, wife of Mark Winningham; aged 26 years, 4 months and 11 days.

BECK—Near Eagle Point, Jan. 26, 1901, youngest daughter of Mr. and Mrs. Aaron Beck; aged 4 years.

GRIFFITH—In Klamath County, Jan. 25, 1901, Elsie daughter of Mr. and Mrs. J. B. Griffith; aged 16 years.

BORN.

BRISCOE—In Trail Creek Precinct, Jan. 26, 1901, to Mr. and Mrs. Ed. Briscoe, a son.

"Give Him an Inch, He'll Take an Ell."

Let the smallest microbe gain lodgment in your body and your whole system will be diseased. The microbe is microscopic. But the germs become inches and then ell of pain. Hood's Sarsaparilla destroys the microbe, prevents the pain, purifies the blood and effects a permanent cure.

Hood's Sarsaparilla
Never Disappoints

Rheumatism.

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Eastman's Kidney Tablets have made a great part of their reputation curing Rheumatism. So get at the CAUSE of those fearful shooting pains and stiff, aching joints. There is but one sure way—

Eastman's Kidney Tablets.

Fifty doses 50 cents.
For sale by Dr. Robinson, Jacksonville.

BAD COLDS.

Quinine is 10 years behind. Colds do not now have to be endured. Mendel's Dynamic Tablets (called Dynamic from their energy) crowd a week's ordinary treatment into 15 hours, and about the worst of colds over night. "It was the worst case of grip I ever had. A half dozen friends had sure cures. Still it hung on. Heard of the Dynamic Tablets. To my amazement I found it for me." Mrs. Emma L. Hollis, 14, Moss St., San Francisco, Aug. 6, 1900.
"I live across the street from where Mendel's Dynamic Tablets are made. That is how I first took them. They stop colds without notice. I took a dozen boxes with me for myself and friends when I went to Nome." H. L. Van Winkle, Capitalist, 3017 Washington St., San Francisco, Aug. 10, 1900.
For sale by City Drug Store, Jacksonville.
