## DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price.

By dealers, agents, etc., and in a few instances as a premium for subscriptions to papers. Announcements of these comparatively worthless reprints are very misleading. They are advertised to be the substantial equivalent of a higher-priced book, while they are all phototype copies of a book of over fifty years ago, which was sold for about \$5.00, and which was much superior to these imitations, being a work of some merit instead of one long since obsolete.

The Webster's Unabridged Dictionary published by our house is the only meritorious one of that name. It is printed on the title-page and is protected by copyright from cheap imitation. As a dictionary lasts a lifetime will it not be better to purchase the LATEST AND BEST, Webster's International Dictionary of ENGLISH, Biography, Geography, Fiction, etc. Size 10x12 3/4 x 4 1/4 inches.

This Book is the Best for Everybody. STANDARD AUTHORITY of the U. S. Supreme Court, all the State Supreme Courts, the U. S. Government Printing Office and of nearly all the Schoolbooks. WARMLY COMMENDED by College Presidents, State Superintendents of Schools and many other eminent authorities.

Webster's Collegiate Dictionary. Recently abridged from the International and now so fit for the family and student. Size 7x10 3/8 inches. Specimen pages either free sent for the asking G. & C. MERRIAM CO., Springfield, Mass.

Recent experiments show that all classes of foods may be completely digested by a preparation called Kodol Dyspepsia Cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion, and it always gives instant relief. City Drug Store and Dr. J. Hinkle, Central Point.

In view of the Long Tom appropriation the following is very readable says the Eugene Guard: Jerry Simpson once asked a question of a southern legislator, who wanted an appropriation for the mouth of a stream called Fishing creek. "May I ask the honorable gentleman a question?" said the inquisitive Jerry. "Certainly, sir," was the reply. "Is the water deep enough on the bar at the mouth of Fishing creek to enable the fish to get over the bar without lightening?" Jerry's question added somewhat to the fame of that gentleman as a humorist, and also killed the appropriation for Fishing creek.

**Woman Wonder Why**  
They are doomed to so much suffering. But are they doomed? Is not the suffering the result of conditions which under skillful treatment might be entirely cured? Thousands of women who had been great sufferers, have learned that suffering was unnecessary after using Dr. Pierce's Favorite Prescription. It heads diseases of the delicate womanly organs and banishes the headache, backache and other aches which are the consequence of these diseases.  
"Favorite Prescription" is absolutely a temperance medicine in the strictest meaning of the term. It contains no alcohol and is free from opium, cocaine and all other narcotics.  
"I would you for advice February 4th, 1896," writes Mrs. L. M. Hallett, of Clearmont, Ohio: "I was reaching with pain from the back of my head down to my heels. Had hemorrhage for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicine, viz., Dr. Pierce's Favorite Prescription, Golden Medical Discovery, and 'Pleasant Pellets.' also gave advice about injections, baths and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the headache since, and now I put in sixteen hours a day at hard work."  
Sick women are invited to consult Dr. Pierce by letter free. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

## SHORT NEWS STORIES.

**Skobelev Before Constantinople.**  
New Will You Smile—An Army in Danger.  
Frederic Villiers, the famous war artist, in an autobiographical sketch contributed to a London periodical, gives this picturesque description of his last meeting with General Skobelev:  
"He was far and away the most brilliant soldier I ever met; a man with mad ideas and sane execution. The last time I saw him was when the Russian army faced Constantinople, a splendid instance of the survival of the fittest, 30,000 grim warriors who had come through the terrible Russo-Turkish campaign under Skobelev, ready at a moment's notice to occupy the city of sultans. It was a gray afternoon. The great general stood outside his tent, bareheaded, scalp shaven like a Mussulman, flowing yellow beard blown about by the wind. I had arrived from Constantinople to bid farewell to him, as I had been ordered to Malta to meet the Indian contingent. Skobelev said to me:  
"Not goodby, Villiers, but an revoir. We shall meet again, but how? Will it be when the Russians face the British?" for Skobelev fully believed, as did most people in 1878, that there would be a campaign between England and Russia. "Or will you throw in your fortunes with us and come with me? It would be a new experience for you."  
"But," I said, "general, how would it be if you were beaten, for you know we English are never defeated?"  
He laughed and said: "Well, anyhow, I shall be well looked after. No harm shall come to you in your case." I never saw him again.

**Novel Potato Salad.**  
Something of a novelty in the way of a potato salad was served at a luncheon recently. The potatoes, instead of being cut into dice, were boiled and put through a ricer. To two cupfuls of these riced potatoes, lightly measured, was added a half teaspoonful of onion juice and a half cupful of mayonnaise dressing. This was beaten lightly and thoroughly together and a couple of tablespoonfuls of the mixture put aside for garnishing. To the remainder was stirred in a cupful of celery that had been cut into dice, the whole piled on a bed of lettuce leaves and garnished with chopped parsley and boiled beet cut into forms. The plain salad that had been put aside was used to decorate the top of the mound, forced through a fancy pastry tube.

**Land for Sale.**  
I have 1560 acres of land, all in one tract, on Antelope creek for sale. It is situated 18 miles from Jacksonville, 12 miles from Central Point, and 10 miles from Medford. I will sell this land in tracts of 100 acres up until all is sold, at \$10 per acre. It is good farming and grazing land, and a good stock range on the outside. I will sell all, or as low as 100 acres in a tract. Inquire of Wm. BYBEE, Jacksonville, Or.

## FACTS IN A FEW LINES.

France has 22 organ manufacturers.  
Africa contains 80,000,000 Mohammedans to about 200,000,000 inhabitants.  
Twenty-eight different kinds of food are needed to feed the animals in the Berlin zoo.  
There are about 117,000 novels in the Paris National library and nearly 69,000 volumes of French poetry.  
During the siege of Peking the members of the diplomatic corps and the missionaries who were shut up in the British embassy ate 80 mules.  
The city of Moscow will expend 48,000,000 rubles, or about \$24,000,000, on new waterworks. The city has now a population of over 1,000,000.  
A Christmas tree for dogs was one of the features of a Chicago man's celebration of that holiday. The man has eight dogs, all fond of candy. He has no children.  
A permanent life line, consisting of a strong wire cable, has been stretched along the entire distance of the Chicago drainage canal, 34 miles, to be used in case of accident.  
The American quail imported into Sweden some time ago seem to thrive and increase in number. It remains to be seen, however, whether the birds can stand the long winters there.  
The apartment which the late King Humbert of Italy used to occupy at the Quirinal has been shut. Nothing will be changed in it, and none but members of the royal family will be allowed to visit it.  
There are 23,778 young men in the medical colleges of the United States, less than half as many, 11,874, in the law schools and only about one-third as many, 8,261, in the theological seminaries.  
Italian macaroni is no longer made by hand, but by machinery. According to the British consul at Naples about 70,000 cases of macaroni are annually exported to England and 500,000 to the United States.  
The town of Eatonville, Fla., has 1,200 inhabitants, with not a single white among them. It has its full quota of public officials, a bank and other business establishments requisite in a town of its size.  
The lake regions seem to be attractive to people. In Ohio during the last ten years the largest rate of increase in population was in the lake cities and counties. The same conditions are true of the states of Michigan and Wisconsin.  
About 11,000,000 Italians are exposed to malarial fever. There are about 2,000,000 cases every year, with an average mortality of 15,000. This proves that mosquitoes are more deadly in Italy than snakes and tigers in India.  
London has a new dance called the C. I. V. The couples are arranged as in other quadrilles, but the music rattles right through the dance without a pause, embracing the most popular movements used in ordinary quadrilles and some new ones.  
There are 1,100 Chinese pupils in Queens college, Hongkong, varying in age from 9 up to 23, and many of them have family cares in the shape of a wife and children at home. Each year sees a decrease in the proportion of married schoolboys, and the average age becomes less every year.  
Tuberculosis has been placed among the diseases which are subject to quarantine. The commissioner of immigration has so decided in the case of a Japanese who arrived at San Francisco from Japan ill with this lung trouble. It was decided that the patient could not land, but must return to the port from which he sailed.  
A frequent difficulty encountered by postal authorities in Australia is the cheap and expeditious delivery of mails to outlying localities. Many of these places are hundreds of miles from the nearest railway line, and the route is apt to be through drought stricken country, where the dry roads are at times impassable, even by camels. This is conspicuously the case in tropical Queensland.  
**All the Year Round.**  
POPULARITY GAUGED BY NO PARTICULAR SEASON.  
The fact is now established that the most successful railway route, whether you take it in the spring, summer, autumn or winter, is the Rio Grande Western Railway, the only transcontinental line passing directly through Salt Lake City, that quaint and picturesque city on the shores of America's Dead Sea. The climate of Utah and Colorado is temperate the year round, which makes traveling over the Rio Grande Western Railway, in connection with either the Denver & Rio Grande or Colorado Midland railroads, an unbounded success and delight. The dining car service is unparalleled. The road operates only the newest Pullman Palace and ordinary sleeping car equipments, as well as free reclining chair cars. For illustrated matter apply or write to J. D. Mansfield, 253 Washington St., Portland, or Geo. W. Helntz, acting general passenger agent Salt Lake City.
