MINING NEWS. The News of March 16th says there is on exhibition at Gold Hill a large piece of ore weighing 53 1/2 pounds that is full of gold. This is the largest and finest specimen ever seen in this country. It was brought to town by Graham & Summers, who have been prospecting and working on Blackwell hill for several months past. On Monday night at a depth of twelve feet Mr. Summers ran into the pay chute, which is about three feet wide. A correspondent of THE TIMES writes: "Messrs. Swinden and Kubil recently picked up a nugget in their placer mines in Mission Flat district which is worth from \$100 to \$200. As these diggings, which the firm recently purchased from the Custars, has a record for big pieces, we predict that even larger ones than those already noted will be found." The Southern Oregon Oil Co., which was organized a short time ago by some of the enterprising citizens of Ashland, is meeting with success in the disposal of its shares. It has leased nearly 10,000 acres of land, principally north and south of that city, and will begin boring in a short time. The indications for the discovery of oil in paying quantities are pronounced good by parties who are well posted and have had more or less experience in such matters. PROBATE COURT. Estate of E. F. THE WAR IN CHINA. An order has been sent to Gen. Chaffee for evacuation of China by American troops, leaving only a legion guard of 150 men. The troops will be removed from China the last of April. The dispute between Russia and Great Britain in regard to concessions of territory in Tien Tsin will be amicably settled. Both powers will withdraw their soldiers. Manchuria is now considered the danger point of the Oriental situation. The Powers have entered a joint protest against Russian military occupation of any Manchurian territory. The health of Li Hung Chang is again a matter of grave consideration to the ministers of the Powers. Mr. Rockhill, the American special commissioner, who visited Earl Li on the 17th, says he is a physical wreck and apparently in a state of utter collapse, although mentally as bright as ever. Mr. Rockhill would not be surprised to hear of his death any moment. The removal of Li Hung Chang by death or any other cause at the present moment would be very unfortunate. A dispatch to The New York Herald from Tien Tsin says: The Russian general, Wogack, has declined a compromise suggested by Count von Waldersleben. The tension here is increasing, and a conflict may be expected at any moment. The troops of all nations are under arms. The situation at the railway station remains the same, although the temper of the hostile troops is, if possible, more disquieting than before. French troops are taking part in the trouble, despite the efforts of their officers to maintain a neutral attitude. Many groups of French ran through the British settlements, shouting "Down with the English," and a number of fights took place, several ending in bloodshed, as the French always carry sidearms. Finally three French soldiers attacked Capt. Bogier of the British army, and pulled him out of his rickshaw. The Captain defended himself with his fists, until a number of sikhs came to his rescue. Gen. Campbell then turned out all troops, drove the French out and set pickets around the settlement, with orders to admit no French soldiers. REAL ESTATE TRANSFERS. LOCAL NOTES.

A Dastardly Trick. The northbound train, when nearing Talent last Saturday evening, was stoned by several hoodlums standing alongside the track. One of the rocks broke a window in the day coach, while another struck a small boy, named Noah Davis, on the cheek, inflicting a painful wound. It happened that Mr. Crowley, chief detective of the S. P. Co., was aboard at the time, and he gave chase to the offenders. They were identified and arrested, and brought before Justice Stewart of Medford the next day, who held one of them, named Copeland, to answer at the next term of circuit court. The balance swore for each other so cleverly that not enough incriminating evidence could be obtained to hold them. This is not the first time that such acts of hoodlumism have been perpetrated, and they should be discouraged before serious consequences occur. Fine Chickens for Sale. A few pure-blooded White Plymouth roosters, young and large, can be obtained at a reasonable figure by applying at THE TIMES office soon. Still More Counterfeiting.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.
