A letter received at Albany, dated at Dawson city, March 30th, states that the body of Chas. W. Watts did not leave a cent.

"I have been suffering from Dyspepsia for twenty years, and have been unable after trying all preparations and physicians to get any relief. After taking one bottle of Kodol Dyspepsia Cure I found relief and am now in better health than I have been for twenty years. I cannot praise Kodol Dyspepsia Cure too highly." Thus writes Mrs. C. W. Roberts, North Creek, Ark. City Drug Store, Jacksonville; Dr. J. Hinkie, Central Point.

What sheep will do in the way of yielding profitable returns as an investment has been incidentally demonstrated in a small way by Cal. Yates. Last week he sheared thirty yearling wethers thus early in order to turn them off for mutton. They yielded an average of 12 pounds of wool per head. It brings 12 cts. per pound, the clip will make an average of \$1.50 per head. They have been sold to the butcher since shearing at \$3.55 per hundred, and their average weight will be 120 pounds, or \$3.90 per head, making a total yield of \$4.60. They were Cotswolds and Merinos, and have been kept for sometime on fall wheat. —[Corvallis Times.

## One Man Saved

From a wreck will attract the world's attention to the life-saver. Yet let the life-saving be continued every day, and very soon it attracts no public attention. If the scene of the saving of one life by that life-saving remedy, Dr. Pierce's Golden Medical Discovery, could be made to stand out as a picture on a screen, it would attract the notice of the whole nation. By a curious contradiction the very frequently "Discovered" says life, for the sake of general interest. For obstinate coughs, bronchitis, weak lungs, and other diseases of the respiratory organs, "Golden Medical Discovery" is the one medicine which offers certain help, and almost certain cure. It contains neither alcohol nor narcotics.  
"I had a cough that would not stop," writes Mr. J. W. Ray of Ashland, Oregon. "I had a cough that would not stop and was compelled to give up work. I attended my lungs so that I coughed all the time, day and night. My friends all thought I had consumption. My wife induced me on my trying Pierce's Golden Medical Discovery. I have taken four bottles and am now a well man, weighing 150 pounds—thanks to Dr. Pierce."

## THE LATE COL. WM. J. MARTIN.

Col. Wm. J. Martin, who died at Glendale, April 25, 1901, was born in Knox county, Kentucky, February 2, 1814. He was, therefore, at the time of death, 87 years, 2 months and 23 days old. He was raised on a farm until he was 15 years old, when with the consent of his parents he left home to make his living in his own way. In 1832 he went to the Yellowstone park with Indian Agent Bean and wintered there. He returned and served through the Black Hawk war. Later he went trapping and hunting to the Black Hills, and passed through the "Bad Lands." Returned in 1834 and went to Fort Leavenworth. Went to the Yellowstone park again in 1835. Returned the same year to Big Little Horn and trapped. Returning to Fort Leavenworth, where the Indians had killed some settlers, he was elected captain of a company to chastise them, and soon settled the trouble by securing the delivery of the murderers. He fought through the Florida war of 1837, and was wounded five times; but none of the wounds were serious. Returned home after the war and assisted his father in building a flouring mill and learned the trade of a miller. Aug. 9, 1839, he married Harriet Croberger. In April, 1843, he started for Oregon in company with Capt. Gant. When the expedition all got together west of the Missouri river, in what is now Kansas, there were 177 wagons and something more than 1000 men. Col. Nesmith, Peter H. Burnett, Jesse, Lindsey and Charles Applegate, and many other prominent persons were with the expedition. It started from Westport, and Capt. Gant, Col. Martin and eleven others left the company at Fort Boise and came in through Harney valley, arriving at Sutter's Fort, called then New Helvetia, Nov. 12, 1843. In March, 1844, Capt. John C. Fremont, with his company, arrived at the fort. He had lost and consumed the most of his outfit, and bought 114 mules and all necessary supplies and started back March 22d, a short time after his arrival. Col. Martin accompanied the party on its return and all reached Westport the last of July. The Colonel was not employed by the company, but his services were considered so valuable that Capt. Fremont gave him a check for \$185.

Upon his return the Colonel went home and prepared to remove with his family to Oregon, which he did in 1846, settling in Yamhill county, on a route from the coast, under Col. Lovell. He delivered the beef in accordance with the contract, but upon his return found Lieut. Hawkins insane, never recovering sufficiently to get from the coast, assisted largely in the development and pacification of the country, and assisted in organizing the first Mason lodge in the state, as well as being a member of the first grand lodge.

Mr. Martin was gifted with a rare intellectual endowment, and though with scarcely the rudiments of an education, he was, nevertheless, a man of extended information, a forcible and fluent talker, and singularly pleasant and agreeable. It is hardly probable that anyone living has had a wider pioneer experience, or a more checked and eventful career. He was a man of frank and genial disposition, and had the confidence of all who knew him. He leaves two sons and two daughters living, his wife having died some twenty odd years ago.

## MINING NEWS.

Notices for the location of placer and quartz mines, etc., for sale at THE TIMES office.

Miners' liens, deeds to mines, water right locations and other mining blanks always on hand at THE TIMES office.

The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office.

The mines situated in Steamboat district, which Shearer Bros. sold to Illinois parties, is being operated on a larger scale than ever, a big giant having been added.

I. W. Ray and Ralph Bacon, two energetic young miners, are developing a proposition located between Gold Hill and Sam's valley that promises well. They have a well-defined ledge that carries ore of good quality.

The steamer Amur brings news of the Klondike clean-up, which is being vigorously prosecuted. Sticking is in full operation, the thaw having given plenty of water. The output is estimated at 25 millions. Experts say it will reach 30 millions.

Four important strikes are reported in the Bohemia district this week. Graber Brothers and Zinaker, in their 350-foot level, struck another rich lead, which is two inches wide and liberally lined with gold. Harlow & Stocks, who struck it so rich last fall, have tapped the same vein 50 feet deeper, and it is as rich as found above. Sars & Whipple, who have been driving a crosscut tunnel, have tapped the leader at a depth of 150 feet. The vein is 4 feet wide and prospects free gold. A Mr. Brund, who has been developing his property for the past year, is reported to have made a rich strike, showing free gold in crystal quartz.

Thos. P. Robb, the expert who was sent to Ashland from Bakersfield, Calif., to investigate the lands bonded by the southern Oregon Oil Co., after a careful examination, made a favorable report, to wit: "The indications of oil around Ashland are as favorable as the Kern River field, and superior to the oil fields of Sunset and McKittick. Lack of time prevents me from making further investigation at present. But I am very sanguine that the anti-clines found here indicate oil in quantities." The Tidings says that the company has decided to take steps at once to secure a Standard Drill and derrick—probably by purchase—and have the plant brought to Ashland as soon as possible. Negotiations with Los Angeles representatives of eastern firms have been begun, and the machinery, when ordered, will be of modern and tried character.

## May Day Ball.

There will be a dancing party at Rose's Hall on Applegate Friday night, May 3d. The best of music and supper will be provided. Tickets, including horse feed, \$2. Every body is invited to attend.

## EDITORIAL ENDORSEMENT.

The following is from the editor of the "Gold Hill News," and goes far to substantiate the remarkable cure of deafness performed by Dr. Darrin, now located at the Hotel Oregon. Mr. Cary's card was published last week, and has created great excitement among the deaf and afflicted in Ashland. Mr. Cary's cure was witnessed by Mayor Neil of Ashland.

### He Can Hear a Whisper.

(Gold Hill News.)  
One of our friends and subscribers, Mr. C. Carey of Sam's Valley, has been losing his hearing for about a year. He visited the "News" office a few months ago and the subject of treatment for his malady came up, when we recommended Mr. Carey to wait for Dr. Darrin's visit to southern Oregon. Last week Mr. Carey visited the doctor at Ashland and was so much benefited that before leaving the doctor he could hear a whisper. Such cures are wonderful; yet this one is undoubtedly true. Mr. Carey said he had taken treatment from a number of physicians and spent all he had in paying doctor bills, and so informed Dr. Darrin, who kindly consented to treat him free of charge, which was magnanimous in the doctor.

### A Happy Man.

The following is an extract of a card from Mr. Austin of Portland, Or., telling how his wife was cured of total blindness:

"I wish to make known what Dr. Darrin has done for my family. Eight years ago my wife was totally blind, from what doctors call 'nervous abhorrence of sight.' In that condition she visited him and was cured, so she could see as well as ever in her life. I know of hundreds who have been miraculously cured. I am employed on the O., R. & N. railroad and can be referred to at any time. I most earnestly recommend the afflicted, from whatever cause, to consult Dr. Darrin.

W. H. 'STUB' AUSTIN."
