#### In The Summer.

Of life a woman may find herself fading and failing. She doesn't understand it. She goes to doctors, who treat her for this or for that, but she gets no better. She grows frail and pale. She can just "drag about the house," but has no pleasure in life. Many such women have taken advantage of Dr. Pierce's *Favorite Prescription* by letter, and have been restored by Dr. Pierce's treatment to perfect health. There is no more wonderful medicine for women than Dr. Pierce's *Favorite Prescription*. Its action upon the womanly organs is at once apparent in the decrease of pain and the increase of strength. It cures female weakness and such diseases as take away the strength and beauty of women. Sick women are invited to consult Dr. Pierce by letter free. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Before I commenced to use your medicine I was in a bad condition (for eight years) and four doctors treated me," writes Mrs. Bettie G. Garsberg, Northampton Co., N. C. "They, of course, gave me at the time some relief, but it did not last long. I was some days in my bed and some days I dragged about the house. I have used five bottles of Dr. Pierce's *Favorite Prescription* and five of the 'Golden Medical Discovery,' and four vials of the 'Pellels.' Now I feel like a new woman, and I want the world to know it."

The action of the "Favorite Prescription" is assisted by the use of "Pleasant Pellets" when the bowels are irregular.

#### MINING NEWS.

Notices for the location of placer and quartz mines, etc., up-to-date and complete, for sale at THE TIMES office.

The Southern Oregon Oil company set their boring plant into operation last Friday on the old Alford place, situated near Talent.

Work has been commenced at Dalley & Bour's mine on Josephine creek, near Kerby. A flume and water wheel are under construction. It is valuable property.

The Old Channel Mining Co. has deeded its entire property to J. E. Harvey and C. B. Beardsley, who have been operating it under bond for about a year. The consideration was \$90,000. The Alexander & Bent mines, situated in Galice creek district, are included in the sale.

The Jilson and La Flesh mines, situated near Hornbrook, Calif., are being operated by a small force, the pay chute in each having pinched out. The former yielded an immense amount of gold during the past several years; and the impression that its glory has departed forever seems to be general.

E. L. Cooper of the Blue Ledge Mining Co. came in from their mine on Jackson creek, a tributary of the Applegate, above Watkins, Thursday. He brought in a box of as fine specimens of ledge matter as one cares to see. On an average the rock runs \$39 in gold to the ton and about 33 per cent. in copper. They have run a tunnel measuring 108 feet, about 85 feet being in solid ore. They are now starting to run a crosscut to ascertain the width of the ledge. Mr. Cooper came up from Crescent city, Calif., where he has an abstract office, about ten days ago. He left for home Thursday.

#### Seven Years in Bed.

"Will wonders ever cease?" inquire the friends of Mrs. L. Pease of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and nervous debility; but "three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c.

#### Ashland Boy Mangled.

Another tragic object lesson of the foolishness and danger of playing around moving cars was given to the boys of this community about midnight Saturday, June 23d. Dennis McMahon, a youth of about 18 years of age, received injuries which may result fatally. In company with a number of companions he was at the depot awaiting the arrival of the delayed No. 16. No. 11 was about due and Yardmaster J. A. Norman was engaged in making up the north-bound train and in clearing the main track for the south-bound overland. Not over ten minutes before the accident happened he had warned a group of boys, of which McMahon was a member, to keep off the cars. Engineer Mellus in charge of the switch engine backed down towards the water tank, and after the passage of the engine the boy was discovered near the track moaning piteously. It is supposed that he attempted to mount the foot board in the rear of the tender and missed his footing when the engine passed over his body. The wheels had crushed his right hand, which was amputated about three inches above the wrist, and the footboard and breakbeams had scraped his entire body. The tibia or outer bone of his right leg was fractured above the ankle joint; the walls of his chest and the lung on the left side were crushed. He was taken to the home of his sister, Mrs. Geo. Bush, and Dr. Parson, the company's surgeon, was summoned. This is the second accident within a month of a similar character.

#### PRIVATE WORDS FOR WOMEN.

The eminent and successful electro-magnetic physician, Dr. Darrin, has discovered and perfected a system of treatment that has caused a revolution in the treatment of female diseases. Whenever his treatment is tested and known it has done away with excessive dosing, nauseous drugs and painful surgical operations, whereby so many precious lives have been lost.

As a discovery it ranks with Harvey's discovery of the circulation of blood. It has proved in more than a thousand cases of the worst kind to be a positive cure for the following female diseases:

Ovarian tumors, polypos ulceration and dropsy of the womb, inflammation, congestion and falling of the womb, painful and suppressed menstruation, bearing down pains, backache, headache, hacking cough, melancholy, absence of ambition or desire to live, or in fact any complaint having its origin in a disordered state of the generative and accompanying organs, whether from contagious diseases, hereditary, tight lacing or other causes.

His method of treatment is harmless, pleasant and mild. It is applied directly to the parts; can be applied by the patients themselves, thus securing local treatment at home, and its application is easy and simple. Its curative action on the inflamed, congested and ulcerated parts is immediate.

Dr. Darrin refrains from making public the names of hundreds of ladies who have been restored to health with due deference to the delicacy of their afflictions.

The doctor can be consulted free at Hotel Nash, Medford, until July 28th only. Hours 10 to 5 and 7 to 8 daily. The poor free, except medicine. The cure of cross eyes, tumors, lost manhood, varicocele, hydrocele, blood taints and stricture a specialty, as well as all chronic diseases. Batteries and belts furnished if necessary. Eyes tested and glasses fitted.
