New York City's gain in population in the last ten years exceeded that of London by 640,894. At this rate the American city will take the lead by the year 1920. If New York could take in the suburbs on the Jersey side of the Hudson, it would be ahead of London now.

Secretary Wilson is very proud of the success of the Department of Agriculture improving the quality of American tobacco, and predicts that in a year or two we will grow all the tobacco used by us except a small quantity of fine cigar filler which cannot be grown outside of the tropics.

Several thousand persons gathered in Independence Square, Philadelphia, July 4, to hear Wu Ting Fang, the Chinese minister. Wu was orator of the day at the municipal celebration, and the friendly reception given the guest allayed all fears for his safety, based on the fact that he had received an anonymous letter threatening him with bodily harm.

A. B. Hammond of the Astoria & Columbia river railroad has returned to Oregon from San Francisco. He was instrumental in forming a lumber trust known as the Hammond Lumber Co. Its capital will be between \$15,000,000 and \$20,000,000, and the magnitude of the company may be realized from the fact that it practically controls the great redwood counties of California, and also a large portion of the cedar districts in southern Oregon. Mr. Hammond in person "has the say" of some 30,000 acres of land in Humboldt county and thereabouts, and close friends of his in Minnesota are credited with 30,000 acres more.

#### REV. DR. DOANE.

REV. M. DOANE, D. D., DEAN OF THE THEOLOGICAL SCHOOL OF THE PORTLAND UNIVERSITY, CELEBRATED HIS GOLDEN WEDDING LAST SEPTEMBER.

He has been at the head of the Methodist church in the northwest for over forty years. He had a double reason to be congratulated on this occasion, as he was totally deaf for years, and in spite of his advanced age his hearing was restored two years ago by Dr. Darrin. No one will attempt to question the reverend gentleman's word, as his unblemished character is well known. He tells his story below in his own words:

REV. DR. DOANE'S CARD.  
UNIVERSITY PARK, Portland, Ore., April 26, 1899.

To whom it may concern and encourage, to friends who suffered like myself, the loss of hearing. On April 24th I called on Dr. Darrin, whom I had believed to be a skillful artist and physician, to restore my hearing. He applied his remedies and electricity to one ear and cured the deafness in a few minutes. Then he turned his attention to the other ear, which did not seem to yield so readily. For this ear the Doctor gave me medicines to use at home, which I am now using. I think it the duty of all who are afflicted to have their hearing restored if possible, and I know no one whom I think more skilled than Dr. Darrin.

NEHEMIAH DOANE.  
WHAT FURTHER TREATMENT DID FOR REV. DR. DOANE.

TO THE EDITOR:—Two weeks ago I said something of regaining my hearing under the treatment of Dr. Darrin, of which I have suffered for several years. On the first application the deafness of one ear was remedied. The difficulty with the other was more serious. I applied the medicine faithfully, and went again to the doctor, who succeeded entirely in restoring the lost sense of hearing, so that when I went out upon Third St., Portland, it seemed to be the noisiest city I was ever in. My hearing still remains distinct, in both ears equally good.

NEHEMIAH DOANE.  
Scores of others might be mentioned if patients would allow their names to appear in print. Dr. Darrin can be consulted free at Hotel Nash, Medford, until July 28th. Hours, 10 A. M. to 8 P. M. daily. All chronic, acute and private diseases treated with medicines and electricity at \$5 a week, or in that proportion of time the case may require.

#### Try Grain-O! Try Grain-O!

Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. At the price of coffee, 15c and 25c, per package. Sold by all grocers.

#### Origin of "Whig."

Several reasons have been assigned to account for the word "Whig," universally known to all the English speaking people. By some the word is supposed to be a contraction of a longer one, "whiggamore," which in some parts of England and Scotland, especially Scotland, signifies a drover or herder.

It was in 1679 that the word first became common in the British Isles, when the struggle was in progress between the peasantry and the aristocracy to have or not to have the bill passed by parliament to exclude the Duke of York from the line of succession. All who were opposed to placing the duke in the line of succession were derisively called "whiggamores," or "drovers," just as the city dude of today speaks of the "grangers," the "grays," the "chin whiskers" and the "haysenders."

But Scotch tradition gives altogether a different reason for the existence of the word. It is this: During the early religious wars in Scotland the weakest of the factions used the words "We Hope In God" as a motto. The initials of these words were placed on their banners thus, "W. H. I. G." and soon all the followers of that clan were given the title of "Whig," which was afterward attached as a party nickname.

#### The Great Health Resort.

The Rybee Springs on Evans creek are coming to be recognized as one of the best health and pleasure resorts of southern Oregon. A new and commodious hotel was built during the past year and accommodations for visitors are now first-class. If you are contemplating a visit to some mineral springs health resort why not try the Rybee Springs this year where so many others have found both health and pleasure. The following people have been stopping at this delightful resort already this spring:

#### The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States, and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery, and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions, and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I use other remedies." Mr. Kelly is a well-known citizen of Henderson, N. C. For sale by City Drug Store.

#### Support of Physicians.

Each physician in the United States has 655 persons to look to for his support, for 1 to 655 is the proportion, according to the latest governmental statistics. California stands at the bottom—or top, depending on the view—of the list, for there are only 416 actual and prospective patients for each M. D., while in Alaska 2,349 persons have to depend on or take chances with one doctor. New York is near the average, with 603 persons for each physician to look after, and Pennsylvania comes nearer the average than any other state, with 602. Lying partially between these great states comes New Jersey, where the number of medical practitioners falls off until one has to care for 856 persons.

#### Marvels of the Arc Light.

The arc light, the most brilliant of artificial lights, followed as a natural result of the generation of electricity by the dynamo, and each light absorbs nearly one horsepower. There are more than 30,000 arc lamps burning at night in Greater New York, and fully 42 tons of coal every hour are consumed. One horsepower can furnish current enough to keep about 12 incandescent electric lamps lighted, and in Greater New York there are now in use over 1,000,000 of these lamps. The total power required for the electric lighting of this great city is certainly not less than 200,000 horsepower, or more than the combined power equipments of all the ships of the United States navy.—Leslie's Weekly.

#### Peaceful Mission For Cannon Balls.

The authorities at one of the British naval arsenals were rather surprised recently by an inquiry as to whether they had any old cannon balls for sale, 14 and 28 pounders, such as Nelson used at Trafalgar. It turned out that they were required by the owner of a Welsh slate quarry. When a large slab of stone has to be detached, a slit is opened behind it and small cannon balls dropped in. The workmen then "joggle" the partly loosened block to and fro with their crowbars, and at every movement the cannon balls drop deeper. Very soon larger balls can be inserted, and then the whole block falls forward completely severed.—Cardiff Western Mail.
