SENATOR JONES of Nevada advises the country to keep an eye on Mayor Tom Johnson of Cleveland. It is doing it.

FIND out Hanna's and McKinley's favorite for the Republican presidential nomination in 1904, and you will be in striking distance of the candidate.

MR. BALFOUR on Monday stated before the British parliament that no more appropriations for the Boer war will be asked, as the same is nearing an end. Reports from South Africa seem to be of a different tenor, however. We have heard just such remarks as Balfour makes hundreds of times already.

B. GOLDSMITH, the capitalist and politician, died July 23d, aged 69 years. He was formerly mayor of Portland, and served for several years as chairman of the Democratic state central committee. He did much to give Oregon the administrations of Gov. Penoyer, the best the state ever had. Mr. G. was interested in Rogue river valley in early days.

"The End of the Deal" is the title of an unusually good business serial story which is to begin in an early number of The Saturday Evening Post of Philadelphia. A famous transaction of the Chicago Board of Trade is the basis upon which the author, Mr. Will Payne, has founded this striking romance of the wheat pit. A charming love story runs through the stern and stirring plot.

THE TIMES was not mistaken when it said that Wm. J. Bryan was a genuine Democrat and would not sanction a bolt from the decision of the late Ohio convention. G. A. Groot, a prominent Democrat of Cleveland, wrote him in regard thereto, and Mr. Bryan emphatically set his seal of disapproval upon any movement calculated to injure the Democratic ticket. In no uncertain language he informed the bolters that they can expect no sympathy from him.

FAKE PUBLICATIONS which have heretofore enjoyed second-class mail rates of two cents a pound, the same as legitimate newspapers, must hereafter pay the maximum postage for printed matter, or eight cents a pound. An explanatory statement given out at the postoffice department regarding this order says: "The action of Postmaster-General Smith is regarded as highly important. It is believed that when the effect of these changes is thoroughly established many postal improvements will follow and 1-cent letter postage will be made possible."

THE labor organizations are trying to make the Administration show its hand on the question of re-enactment of the Chinese exclusion law, which will expire next May. Mr. McKinley is suspected of not wishing the law re-enacted. The Republican managers, excepting those living on the Pacific coast, have always been in favor of allowing the immigration of both Chinese and Japanese to America. For political reasons only did they allow the present exclusion law (which is very loosely drawn and not severe enough in its requirements) to get on the statute books at all.

THE Southern Pacific Co. has 829 locomotives on its Pacific system, and 103 new ones will be added to that number shortly. Of these about 100 now use petroleum for fuel, about twenty barrels per day each, and all will soon be equipped for burning oil. The petroleum product of California as developed at present will hardly supply the demand for the Southern Pacific alone, and it will be necessary to draw upon the Texas supply unless the output of the state first named is increased largely. While the price of oil seems to be too low for profitable production at present, the uses for it are being extended; and after a while the supply will not be equal to the demand. The Standard Oil Co. is doing much against the native product.

LOAN COMPANIES which violate the usury laws have received two severe blows from the Oregon supreme court this year. The second was administered last week, when Justice Wolverton characterized the scheme of the Home Building & Loan Company as "radically wrong in morals as well as in law." His opinion in the case at issue also said that "the promoters of the company were perhaps fully conversant with the result that would follow the adoption of such a scheme; but we may safely assume that a great majority of the stockholders and borrowers of the company had no conception of its vicious character." Loan companies have been exacting usurious interest in this state for years under the apparent protection of the state law regarding building and loan societies; but under the decisions of the supreme court no borrower from such a company need submit to the unlawful exaction.

HERB AND THERE.

Mason fruit jars, extra caps and rubbers, for sale at Nunan's.

Crops are unusually large and of good quality in the Willamette valley.

There is cash to the amount of \$1,004,938.71 in the Oregon state treasury.

A fine assortment of up-to-date visiting cards can always be found at The Times office.

The strike situation remains about the same. Possibly the strikers are weakening a little; but we hope not.

Stationery, notions, smokers' articles, etc., also a fresh line of lunch goods, at Joe Wetterer's.

Five cases of yellow fever, all Spaniards, are reported twelve miles from Havana. This causes considerable anxiety.

More than a thousand teamsters are on a strike in San Francisco, and little hauling is being done for wholesale merchants.

Recent news from the Transvaal justifies President Kruger's refusal to consider any terms of peace that do not provide for Boer independence.

The wife of President Kruger of Transvaal died of pneumonia at Pretoria a few days ago. She was 65 years of age and the mother of 15 children.

The terrible heat has exhausted the lemon supply in the East, and prices increased rapidly. It seems that people are nearly compelled to have lemons.

Deeds, mortgages, leases, bonds, bills of sale and every imaginable kind of legal blanks—the latest and best—are constantly on hand at THE TIMES office.

Emmet Egan, son of James Egan, was shot and killed Saturday morning by Andy Lytle near Hay creek, Crook county. Lytle gave himself up to the sheriff.

Gen. Delarey, the Boer commander, believes that there is no hope of European intervention and that the Boers must fight to the bitter end independently of all.

The total membership of the A. O. U. W. in Oregon is now 9667, the number of 1470 having been initiated during the past year. The number of lodges is also increasing.

The Morgan-Harriman western railroad trust will be the biggest thing of its kind, with 52,592 miles of railway; but nobody has dared to predict that it is going to be a good thing for its patrons, the people.

Those famous little pills, DeWitt's Little Early Risers, compel your liver and bowels to do their duty, thus giving you pure, rich blood to recuperate your body. Are easy to take. Never gripe. City Drug Store Jacksonville and Dr. J. Hinkle Central Point.

Chas. Cecil Fitzmorris, who represented the Chicago American in the race around the world, beat the record and also the representatives of the two other Hearst newspapers, making the trip in a little more than 90 days, and covering about 21,000 miles. The supreme tent of Knights of the Maccabees has decided that all old members must be re-rated on the same plan as new members at the age at which they joined the organization. This was done to have other members bear an equitable proportion of the expense of carrying them.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble following a gripe. I took One Minute Cough Cure and recovered my health." E. H. Wise, Madison, Ga. City Drug Store Jacksonville and Dr. J. Hinkle Central Point.

The run of salmon in the Columbia this month is the largest since the great season of 1896. Big catches are reported by every boat, and canneries and cold-storage plants are crowded to their fullest capacity. Prices still remain at 6 to 7 cents per pound. At these rates the fishermen are making pocketfuls of gold.

The long-expected story by Ralph Connor, author of "Black Rock" and "The Sky Pilot," begins in the July Magazine number of The Outlook. The first two chapters of "The Man from Glenarry" contain an exciting account of the lumbermen in the North American woods, and give promise of the vivid narrative to follow in the successive numbers of The Outlook. (\$3 a year. The Outlook Company, 287 Fourth Avenue, New York.)

The weather that has been prevailing east of the Rockies during the past month has been record-breaking; in fact it has never been approached in the severity of its heat or damage it has done. On Tuesday the thermometer registered at Columbus (Ohio) 102 degrees; Cincinnati 103; Terre Haute (Ind) 104; Indianapolis 105; Louisville 105; Omaha, 106; St. Louis 107; Decatur (Ill) 109. It is estimated that the following states will lose: Kentucky \$15,000,000; Missouri \$100,000,000; Kansas \$100,000,000; Nebraska \$75,000,000; Iowa \$16,000,000; Indiana \$13,997,388; Minnesota \$5 per cent.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured, and which is always kept at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, Journal. For sale by City Drug Store.

Long Cows.

"Jones, can you tell me how long cows should be milked?"
"The same as short ones, of course."
"How long do you have to take Ayer's Pills?"
"Only a short time; they cure quickly."

DR. DARRIN WILL REMAIN

IN MEDFORD AT HOTEL NASH UNTIL SEPTEMBER FIRST.

Medford Mail.

During the past two months Dr Darrin has made a great name among the afflicted of this vicinity. His offices have been crowded night and day and phenomenal cures have been reported. It is to be regretted that his visit in this city will so soon expire, as he will close his offices here Sept. 1st. The opportunity to consult this eminent physician should not be lost.

Dr Darrin has practiced in Paris, London, New York and Portland, and while abroad discovered certain remedies for many of the most dreaded diseases, and his treatment of them gives entire satisfaction.

Numerous testimonials have appeared in this paper during the past few weeks from those who thought they owed it to the doctor as well as hundreds of like sufferers to speak of the good work that had been done for them.

Many of these are well known to the editor, having been cured when the doctor was here before, he having spent two months in this city at that time, when we became favorably impressed with his good work.

Few doctors have had such a large practice as this physician, who is visited by scores of people everywhere he stops, and it is well to note that the doctor is not out for money alone, as is proved by numerous cases of poor people he has cured who are unable to pay for the restoration of their health. The doctor owes his great success partly to the mysterious power of electricity, in which he has become so well versed. Electricity is the wonder of the age, and the mode of treatment is the acme of perfection. It penetrates the secret ambushes of disease and exterminates it, root and branch, forever. It removes the wretched symptoms of loathsome maladies and averts their dreadful effects. It cures many of the most hopeless cases and relieves pains that every known remedy failed in, and can be substantiated by the evidence of hundreds who have been cured by Dr Darrin. We could say more which we feel is due this eminent physician, did space permit.

DEAFNESS CURED.

Mr. Editor:—For years I have heard of Dr Darrin's "Ten Minute Cures," but confess I had little faith in him or the reported cures until lately, when I mustered up faith enough to try him for almost total deafness. I had been bothered with deafness for about six years. The past few days I was quite unable to hear any conversation and was nearly run over by a team. Dr Darrin cured me with electricity so I could hear a whisper. I can never thank Dr Darrin enough, and most emphatically recommend him to all. I have lived in Tolo, Jackson county, Ore., the past three years and will gladly answer all inquiries by letter or in person.

J. P. HARR.

To the Editor:—For two years I have been troubled with a cough, bronchitis and sciatic rheumatism. I have been under Dr Darrin's treatment one month and feel no effects of cough or bronchitis, and my rheumatism is rapidly leaving me. Refer anyone to me at Gold Hill, Ore.
