Between 7000 and 8000 bushels of wheat, which sold from 25 to 45 cents a bushel, were saved from the fire which destroyed the Cox & Perry warehouse. It is not likely that the building will be put up this season.

The Same Old Story. J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States, and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery, and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions, and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I use other remedies." Mr. Kelly is a well-known citizen of Henderson, N. C. For sale by City Drug Store.

Fish Warden Van Dusen and District Attorney Reames were at the dam maintained on Applegate by Robinson Bros., Mrs. Sneehan and others a few days ago, and gave instructions for the building of a fish way. Few salmon or salmon trout ever get above the dam, which caused complaint to be made. The Grant's Pass W., L. & P. Co. will do likewise.

Our citizens are considerably agitated because the government proposes to make a reservation of about two-fifths of the western part of the county, which includes the greater portion of the district embracing lower Rogue river, Galice creek, Illinois river, Josephine, Briggs and Silver creeks. Such a proceeding might militate much against the development of the mines in that territory.
