#### BRIEF MENTION.

Over 8,000,000 persons in Germany are insured against illness.

Bananas, oranges and lemons can always be found at Wetterer's.

A girl weighing only three pounds was born in Clem, Gilliam county, but died soon afterwards.

The recent British census shows that there are only 89 men for every 100 women in that country.

Joe Wetterer makes a specialty of light drinks, fresh candies, nuts, tropical and other fruits, etc.

Notes, receipts, drafts, due-bills, etc., in book form, can always be obtained at THE TIMES Printing House.

The Booth-Kelly Lumber Company will have 20 five-room cottages built for its employes at Wendling, Lane county.

Some Gilliam county cattle were dying of a disease thought to be black-leg; but veterinary diagnosis proved it to be caused by eating rusty grass.

A French writer states that of every 100,000 men of the army or naval profession 199 become hopeless lunatics. Among mechanics the number is only 66 per 100,000.

Chamberlain's Colic, Cholera and Diarrhoea Remedy has a world-wide reputation for its cures. It never fails, and is pleasant and safe to take. For sale by City Drug Store.

The celebrated Snap Shot, the best medicine in the world for allaying inflammation in man or beast, can be found at Dr. Robinson's drug store, also at Dr. Hinkle's, Central Point. Try it.

F. C. Reed, commissioner under the fishery law as it existed prior to the session of the last legislature, has appealed to the supreme court. Judge Boise decided that Reed was lawfully legislated out of office, and was therefore not entitled to his salary after the new fishery law took effect.

Nails and tacks are now made from an aluminum alloy that does not corrode or deteriorate in the atmosphere. They are desirable as a substitute for copper nails and tacks on roofs and tank fastenings. Taking difference of weight into account they are about four cents a pound cheaper than copper nails and tacks.

We may yet see the day when steamers from the great lakes go through the Chicago drainage canal to the Mississippi river, down that stream and through the Nicaragua canal to China. All the great Mississippi valley can reach the Orient in this way. Do you wonder that the transcontinental railroads are fighting the canal by fair means and foul.

Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia Cure permanently and completely removes this complaint. It relieves permanently because it allows the tired stomach perfect rest. Dieting won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia Cure, which digests what you eat, and can't help but do you good. City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

It is announced that Aguinaldo is considerably irritated at his continued surveillance by the American authorities. Whenever he signs his name he must add the word "prisoner." He has refused the request to write to the insurgent general Malvar, still at large in southern Luzon, advising him to surrender. He consented to sign a copy of his oath of allegiance, with the understanding that it be forwarded to Malvar for the purpose of influencing his surrender; but under his signature to the oath he wrote "Prisoner in Malacanan Prison."

#### MINING NEWS.

Miners' liens, deeds to mines, water right locations and other mining blanks always on hand at THE TIMES office.

Notices for the location of placer and quartz mines, etc., up-to-date and complete, for sale at THE TIMES office.

W. S. Bailey has sold his interest in the Mountain Lion mine, situated in Missouri Flat district, to L. L. Jewell.

Wm. Broad and H. Leighton, two experienced and skillful miners, are developing the Hatch mine, located in Jackson creek district.

The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office.

Mattern, Reynolds & Bennett, who are developing the Wabana mine, situated in Siskiyou county, Calif., have struck a 3-foot ledge which goes 840 to the ton.

W. R. Glasgow of Osgood, Ind., who has been interested in the mineral resources of southern Oregon, is in this section again. He is a relative of Shook Bros.

An English company, represented by Wm. Bailey of Palmer creek, has bonded a considerable portion of Missouri Flat, with the intention of inaugurating a big placer proposition.

Geo. L. Davis, John B. Dent and Edward Bebler have filed articles incorporating the Rogue River Quick-silver Mining Co., which will operate in mining enterprises of different kinds, including boring for oil. Its capital stock is \$250,000 and place of business Medford.

J. H. Simon, Dr. Flanagan and Mr. Williams are interested in a proposition to uncover an ancient channel in Kane's creek district, that runs from Paddy Hill through E. E. Miner's place. The prospects are favorable, as a pay streak of considerable dimensions, that is rich in coarse and fine gold, has been struck.

The Tidings says that the Southern Oregon Oil Co. struck a bed of quick-sand at a depth of 155 feet last week, which is regarded by the experienced drillers at work as a very favorable indication for oil. Quicksand has been invariably encountered, it is said, in all the California wells which are now producing the greasy liquid.

There is a probability that one of the wonderful Electric Ore Finders, which was invented by Brown of Chicago and sold to Gail Borden of condensed milk fame for a large sum, will be operated in Ashland district in the near future. C. L. Myers, who has one at work in British Columbia, writes to J. L. Mahan that he will be in this section with it in September.

#### Excursion Rates.

A special round trip rate of \$2.50 from Albany to Berry, Niagara and Detroit, has been put in effect on the Corvallis & Eastern railroad for hunting or fishing parties. Tickets good on Saturdays and returning Mondays, giving three days in the mountains of good sport and recreation. Good hotel accommodations at those points at reasonable rates. Tickets for sale at the ticket office without special order. Also a rate of \$2.50 from Albany to Newport, Yaquina and points this side, good going Saturday and returning Monday, giving a three-days outing at the coast along the line for hunting or fishing parties. Ample hotel accommodation at Elk City, Toledo, Yaquina and Newport. Season excursion tickets to Newport of \$4. and Yaquina of \$3.50 are on sale good to return until October 10th. For full particulars apply to John Turner, agent, or Edwin Stone manager.

Owing to the ravages of the peronospora, the larva of a small moth, in the wine growing provinces of Greece, great distress exists, in some districts the people being absolutely starving. Whole families are leaving their homes, most of them migrating to America, 2,000 people having left lately.

In order to obviate the frequent disputes as to the ages of children the steamboat authorities in Switzerland have decided that in every case where doubt arises the child must be measured. All children under two feet are to have free passage, while those between two feet and four feet are to pay half fares.

The dressing of the hair is the most important part of a Chinese woman's toilet. The district she comes from may always be known from the manner in which she does her hair. It also indicates her status in life. Young girls, whether married or single, wear queues, coiling up their hair, as their western sisters do, on attaining a certain age.

For military and naval purposes the nations of Europe spend annually \$750,000,000. They keep under arms continually more than 3,000,000 men, with six times as many ready to fly to arms when the word "mobilize" is spoken. It is estimated that the community loses at least \$200 a year for each man who is kept under arms and is therefore unproductive.

The restorations which are now being carried out in the Castle of St. Angelo, Rome, have resulted in the discovery of some curious frescoes of the fifteenth century. It is even hoped that possibly thick coatings of whitewash still cover the frescoes by Pinturicchio, representing the whole of the Borgia family. That such frescoes existed in the time of Julius II is proved.

In many parts of Spain the "stove" in general use is made from an empty petroleum oil can by cutting a hole near the bottom on one of the sides to make a draft, the can being lined with gypsum to the pleasure of the constructor, giving the fire space accordingly. The stove thus made, primitive as it is in appearance, is effective in purpose and costs the equivalent of but a few cents of our money.

#### Questions Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. At City Drug Store, Jacksonville, Ill.
