SISTERS OF THE HOLY NAMES.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disgusting pimples.

Eternal vigilance is the price of a beautiful complexion

when such remedies are relied on. Mr. H. T. Shobe, 274 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

HUMOR OF THE HOUR

The Artful Sportsman.

A sporting gentleman who had the reputation of being a very bad shot invited some of his friends to dine with him.

Before dinner he showed them a target painted on a barn door with a bullet right in the bullseye.

This he claimed to have shot at 500 yards distance.

As nobody believed him he offered to bet the price of an oyster supper on it, and on one of his guests accepting the wager he produced two witnesses whose veracity could not be doubted to prove his assertion.

Since they both stated that he had done what he claimed he won his bet. During dinner the loser of the wager inquired how the host had managed to fire such an excellent shot.

The host answered: "Well, I shot the bullet at the door at a distance of 500 yards, and then I painted the target round it."—Tit-Bits.

Well Fixed.

"But, mamma," said the beautiful South American heiress, "do you believe I will have any trouble in being received in society in the United States?"

"I don't see why," answered her mother. "You have plenty of money, and you can make the best of them look like small change when it comes to being a daughter of the revolution."—Indianapolis Sun.

Important Omission.

"What did your trip through Europe and the Holy Land cost you?"

"A little over \$600."

"Why, I thought the company that got up the excursion promised that the expense for hotel bills, guides, drives, shore excursions, railway fares and all else would not be over \$395."

"They did, but they forgot to figure in the tips."—Chicago Tribune.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker of Bookwiler, Ohio, "an infant child of our neighbor was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this remedy frequently and have never known it to fail in any single instance." For sale by City Drug Store.

Advantageous Wager.

Request a lady to lend you a watch. Examine it and give a guess as to its value, then offer to lay the owner a wager considerably below the real value of the watch that she will not answer to three questions which you will put to her consecutively. "My watch." Show her the watch and say, "What is this which I hold in my hand?" She of course will not fail to reply, "My watch." Next present to her notice some other object, repeating the same question. If she names the object you present, she loses the wager, but if she is on her guard, and remembering her stake, she says, "My watch," she must of course win, and you therefore, to divert her attention, should observe to her, "You are certain to win the stake; but, supposing I lose, what will you give me?" and if, confident of success, she replies for the third time, "My watch," then take it and leave her the wager agreed upon.—Boy's Treasury.

The Organ Grinder's Music.

I have heard the "tinkle, tinkle" that the big pianos say; Sometimes soft they trill and ripple like a brook that runs away—I heard brooks once in the country where the "fresh air" goes to stay— Sometimes the piano rumbles like a thunderstorm at night— I have listened near big houses till it put me in a fright; But there is a kind of music that I'd like to hear all day, It's the dancin', jiggy music that the organ grinders play. Oh, I love the lively music that the organ grinders play!

When I hear the organ grinder playing 'way, 'way down the street, I can feel the music fancies start the dancing in my feet; I forget my dress is tattered, that there's nothing home to eat; I go dancing to the music, and I dance the care away To the tunes so glad and merry that the organ grinders play. Oh, I'm thankful for the music that the organ grinders play!

I lift my gown so daintily; I balance and I sway; My ragged dress is aiken gauze, a prince my partner may. I dance in satin slippers, and the pavement, hard and gray, Is a velvet flowered carpet when the organ grinders play. I'm a princess crowned and jeweled when the organ grinders play. —Elizabeth Jamison.

The Summer Hotel. Young Guest—It seems to me that you don't object to the mosquitoes singing in your room. Old Guest—You bet I don't. Why, when the mosquitoes are singing I can't hear the university glee club practicing on the piazza.—Chicago News.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Castoria. Hall's Castoria Cure is the only positive cure now known to the medical fraternity. Castoria being a constitutional disease, requires a constitutional treatment. Hall's Castoria Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Thinking of Baby.

Tom—I didn't know he had any children.

Dick—Oh, yes; he must have one, and I suppose it's at least a year old.

Tom—Ah, you've seen the kid then?

Dick—No, but when I was in his office yesterday I asked if he had any ice water, and he said absently, "So 'im 'ants a hinky 'ater, does 'ims?"—Philadelphia Press.

One Explanation.

Mrs. Snaggs—I could never understand why the Russians call their ruler the White Czar.

Mr. Snaggs—I suppose that the numerous plots against his life keep him pale all the time.—Pittsburg Chronicle-Telegraph.

A Crushing Threat.
