Did you ever compare a delicious, flaky, delicately browned loaf of bread made from

Snowy Butte Flour

With the sad results achieved from the use of cheaper flour? The one, the highest triumph of cookery—the most useful of all the arts; the other, a monument to wasted energy, blasted hopes and poor judgment. But why continue the comparison? If you have made the mistake in the past, trying to exist on inferior flour, redeem yourself by ordering Snowy Butte flour only in future.

A. J. Cottingham went to Washington county, Ark., to see his sister, and while there was taken with flux (dysentery) and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and was so much pleased with the prompt cure which it effected that he wrote the manufacturers a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by City Drug Store.

President John Mitchell, of the United Mineworkers of America, has issued a statement, in which he says: "The agreement reached between the men and the operators in 1900 amounted to an increase of \$25,000,000 annually, for 200,000 men, secured at an expenditure of \$300,000, which is a bigger dividend than the Standard Oil Company ever paid. At the April convention, at an expenditure of \$5000, concessions were granted amounting to an increase of \$7,000,000 annually."

A special train of about 40 carloads of potatoes left Stockton, Calif., Aug. 30th for the Middle and Southern states. The potatoes were raised on the river islands west of that city and toed there on barges. The demand for potatoes, onions and cabbage throughout the Middle states is large, owing to the drought, and hundreds of carloads will be sent there from Stockton this year. Local dealers are paying from \$1.50 to \$1.60 a hundred pounds for potatoes on the river bank. This shipment is the largest single consignment of potatoes ever sent out of California.

Out of It.

A large number of colliers in Lancashire are accustomed to spending a portion of each week in the public house, instead of following their work regularly, and thus not having more than two or three days a week to draw for at pay day.

The mother of one of these men, on being told of 5 per cent advance in wages, asked her neighbor the meaning of 5 per cent.

Her friend replied: "Why, Mrs. Hodson, dost not know? It means as every toime they gettin a peund they'll get 21 shillings for it."

"Oh, dear me," Mrs. Hodson returned, "it'll mak' no difference to our Jerry; he never gets a peund!"—Spare Moments.

The District Fair.

The prevailing opinion seems to be that the decision of the board of directors of the S. O. S. B. of A. to ignore the racing feature this year was a wise one. This should be regarded as a notice to horsemen that the methods pursued in the past have not been satisfactory. The tendency at each fair has been to disparage the management and bring it into disrespect on account of the racing. The public has held the board responsible therefor, which it was powerless to prevent the secret combinations by which certain horses were slated to win and the purses amicably divided. It was the sense of the board that other features of amusement could be substituted that would be quite as acceptable to the public as racing, and to which no objections could be urged.

The base ball games during the fair, between the four best teams in the district, cannot fail to be interesting, especially as the third game will be for the championship of southern Oregon. These, supplemented by the cornet band contest, musical, literary and other entertainments, it is believed, will be of far more interest to the public than racing.

The premium list is being distributed, and can be had on application to T. E. Hills at Ashland or W. J. Plymale at Jacksonville. An examination of it shows that it has been largely extended, the prizes increased in value, and many special premiums offered by citizens of Ashland.

The pavilion exhibits will surpass any display ever seen in the district. The fruit department will be unequaled in variety and quality, and will surprise even the most successful fruit growers. Every department of the pavilion will show a marked superiority over any previous exhibit.

Those who stay away from the fair will miss valuable object lessons.

How To Gain Flesh

Persons have been known to gain a **pound a day** by taking an ounce of **SCOTT'S EMULSION**. It is strange, but it often happens.

Somewhat the ounce produces the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking
