MINING NEWS.

Notices for the location of placer and quartz mines, etc., up-to-date and complete, for sale at THE TIMES office. The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office. Messrs. Lawson and Ramsey of Seattle, who purchased the Golden Standard Mining Co.'s property, are in Gall's creek district, and thoroughly investigating the property. The Southern Oregon Oil Co.'s well is down 250 feet, the drill now working in alternating strata of shale and blue clay. The Town Talk says these indications are reported exceedingly good. C. H. and L. C. Bays, two of our most energetic citizens, have purchased a promising quartz mine of J. T. Cook, situated in Missouri Flat district, and will commence to develop it at once. W. R. Stansell and his associates have purchased the Dixie Queen mine, discovered by T. J. Cook and others and situated in Foothills creek district. The price paid is said to be \$3000. It promises to be first-class property. Carter and Jay Davidson, two excellent miners from Josephine county, while prospecting in Ward's creek district, not far from Woodville, discovered a quartz ledge that promises very well. It is about 15 inches in width, one from which prospects from \$50 to \$100 to the ton. It is reported that the Homestake mine, located near Woodville and owned by W. J. Stanley and others, has been sold to parties who have means to properly develop it. Considerable good ore has been taken out of this property; but it has never proved remunerative because such a great proportion of the quartz is base. Pay streak in a placer mine refers to and is the name of the portion of the gold-bearing ground that will pay at least the flat cost of mining it; but not including the cost of dead work. The quantity of gold in the ground required to make a pay streak varies with the costs of mining. While not capable of technical expression by the same numerical equivalent in all mines, the term is in commercial sense exact. Placer ground that, to mining on a commercial scale, does not yield sufficient gold to pay the commercial mining costs is not a pay streak. The Yreka Journal, speaking of the mine located at the head of Applegate, which is being developed by parties residing in Del Norte county, Calif., says the extensive copper mine, or rather mountain, discovered by McVey & Co., on the western part of the Siskiyou, is situated a few miles south of the Oregon line, and about eight miles from Job Garreston's medical springs at Cinnabar. It ranges from 300 to 350 feet in width, and is claimed to be more extensive than the famous Iron Mountain at Keswick, Shasta county. The owners have been offered \$150,000, but will not sell at less than \$250,000. Some say if they owned it they would not sell for \$500,000. The nearest point for supplies is Jacksonville, about 25 miles distant. The location is upon a tributary of Elliott creek, a fine place for putting up smelting works, with the benefit of plenty of wood and water. JOSEPHINE COUNTY ITEMS. Mrs. D. McCarthy of Ashland and her daughter are visiting in Grant's Pass. Selma will soon have a neat, new school building. Wm. Zimmerman will erect it. R. K. Montgomery is at Ashland billing the position of station agent during D. L. Rice's visit in the eastern states. W. T. S. Patton and his divorced wife were re-united in matrimony recently. Ross, died last Thursday, after an extended illness, at the home of her daughter, Mrs. Kate Gay of Mount Labor, aged 87 years. She was born in Kentucky and first married B. H. Baird, with whom she made her home in Arkansas until they moved to Oregon, in 1849. They first came to Lane county, and then moved to Josephine county, where her husband was killed by a bear in October, 1864. She was afterwards married to W. H. Ross, also a pioneer. They lived in southern Oregon for a number of years, and then went to Idaho, returning to Portland about four years ago. Jacksonville Public School. Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad, with headaches and other aches. You only need a few doses of Green's August Flower in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. At City Drug Store, Jacksonville. Men Wanted. To dig ditch in Steamboat district. For further particulars enquire of or address S. A. HARTZELL, Steamboat, Oregon.

Mrs. FRANK CARTER, 3 Merrill Street, Amesbury, Mass. This letter should carry Faith and Conviction to the hearts of all Sick Women. "I suffered with inflammation and falling of the womb and other disagreeable female weaknesses. I had bad spells every two weeks that would last from eight to ten days and would have to go to bed. I also had headaches and backache most of the time and such bearing down pains I could hardly walk across the room at times. I doctored nearly all the time for about two years and seemed to grow worse all the time until last September I was obliged to take my bed, and the doctors thought an operation was the only thing that would help me, but this I refused to have done. "Then a friend advised me to try the Pinkham medicine, which I did, and after using the first bottle I began to improve. I took in all five bottles of Lydia E. Pinkham's Blood Purifier, four boxes of Lydia E. Pinkham's Dry Form Compound, three boxes of Liver Pills and used three packages of Sassafras Wash, and I am as well now as I ever was. I am more than thankful every day for my cure." — Mrs. FRANK CARTER, 3 Merrill St., Amesbury, Mass. \$5.00 will be paid if this testimony is not genuine. Lydia E. Pinkham Medicine Co.
