Mining News. G. W. Trefren and Frank Williams of Ashland have bonded the Homestake mine, located near Woodville. Notices for the location of placer and quartz mines, etc., up-to-date and complete, for sale at THE TIMES office. The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office. B. E. Meredith, one of the proprietors and superintendent of the Wilson-Meredith mine, has returned from San Francisco, to prepare for the winter's campaign. The developments in the Copper Stain mine, situated in Mt. Reuben district, continue favorable. The proprietors feel sanguine that they have a good property. Winningham & Van Gorder, having struck their main ledge, after running a long tunnel, are now sinking on it. Prospects for a good property continue excellent. C. E. Wikstrom has rented his extensive placer mines, located in Pleasant creek district, to S. Waymont of Central Point, who will be assisted by his father-in-law, Mr. Hulise. A. F. Nelson, superintendent of the Eureka mine, situated not far from Selma, Josephine county, has a considerable force employed, and is well pleased with developments. This is considered one of the best properties in southern Oregon. Jesse McCall is surveying a ditch and pipe line by which it is proposed to increase the supply of water for the Shorty-Hope mine, situated a little northwest of Ashland, to 500 in. Work on this property, so badly mismanaged by Thos. James, will be resumed under the supervision of S. H. Sanford of Ashland. H. D. Sleuter is getting his placer mine, situated at the head of Wolf creek, ready for next season. It consists of 80 acres of rich placer ground and is operated with a single grant. It requires but two men to work this property, yet the cleanup amounts to several thousand dollars annually. Mr. Sleuter also has a quartz proposition that has netted him a neat sum. The Record says that the main shaft of the Ashland ledge is now down 765 feet. The work progresses steadily in sinking on the ledge and drifting on both sides of the shaft at the 700-foot level. At these depths the ledge averages about seven feet in thickness. It produces a good free-milling ore that carries values much above the average. Stopping is being done from the 400-foot level down. The company contemplates putting in an air plant, and introducing machine drills. The men are employed regularly. A finely equipped mill runs without cessation, except for clean-ups. It is provided with four concentrators. The superintendent reports that since the improvements made some months ago the tailings average in value only 63 cents per ton. More important than recording a notice of location is making the location. Making the location comprises (1) finding valuable mineral; (2) marking on the ground the boundaries of the discovery; (3) posting a written notice of the location with the names of the locator, the date, and a description of the claim that describes it so it can be found and identified on the ground; and (4) entering into possession and continuing that possession by every year, doing the annual assessment work. Doing these things the ground is not open to relocation. Failure to record a location does not create a forfeiture. A claim may be void from the beginning because of an improper location, not properly marking boundaries or posting notice. It is only forfeit by failure to do assessment work. A legal location held twenty-five years in conformity with law cannot be forfeited, because the locators failed to record the notice, says the Scientific and Mining Press. Stray Notice. Strayed from Woodville last May one bay mare, about 7 years old, light brand on left shoulder, heavy set, square face, weight about 1000 pounds. Was traced for at Medford by one L. F. Gardner in November, 1900. Reward of \$10 for information of her whereabouts. E. G. BORDEN, Woodville.

A NARROW ESCAPE

An Indiana Woman's Terrible Experience.

"It was a frightful experience and I never expected to come out alive," said Mrs. Ellen Bowman, of No. 82 Windsor Block, Indianapolis, Ind., in the course of an interview recently published in the Sun of that city. "I do not suppose it ever would have happened," she continued, "but, some years ago I began to worry and to do more work than I ought. This brought on a general physical weakness, my blood became thin and I grew nervous. I went to a doctor and he said I had consumption." "Did he advise any course of treatment?" "Yes, he gave me some medicine which I took but it did me no good. Other doctors failed to help me and I became despondent of ever getting well. My limbs ached, my head was dizzy and I was most miserable." "You don't look now as if you had ever been sick," ventured the reporter. "No, and I don't feel as if I ever had," said she. "I owe my present health to Dr. Williams' Pink Pills for Pale People. About four years ago a friend from Ohio recommended the pills to me, saying they had benefited his daughter whose symptoms were similar to mine, so I began to use them. It was only a very short time before I experienced relief. I have recommended the pills to many, for I am confident that benefit will follow their use." There is hardly a person who does not worry at times and fret about things that go wrong. And worry is responsible for as much sickness as any other cause. It interferes with the action of the stomach and racks the nerves. The result is that the blood becomes poor and the nervous system impaired. The power of Dr. Williams' Pink Pills for Pale People in the vast number of diseases due to derangements of the nervous system or to impure blood has been demonstrated in thousands of instances as remarkable as the one related above. They cure locomotor ataxia, partial paralysis, St. Vitus' dance, scintilla, neuralgia, rheumatism, nervous headache, after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness either in male or female. At all druggists, or direct from Dr. Williams Medicine Co., Schenectady, N. Y., 50 cents per box; six boxes, \$2.50.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial. It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption. "A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed, and I have never had any trouble of the kind since." Mrs. K. T. SYDNER, Troy, Ohio. Hood's Sarsaparilla and Pills will rid you of it, radically and permanently, as they have rid thousands.

Still More Counterfeiting.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order, it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.

He Kept His Leg.

Twelve years ago J. W. Sullivan of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation; "but," he writes, "I used one bottle of Electric Bitters and 14 boxes of Bucklen's Arnica Salve, and my leg was sound and well as ever." For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them. City Drug Store will guarantee satisfaction or refund money. Only 50 cents.
