Many physicians are prescribing Kodol Dyspepsia Cure regularly, having found that it is the best prescription they can write, because it is the one preparation which contains the elements necessary to digest not only some kinds of food but all kinds and it therefore cures indigestion and dyspepsia, no matter what its cause. City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

The big prune dryer being operated near Corvallis, it is claimed, is the largest in the world. It has a capacity of nearly a carload a day, and it will run about thirty days. There are ten tunnels thirty feet long, and it takes 15,000 feet of pipe to heat them. Little cars of fruit are loaded and run through the tunnels, and that is the way the fruit is dried. It is said the output this year will be worth \$15,000 to \$30,000, which means a fine business for the company.

What Do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their system. Grain-O is made of pure grains and when properly prepared tastes like the choice grades of coffee but costs about 1/4 as much. All grocers sell it. Use and see.

Oddest Parasite in Creation.

Do readers know that the royal Bengal tiger is infested with one of the strangest creatures that ever lived? It is said to be a fact easily demonstrated or proved by one who has access to a zoological collection that the web of the foot of tigers of the above named species is inhabited by a blood sucking insect about the size of a common flea which is a perfect counterpart of a tiger in every particular, shape, claws, tail and stripes included.

Eternal Lamps.

A common superstition that the ancients possessed the art of making lamps which would burn forever for a long time obtained, and it was claimed that one such lamp was discovered in the tomb of Rosicrucius. Science, however, has long set this, together with other superstitions, forever at rest, since it has been demonstrated that fire will not burn in a chamber from which the air has been exhausted.

A Laugh Saved a Life.

The Rev. George Harvest, rector of Thames Ditton, England, was very absentminded, so that on one occasion he went into a friend's house, and, seeing no servant, he rambled over it, finally entering the room of an old lady ill of a quincy. He stumbled over a clothes-horse, and his awkwardness made the patient burst into such a fit of laughter that the quincy broke, and she lived many years to thank him.

Tunnels.

A New York newspaper remarks that "ferries came and ferries go, bridges rise and bridges fall, but tunnels last forever." There is a scientific truth in the observation. Of all works of man earthworks, plain earth mounds soddled over, are about the most enduring. A properly constructed tunnel is essentially a work in earth and so almost as permanent as the great globe itself.

The Eye in the Dark.

Toward nightfall, as the light grows scarce and dim, the pupil of the eye increases to its greatest size so as to catch and absorb all the rays it possibly can. Thus a cat's eye will grow large at dusk, and those of the night loving owl are so made as to produce a greater convergence of the rays of light, so that in faint light it can distinguish objects closer.

It is as great a mistake to suppose that cats can see in the dark, where no light is, as it is to suppose that under the influence of passion or excitement man's eyes have the power of emitting light. It is impossible, as has been proved beyond a doubt by many experiments in utter darkness. True, a cat's eyes have a wonderful brilliancy, but that is due to a "carpet of glittering fibers" called the tapetum.

It may be to some extent in virtue of this glitter that they possess their alleged power of fascinating small birds and other creatures, though we certainly need not suppose that the terror and inability to move evinced by the victim are due to the power of the eye alone. Fear of the approaching monster, which instinct tells them is hostile to their life, is fully as paralyzing as any eye glitter.

Land for Sale.

I have 1500 acres of land, all in one tract, on Antelope creek for sale. It is situated 18 miles from Jacksonville, 12 miles from Central Point, and 10 miles from Medford. I will sell this land in tracts of 100 acres up until all is sold, at \$10 per acre. It is good farming and grazing land, and a good stock range on the outside. I will sell all, or as low as 100 acres in a tract. Inquire of WM. BYRNE, Jacksonville Or.

Let it Alone.

Scott's Emulsion is not a good medicine for fat folks. We have never tried giving it to a real fat person. We don't dare. You see Scott's Emulsion builds new flesh. Fat people don't want it. Strong people don't need it.

But if you are thin Scott's Emulsion is the medicine for you. It doesn't tire you out. There is no strain. The work is all natural and easy. You just take the medicine and that's all there is to it.

The next thing you know you feel better—you eat better—and you weigh more. It is a quiet worker.

Did you ever compare a delicious, flaky, delicately browned loaf of bread made from

Safe.

The little child is safe from ordinary dangers in the care of the faithful dog. But neither the dog's fidelity, nor the mother's love can guard a child from those invisible foes that lurk in air, water and food—the germs of disease. Children need to be specially watched and cared for. When there is loss of appetite, lassitude and listlessness in a child, an attempt should be made to revive the appetite and rally the spirits. In Dr. Pierce's Golden Medical Discovery parents have found an invaluable medicine for children. Its purely vegetable character and absolute freedom from alcohol and narcotics commend it to every thoughtful person. It is pleasant to the taste, unlike the foul oils and their emulsions offered for children's use. "Golden Medical Discovery" makes pure blood and sound flesh, and absolutely eliminates from the system the poisons which feed disease.

Mrs. Ella Gardner, of Waterview, Middlesex Co., Va., whose daughter suffered from malarial poisoning and catarrh, writes: "My little daughter is enjoying splendid health. I am glad I found a doctor who could cure my child. She took twelve bottles of the 'Golden Medical Discovery,' eight bottles of 'Pelllets,' and one bottle of Dr. Sage's Catarrh Remedy, and she is well. We thank God for your medicines."

Give the little ones Dr. Pierce's Pleasant Pellets when a laxative is needed. They're easy to take and don't gripe.
