five, removing his traps and taking care of them until the departure of the branch train, inasmuch that the general manager handed him a tip, which was accepted with gratitude. After a little while, accosting the porter, he inquired, "Do you know who I am?" "Indeed I do not, sir," replied the porter.

"Well, I'm the general manager of this railway, and I suppose you know there's an order in your rule book against taking tips from passengers?" "Begging your pardon, sir, it says we are not to take gratuities from the public, but there's nothing against our taking one from a fellow servant."

The Two Prayers.

A professional interviewer in Current Literature gives an account of how he once tried to corner General O. O. Howard. General Howard is, as everybody knows, a very religious man, and the professional interviewer got him to talk upon the subject of the efficacy of prayer. Speaking of a certain battle in the civil war in which Stonewall Jackson had badly beaten a Union force in which General Howard held a command, the interviewer asked:

"I suppose that before the battle you prayed very earnestly?"

"Yes," said General Howard, "I did."

"And I suppose that Stonewall Jackson prayed with equal earnestness on the other side?"

"Undoubtedly," said General Howard.

"Then, as he was successful and as he won the battle, either his cause was the right one or else the praying made no difference."

"No," said General Howard very softly. "He prayed that he might win that particular battle, while I prayed for the final triumph of our cause. So you see the prayer of each was granted."

"Queen of Hayti"

WILL BE PRESENTED AT U. S. HALL
OCTOBER 14.

The theatrical season of 1901-1902 opened at the Grand last evening by the presentation of "Queen of Hayti" by a most excellent company. The performance was far superior to what anyone had anticipated, and, if the opening is a fair sample of the bookings for the season, the public will never have cause to regret attending. The plot of the comedy is well maintained throughout, but is not of much consequence. The work that caught the crowd was in the olio, when a large number of vaudeville specialties were presented without any tedious delay. The best feature of the performance was undoubtedly the work of Craton, the juggler, slack wire artist and hoop roller. His hoop rolling was a splendid exhibition of skill, and the control that he has over the hoops is wonderful. The comedy is bright, clever, fresh and clean; the singing and numerous other musical features are much above the average, and the acting is satisfactory. --(Great Falls Daily Tribune, Aug. 17. Motherhood ought always to bring happiness. But it is often the beginning of life-long unhappiness. As a preventive of the ills so often following maternity Dr. Pierce's Favorite Prescription has been hailed as a "God-send to women." It heals diseases peculiar to women, tones up the system, makes motherhood practically painless, and establishes the sound health which insures healthy children.

"During the past year I found myself pregnant and in rapidly failing health," writes Mrs. W. J. Elder of Hill Dale Farm, Roseburg Center, Roseburg, Vt. "I suffered dreadfully from bloating and urinary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I felt that something must be done. I sought your advice and received a prompt reply. I took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your instructions. I began to improve immediately, my health became excellent, and I could do all my own work (we live on a good sized farm). I walked and rode all I could, and enjoyed it. I had a short easy confinement and gave a healthy baby boy."

Dr. Pierce's Medical Adviser (paper covers) is sent free on receipt of 21 one-cent stamps to pay cost of mailing only. Address Dr. R. W. Pierce, Buffalo, N. Y.

You Can Lead a Horse

to water but you can't make him drink.

You can't make him eat either. You can stuff food into a thin man's stomach but that doesn't make him use it.

Scott's Emulsion can make him use it. How? By making him hungry, of course. Scott's Emulsion makes a thin body hungry all over. Thought a thin body was naturally hungry didn't you? Well it isn't. A thin body is asleep--not working--gone on a strike. It doesn't try to use its food.

Scott's Emulsion wakes it up--puts it to work again making new flesh. That's the way to get fat.
