Did you ever compare a delicious, flaky, delicately browned loaf of bread made from

Snowy Butte Flour

With the sad results achieved from the use of cheaper flour? The one, the highest triumph of cookery—the most useful of all the arts; the other, a monument to wasted energy, blasted hopes and poor judgment. But why continue the comparison? If you have made the mistake in the past, trying to exist on inferior flour, redeem yourself by ordering Snowy Butte flour only in future.

ROYAL BAKING POWDER CO., NEW YORK.

A Reef, a Sand Bank and a River.
Lord Coleridge, the famous lord chief justice, once recounted to Sir Mount Stuart E. Grant-Duff an incident of his earlier life. He had to cross examine an eminent professional witness about a proposed harbor. In the course of doing so he said, "But, Mr. —, isn't there a reef of rocks that would be a great inconvenience to you?"
"Oh, yes," replied the witness. "Undoubtedly there is, but we propose to get rid of it in such and such a manner."
"Very good," rejoined Coleridge, "but when you have got rid of it, would there not be a very awkward sand bank to contend with?"
"Certainly," said the witness, "but against it we should provide thus and thus."
"Well," answered Coleridge, "but when you have removed both these obstacles would you not still have a great deal of trouble from the current of the river when in flood?"
"Clearly," was the answer, "but we should encounter that difficulty successfully by another expedient," which the witness proceeded to explain.
"You have seen the piece, have you not?" said Coleridge.
"Oh, yes," replied the other.
"Well, I never did," was the rejoinder. "I have invented alike the reef, the sand bank and the river!"

The Tunnel Was Forgotten.
At Brussels the visitor is often struck by the extreme thinness of the earth covering the Braine le Comte tunnel and wonders why the common sense of the engineers who made the line did not direct them to continue the cutting and thus avoid a subterranean passage.
The mystery is thus explained: When railways were in their veriest infancy, the Belgian government sent a party of engineers over to England to acquire experience in construction of the new iron highways, and on their return they were instructed to lay out the first railway in that enterprising little kingdom. The work was accordingly put in hand, but on its completion one of the engineers exclaimed:
"Good gracious, we have forgotten the tunnel!"
The consternation was general, especially when it was remembered that there was not a single line in England but could boast of a tunnel. What was to be done? Nothing but to construct the long corridor at Braine le Comte, and when it was finished the earth was put on top. The tunnel was the glory of the line.

Massage For the Scalp.
The hair falls out when the strength of its roots is insufficient to sustain its weight any longer, and a new hair will take its place unless the root is diseased. For this reason each person has a certain definite length of hair. When the hair begins to split or fall out, massage of the scalp is excellent.
Place the tips of the fingers firmly upon the scalp, and then vibrate or move the scalp while holding the pressure steadily. This will stimulate the blood vessels underneath and bring about better nourishment of the hair. A brush of unevenly tufted bristles is also excellent to use upon the scalp, not the hair.
Regularity and Indigestion.
A common cause of indigestion is irregularity respecting the time of meals. The human system seems to form habits and to be in a degree dependent upon the performance of its function in accordance with the habits formed. In respect to digestion this is especially observable. If a meal is taken at a regular hour, the stomach becomes accustomed to receiving food at that hour and is prepared for it. If meals are taken irregularly, the stomach is taken by surprise, so to speak, and is never in that state of readiness in which it should be for the prompt and perfect performance of its work.

Asbes on Cigars.
"Few men professing to be judges of fine cigars know anything at all about smoking them," remarked a cigar dealer. "The ashes on the end of the cigar serve to retain the flavor and should be permitted to remain as long as possible. Then the constant thumping some smokers give their cigars in the attempt to keep them clear of ashes often causes the wrappers to break, and that also lessens the pleasure of a good smoke."

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by. When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood. This is health. When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it. Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child. If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. 50c. and \$1.00 all druggists.
