BRIEF MENTION.

Man fits to have trolley cars. American progress.

Bananas, oranges and lemons can always be found at Wetterer's.

Perry hasn't found the pole; but both are reported in good condition.

Trespass notices, printed on cloth, on sale at THE TIMES Printing House.

Another cyclone in Kansas! But we can sleep in security; there are no cyclones in Oregon.

The census reports show that there are 1,815,097 more males than females in the United States.

A hopeless man is deserted by himself; and he who deserts himself is soon deserted by his friends.

State Fish Warden Van Dusen reports that the Oregon hatcheries will turn out 25,000,000 young salmon this year.

The Vollmer-Clearwater Co. lately shipped from Pomeroy, Wash., 28 car-loads of barley, an entire trainload, to Milwaukee.

Last week Dewet was dead and Botha's forces had dissolved. Now the report in London is that Kitchener had sent an urgent demand for more mounted men.

The Shamrock will remain in American waters, her owner, Sir Thomas Lipton, having placed her on the market. She was a worthy competitor for the cup.

A large quantity of newspapers, suitable for wrapping, pasting on walls, putting under carpets, etc., can be obtained cheap, in quantities to suit, at THE TIMES Printing House.

The Pan-American Exposition at Buffalo has been anything but a paying investment so far, and those in a position to know estimate that at the close of the season there will be a total deficit of from \$1,000,000 to \$1,500,000.

The celebrated Snap Shot, the best medicine in the world for allaying inflammation in man or beast, can be found at Dr. Robinson's drug store, also at Dr. Hinkle's, Central Point. Try it.

Salmon is anadromous. When mature it comes in from the sea, passes to the headwaters of our large rivers, deposits its spawn and dies. The eggs hatch, and the young fish descend the rivers to the sea, where they mature.

Secret agents in the Philippines recently discovered a monstrous Filipino plot which had for its object a general massacre of the white civilians on several of the islands surrounding Luzon. Several of the plotters were tortured into confession. The ringleaders were put to death.

"I had long suffered from indigestion," writes G. A. LeDeils, Cedar city, Mo. "Like others I tried many preparations, but never found anything that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he used Kodol Dyspepsia Cure indigestion had made him a total wreck." City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

Millers from all over the Central West are in Washington to renew their old fight for legislation that will prevent the railroads from unjust discrimination against flour in favor of raw wheat. The rates now in force give about six cents per hundred-weight advantage to the flour, thus enabling British millers to put out their wheat, grind it, and send it back to compete in our own markets with the home ground product.

Why Women Cannot Sleep.

The highly organized, finely-strung nervous system of women subjects them to terrors of nervous apprehension which no man can ever appreciate. The peace of mind, the mental poise and calmness under difficulties, which is necessary for happy womanhood is only possible when the sensitive feminine organism is in a perfectly healthy condition. If there be any weakness or derangement in this respect no remedy in the world so completely restores womanly health, nervous vigor and capability as the wonderful "Favorite Prescription" invented by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y. It purifies, heals and strengthens; insures functional regularity; provides physical reinforcement and sustaining power at periods of special weakness and depression.

It is the only medicine which makes the coming of baby safe and comparatively easy. In a personal letter to Dr. Pierce, Mrs. Marguerite Collins, of Cutler, Algoma Co., Ont., says: "I was a sufferer and was cured by Dr. Pierce's wonderful medicine. When I commenced the medicine I could neither eat nor sleep. My hands and feet were constantly cold; I had a wasting, troublesome drain for three months and my monthly periods were never regular. I took Dr. Pierce's Favorite Prescription and it cured me. I feel well. I thank the World's Dispensary Medical Association."

Creedence in Medicinal Charms.

It is not only among the rude savages of India that the virtue of medicinal charms is implicitly credited. The illiterate and simple minded of England repose all necessary faith in the same fascinating delusions, and there is no ancient woman in any of our remote villages who professes the customary knowledge and superiority of her age who has not a specific charm for "whooping cough, ague, teething, convulsions, epilepsy and every other common ailment and disease."

Every one is acquainted with the efficacy of the "royal touch" in cases of the King's evil, or scrofula, and scarcely a week passes that we do not see in our newspapers an advertisement for the disposal of a child's cold or a serious form of deafness.—London Times.

Blowing Hot and Cold.

They were gossiping of a young couple who had been secretly married a few days before without the consent of their parents.

"Yes," said one of the party, "his mother said she would never forgive them for deserting her and then went off and bought them the finest refrigerator she could find to help them start in their housekeeping this hot weather."

"That was certainly treating them coldly," remarked the young woman who was a listener.

"But his father," pursued the narrator, "sent them the latest style of gas range on which to do their cooking."

"And that was certainly one sort of a warm welcome," commented the young woman.—New York Times.

Miners' liens, deeds to mines, water-right locations and other mining blanks always on hand at THE TIMES office.

Did you ever compare a delicious, flaky, delicately browned loaf of bread made from

Snowy Butte Flour

With the sad results achieved from the use of cheaper flour? The one, the highest triumph of cookery—the most useful of all the arts; the other, a monument to wasted energy, blasted hopes and poor judgment. But why continue the comparison? If you have made the mistake in the past, trying to exist on inferior flour, redeem yourself by ordering Snowy Butte flour only in future.

Incontrovertible Evidence.
"Now, children, I want you all to remember that James Watt discovered the wonderful steam engine by simply watching the kettle boil."
"Please, ma'am, I don't just see how that could be."
"Why not?"
"Cause watched pots never boil."—Boston Courier.

She Valued Her Head.
Henry VIII, after the death of Jane Seymour, had some difficulty in getting another wife. His first offer was to the duchess dowager of Milan, but her answer is said to have been: "I have only one head. If I had two, one should certainly be at his service."

Misunderstood.
"I would like a straw with this lemonade," said the lady at the table to the server of the beverage.
"Hey?" ejaculated the waiter, who was hard of hearing.
"No: straw, I said."—Beverages.
