Rudolph, aged 34 years, a printer who has been in Jacksonville several times, has been committed to the insane asylum. He is a morphine fiend. Stowe, the champion chimney sweep of the Pacific coast, was in Jacksonville this week. He does a big business everywhere, and never fails to give satisfaction. Silversides have been running up Rogue river in larger numbers than ever before known, and many are being caught. The hatchery is doubtless responsible for this. John T. Cardwell of Cottage Grove, who lived in Jacksonville for awhile a number of years ago, has been granted a pension of \$12 a month. He is a veteran of the civil war. The Review says that W. W. Cardwell has returned to Roseburg after an absence of several months at Cape Nome. He has some mining claims there and will return early in the spring. J. F. F. in the procession, which was augmented by the teachers and pupils of our public school, as also many of the friends of the deceased. The religious services were conducted by Rev. S. H. Jones. In reply to inquiries we have pleasure in announcing that Ely's Liquid Cream Balm is like the solid preparation that it cleanses and heals members affected by nasal catarrh. There is no drying or sneezing. The Liquid Cream Balm is adapted to use by patients who have trouble in inhaling through the nose and prefer spraying. The price, including the spraying tube, is 75 cents. Sold by druggists or mailed by Ely Bros., 56 Warren St., New York. The S. P. Co. this week settled the taxes due the county from it under the decision of the supreme court. The county commissioners' court waived the demand for interest and a settlement was effected. The railroad company pays some more money into the treasury than it did before its suit with the county. But it is also a fact that the people are now paying a higher rate on the freight hauled into Jacksonville by the octopus than they did a few years ago. It is as broad one way as the other—the masses must pay these taxes anyway. F. H. Colvin of New York, an up-to-date and skillful teacher of the art of dancing, has organized a class, which already numbers over 20. He guarantees to teach anyone at all capable of being taught to dance nicely in five hours. Mr. C. gives only private or individual lessons, carrying his own music. It is wonderful with what success he meets. He closes his instruction next Tuesday; but will receive pupils for a full term one day longer. This is the best opportunity ever presented in southern Oregon to those wishing to become good dancers. Lessons are taught at Orth's hall daily. Miss E. Dungan, who lives near Gold Hill and was indicted for using the mails fraudulently, pleaded guilty in the U. S. district court at Portland Friday. After she did so Judge Bellinger pronounced sentence as follows: "Upon the facts stated by the district attorney you are guilty of using the mails fraudulently; but the law is designed to protect society; but the duty of men who are induced to send money to buy wedding presents and who put advertisements in the papers for wives is beyond the power of the law to protect. The sentence of the court is that you be imprisoned in the county jail for one day and pay a fine of \$1.00." Miss Dungan did not go to jail, however, as the judge construed the law so it was not necessary for her to do so. She was seen after sentence and said: "It was not my intention to commit a crime in the use of the mails. I was ignorant that I was doing that. I just did it to pass away the time, and the letters were amusing. I did not do it for the money; but when they sent me presents I did not think it necessary to send them back." She was accompanied home by her father, who is a respected citizen living near Gold Hill. The men who lost their money should try some other method of obtaining a wife. The Oregonian of the 5th contained a picture of the late Henry Klippel. In addition to a short biographical sketch of the deceased, he was one of the oldest members of the Southern Oregon Pioneer Society. His birthplace was Wickenheim, Germany. In 1837 he came with his parents to America, and the family settled at Cincinnati, O., where his father died. The family then moved to St. Joseph, Mo. Mr. Klippel crossed the plains with an ox team in 1851, arriving at Foster's, on the Clackamas river, in August of the same year. In 1860 he married Miss Elizabeth A. Bigham. She and five children—John and Henry of Portland, Lannes of Summer lake, Fred of Denver and Miss Alle of Medford—survive him. Mr. Klippel was for a number of years one of the most active and prominent citizens of southern Oregon. He was part owner of the famous old Gold Hill mine, and was interested in the first quartz mill in the state. He was the first recorder of Jacksonville, and afterward president of its board of trustees. In 1870 Mr. K. was elected sheriff of Jackson county, and two years later was appointed to the commission which built the capitol at Salem. In 1874 he was chairman of the Democratic State Central Committee. In 1876 he was nominated as an elector on the Tilden and Hendricks ticket, and became county clerk in 1880 and was re-elected two years later.

The President's Thanksgiving Proclamation.

"The season is nigh when, according to the time-honored custom of our people, the President appoints a day as the special occasion for praise and thanksgiving to God. "This Thanksgiving finds the people still bowed with sorrow for the death of a great and good President. We mourn President McKinley because we so loved and honored him; and the manner of his death should awaken in the breasts of our people a keen anxiety for the country, and at the same time a resolute purpose not to be driven by any calamity from the path of strong, orderly, popular liberty, which, as a Nation, we have thus far safely trod. "Yet in spite of this great disaster it is nevertheless true that no people on earth have such abundant cause for thanksgiving as we have. The past year in particular has been one of peace and plenty. We have prospered in things material, and have been able to work for our own uplifting in things intellectual and spiritual. Let us remember that, as much has been given us, much will be expected from us; and that true homage comes from the heart as well as from the lips, and shows itself in deeds. We can best prove our thankfulness to the Almighty by the way in which on this earth and at this time each of us does his duty to his fellowmen. "Now, therefore, I, Theodore Roosevelt, president of the United States, do hereby designate as a day of general thanksgiving Thursday, the 28th day of this present November, and do recommend that throughout the land the people cease from their wonted occupations, and at their several homes and places of worship thank the Giver of all good for the countless blessings of our national life."

A Great Statesman's Secret.

The secret of a celebrated statesman's long life was his systematic way of eating. Every bite of food was chewed thirty times before swallowing. The result was he was naturally enjoyed good health. Most men and women bolt their food, and eat things which were never intended to be eaten. They become coctive, have a bad complexion, lose flesh and are irritable and nervous; and the first thing they know are "played out." It is gratifying to know that Hostetter's Stomach Bitters cure stomach troubles. It is a purely vegetable medicine that has stood the test of fifty years. It cures cases which seem to be hopeless. It suffers from any disorder of stomach, liver or bowels should try it.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial. It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption. "A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed, and I have never had any trouble of the kind since." Mrs. K. T. Stevens, Troy, Ohio.

Work of Rogue River Hatchery.

A recent visit was made by a representative of the Telegram to the Rogue River Hatchery, an institution that is working wonders for the salmon industry of southern Oregon, especially along Rogue river. The hatchery is situated three miles above Trail postoffice. The plant is in charge of Superintendent Bertram. The hatchery is owned by R. D. Hume, who has large canning interests at the mouth of Rogue river, although it is operated by the United States Fish Commission. This station was established in 1897, but not operated in 1898. In 1899 a pumping plant was installed and an abundance of pure water from the river obtained. Since 1897 about 10,000,000 Quinnet salmon eggs have been hatched, all of which have been planted in Rogue river and its tributaries. Besides 1,500,000 silver salmon and steelhead trout eggs have been hatched and planted. The Rogue River Hatchery is doing more work than any other in the state. The salmon in this river are larger and finer fish than those of the Columbia and its tributaries. The larger fish are selected and the eggs of the larger females are impregnated with the milt of the larger males, thus propagating a larger species of fish, after the manner of breeding livestock. A steelhead trout hatchery is also operated in connection with the salmon hatchery. This plant is located 10 miles from the one described, well up Elk creek, which these splendid fish seem to prefer. The trout spawn in the spring, and the manner of handling them is much the same as that followed for the salmon.

TEACHERS' TROUBLES

A TRYING OCCUPATION FOR WOMEN WITH DELICATE NERVES.

The Hard Work Entailed by the Charge of a School Room Often Causes the Health to Break Down.

From The Tribune, Minneapolis, Minn.

Teaching school is an occupation which has many attractions for cultured women, but it also has many drawbacks, and often affects their health seriously. Especially is this so in the case of women with delicate nervous systems and those with a tendency to pulmonary troubles. Miss Mary K. Powers, of Ellsworth, Wis., is a teacher whose health was broken down by the hard work which the charge of a large school entails. She says: "During the winter of 1898, while teaching school, I became subject to nervousness, which grew worse until my whole system was run down. My back ached and at times I was so dizzy that I could hardly stand. My limbs were swollen and always tired, so that I felt no more rested in the morning than when I went to bed. I was also troubled with a cough and the food I ate did not strengthen me. This condition, accompanied by palpitation of the heart, kept up for several months until in March, when I read about Dr. Williams' Pink Pills for Pale People in a Juneau, Wisconsin, newspaper. "I began taking the pills and in about a week I noticed a change for the better. I felt so encouraged by this improvement that I kept on taking them until I had used three boxes, and was entirely cured. I always keep Pink Pills by me and I take them occasionally when I feel the need of a tonic. "I believe firmly in the good done by Pink Pills for Pale People and have advised many of my friends to use them. "All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained, in a condensed form, in Dr. Williams' Pink Pills for Pale People. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion, and all forms of weakness. At all druggists, or direct from Dr. Williams Medicine Co., Schenectady, N. Y., fifty cents per box; six boxes two dollars and a half.
