Football at Cornell. The football policy to be followed at Cornell this fall is the graduate system. It has been decided to have the captain of the team head coach, and associated with him at Ithaca are to be three permanent instructors, who will remain throughout the season. In addition there will be from fifteen to twentyfive graduate football players, who are pledged to return to Ithaca from time to time during the season. Captain Billy Warner will control affairs, and the two head man who will work with him will be R. D. Starbuck and Dan Reed, both recent graduates of Cornell. Starbuck is the coach whose name has been kept secret by the committee for the last six months, and, while he will be considered the leader in the instructing staff, Reed will have practically as much authority. Star buck is to have the back field and the general running of the team under his charge, Reed devoting his time more to the line men. These two men will work on the varsity and second elevens. while H. J. Davall, 1902, is to have charge of the scrub and freshman elevens.

Wanted, Sharp Knives. "I have often wondered where one

could find the sharp knives of the world," said an observant citizen, "and really the problem is one of some seriousness, and one, upon reflection, is almost driven to the conclusion that there are no sharp knives in the world. "Have you ever noticed how hard it

is to find a really sharp knife? Stop the first man you meet and ask him to let you have his kaife for a minute and listen to what he says about it. Nine times out of ten he will say, 'I have one, but it isn't very sharp.' You may pick out your men indifferently, and they will always tell you the same thing. If a man should ask me for my knife to sharpen a lead pencil or to use for some other purpose, the chances are I would say about the same thing, 'I have one, but it isn't very sharp.'

"And really the answer thus made is generally true. Men do not keep sharp knives. It may be because they do not need sharp knives or it may be a matter of laziness, but in any event they do not carry them around with them, or if they do they always give their friend a dull one."-New Orleans limes-Democrat.

A Physician Testifies.

"I have taken Kodol Dyspepsia Cure and have never used anything in my life that did me the good that did," says County Physician G: W. Scroggs of Hall county, Ga. "Being a phy-sician I have prescribed it and found it gave the best results." If the food you eat remains undigested in your stomach it decays there and poisons the system. You can prevent this by dieting, but that means starvation. Kodol Dyspepsia Cure digests what you eat. You need suffer from neither dyspepsia nor starvation. The worst cases quickly cured. Never fails. City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

The Lustrous Pearl.

Pearls, as most readers know, are small bodies found either in the mother of nearl shells or those with a nacreous lining. A hey are formed either by a disease, by the presence of a parasite or by an effort on the part of the mollusk to rid itself of some foreign substance which has found its way into the shell.

Pearls are composed of many layers of carbonate of lime with organic matter between and are not always pearly throughout and invariably have some small central core or nucleus. Round pearls of fine luster and color are very valuable, and their value increases rapidly with their size.

The "Dog Cohar" Neckband.

Women of fashion are adopting the so called "dog collar" quite generally, and its becoming character commends it to all classes. It is a neckband of velvet or even of soft leather overlaid with filigree work of gold or silver or ornamented with jeweled nalls. Its name is derived from the fact that the collar fastens much in the style of a barness or real dog collar buckle, some of them showing a tiny padlock. In Paris this fad has already spread rap-WIY.
