

YALE and Harvard, the crack football teams of the United States, played a game at Cambridge, Mass., Saturday. Contrary to general expectation the latter won, by a score of 22 to 0.

The insurrectionists of Colombia, S. A., have captured the city of Colon, on the isthmus of Panama, which has compelled the United States to land marines for the protection of the railroad whose terminus is there.

GROVER CLEVELAND is seriously ill at his home in Princeton, N. J. He was attacked by a congestive chill of more than ordinary severity upon his return from a hunting trip a few days ago, which developed into pneumonia.

It is said that in his message to Congress the President will not only recommend the re-enactment of the Chinese exclusion act, but will go further and recommend that it be strengthened to increase its efficiency. We hope so, although we fear he is again "talking through his millinery."

As Wm. J. Bryan aptly says, "it would seem that Republican policies ought to arouse overwhelming opposition among the wealth-producers of the country, for surely no man who earns his living can point to any advantage which the Republican party brings or can bring to the masses of the people. But they evidently fail to appreciate the viciousness of the principles that are at work."

THE New York World prints a long article under the caption, "Is a money trust taking form?" That such is true it quotes a prominent business man, who is unnamed, as to the trend of breaking conditions in this way. In effect he tells of the absorptions taking place every week. The statement is made that 85 per cent. of the deposits in New York banking institutions, \$1,000,000,000, is in the hands of six interests held together by common ideals. These six interests are the New Life Insurance Company, the Mutual Life Insurance Company, the Equitable Life Insurance Company, The Standard Oil Company, J. P. Morgan & Co. and C. W. Morse.

Instead of taking steps to curb the monster which is sapping the life-blood of the people, the policy of the Republican party is to lend governmental assistance to it in every way.

THREE HUNDRED DELEGATES, representing the manufacturers of the United States who are seeking an enlarged market for their products, met at Washington last week and for three days discussed the subject of reciprocity with a view of organizing to secure legislation at the hands of Congress during the coming session. The steel trust does not like reciprocity. It wants the present high protective tariff maintained. It desires a continuation of existing conditions which permit it to dominate prices in the United States, to maintain the prices of its products at the top of the scale and still to sell them at a very great reduction in foreign countries. This giant corporation, therefore, will fight reciprocity and endeavor to block the aims of the delegates who went to Washington for the reason that reciprocal relations with other nations mean reduced profits to the trusts and decreased dividends to the shareholders of that combination.

VERY MANY PEOPLE in the Eastern states, who don't or won't understand the importance of keeping oriental labor out of the United States, are again opposing the passage of an act to exclude it from our shores. The large majority of them are Republicans. They allow a puerile sentiment to dwarf common sense. The following, taken from a New York periodical, well expresses their ideas on the subject: "There seems to be a decided change in popular sentiment toward the Chinese as immigrants into this country. A few years ago it would have been political suicide for any public man to intimate that he favored the admission of the Chinese. But times have changed, and merchants, manufacturers and farmers are beginning to feel the need of cheap and trustworthy labor, a need that the Chinese can satisfactorily supply. It is generally believed that the next Congress may refuse to re-enact the exclusion law, and thus make an 'open door' in this country for Chinese labor." That there is not a grain of truth in this quotation is apparent to those living on the Pacific coast. Our people are fully as much opposed to the immigration of Chinese to the United States as they ever were, and they want Japanese—who are even worse than Chinaman—included in the prohibition.

HERE AND THERE.

The recent election in New York cost the municipality \$670,000, or \$1.08 for each vote.

A letter to the Agricultural College from Professor Kniseley, who is engaged in analyzing sugar beets at the Union Experiment Station, announces that the average yield of sugar is 19 to 21 per cent., and that some of the beets have gone as high as 25 per cent. The average yield in California is about 16 per cent.

Senator Simon has been to see President Roosevelt, to protest against being ignored in the matter of appointments to federal positions in Oregon. It is a new experience for Joseph to be overlooked when the cakes and pies are distributed. It is said President Roosevelt promised not to do so any more.—Salem Statesman.

Representative Hepburn will introduce in the early days of the coming session of Congress substantially the same Nicaragua canal bill that passed the House last year. It appropriates nearly \$150,000,000 for the construction of the canal. Mr. Hepburn says there is nothing to prevent the United States from building a canal exactly as it chooses.

Aguinaldo has written to Gen. Chaffee, the military governor of the Philippines, asking the latter's permission to go before Congress and express the desires of the Filipino people. Aguinaldo further requests that he designate, four of whom are prisoners at Guam, while the others are prominent in Manila.

A dispatch to Toronto, from Vancouver, B. C., says the insurrection story is not altogether without foundation. Some hard-brain Americans drew up plans for forcibly overthrowing the police and government in the Yukon, somewhat similar to the Jamison raid in the Transvaal. Mayor Wood, N. W. P., discovered the plans and took prompt steps to suppress it. American officials at Skagway are co-operating.

Following the report that the court of inquiry would cost Admiral Schley \$20,000, the Knoxville Sentinel on Nov. 18th sent him a dispatch asking him if he would consent to accept public subscriptions. It received a personal letter from him, the purport of which is that he cannot accept the offer. The Admiral says the report as to the cost is a mistake, as the amount is not as great as expected. He suggests that the matter is "too delicate to discuss," and trusts that his friends will appreciate his position and respect it.

The work of building the Sugar Pine Lumber Company's railroad from the Southern Pacific, near Klamath, Calif., up the Klamath river 30 miles to Pokegama, Or., has been begun, and it will be continued with a large force of men all winter. Completion of the road to Pokegama will have covered the roughest and steepest part of the route to Klamath Falls, which, being on the river 28 miles above, will be the ultimate terminus, it is said. Beginning of the road presages lively times in Klamath county, having already stimulated the value of Klamath county timber and other property.

MINING NEWS.

The Gold Standard mine, situated in Gail's creek district, has been shut down for the present.

Notices for the location of placer and quartz mines, etc., up-to-date and complete, for sale at THE TIMES office.

Miners' liens, deeds to mines, water-right locations and other mining blanks always on hand at THE TIMES office.

The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office.

Mr. Brown of Oakland, Calif., a mining engineer, was on upper Applegate for several days, bearing on the mineral possibilities of that district. He was well pleased with what he saw.

A party of United States geological surveyors are engaged in making a geological survey of Josephine county. The mapping of the several mineral districts of the county will be its main work.

W. J. Morphy of Chicago, having purchased an interest in the Victory hydraulic mine, of upper Cow creek district, lately arrived in Grant's Pass and is making deals for mining properties in Josephine county.

Cook & Howland have their mines in Jump-off-Joe district in ship shape for this season's operations, and one giant is already playing on the gravel. W. H. Miller, J. A. Harvey and other competent miners are in charge of the work.

The Helena Consolidated Mining Co., owning the celebrated Helena mine, situated in Bohemia district, has declared a dividend of 7 per cent. It is the principal producer in that district, the mill on this property being in constant operation.

Prof. Wynn of Denver, Col., a Virginian, claims to have discovered a method of making gold, or rather extracting it from talc and tailings, through a cyanide process, with belief that gold grows. He claims to have been posted on the method by a man who died recently at Boulder, who told him if he could find a method of extracting gold from talc success would be certain.

Mining properties in Douglas county are beginning to attract considerable attention from outside parties. Especially is this true of the Myrtle creek district. Among some of the important mining deals consummated lately is the Continental mine on South Myrtle creek, which G. W. Crews sold to Loudon & Hemrich of Seattle for a consideration of \$12,000. Hall, Rice and Cummings have bonded their mine adjoining the Continental to H. H. McCarthy and G. Johnson, of Portland. The amount of the bond is probably near the \$12,000 mark. McCarthy and Johnson also bonded Robinson & Catman's mine in the same district for \$10,000. Development work will be pushed on all of these mines by their new owners, work having already begun on the Continental, while on the others the work will soon be commenced.

Deeds in escrow have been filed whereby valuable placer properties on Poots creek have been transferred to a Seattle syndicate, of which Banker Latimer of that city, represented by Mr. Barnes and others, is the head. The transfer includes the Lancer group of claims and the extensive water rights appertaining thereto; and it is stated that the syndicate has options on several other placer properties in that district. For the Lancer group the sum of \$35,000 is said to have been agreed upon, while the price fixed for the Short property is \$4800. It is said also that this syndicate will endeavor to acquire the entire mining acreage down to the forks of the creek, which will include some of the leading mines of the district.

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is made or saved the money to purchase them. If a woman will risk her health to get a coveted jewel, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes, and drive the bread disease from the system. It is not a cure-all but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at City Drug Store. Get Green's Special Almanac.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make a mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmor's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmor & Co., Binghamton, N. Y.

Grocery Sense.

People now-a-days are cautious about what they buy for the table. A modern tendency to cheapen methods of manufacture at the expense of quality has made this caution necessary. Our old-fashioned notion is the most of persons still want quality rather than price in the things they eat—and our brands are packed on that principle—quality first—then price—SATISFACTION ALWAYS. Our catalogue tells the rest. Send for it. Complete one ready.
