This hatchery is working wonders for the salmon industry of Southern Oregon. Dick Smith of Klamath county, the well known athlete, who is attending the Columbia law school, has become a member of its football team. The Philadelphia Press of a late date, in a review of the foot-ball situation, has the following to say concerning him: "There was joy at Columbia yesterday when it was announced that Smith, the sterling half-back, had decided to play in the Cornell game. Without Smith the chances of Columbia would look slim."

J. J. Houck, proprietor of the Gold Hill mills, has just shipped in a carload of wheat from the Umpqua valley. Other millers are doing likewise, which shows that last season's crop of wheat was a much shorter one than usual. C. Kleinhammer of Phoenix precinct, who grows some of the best apples in the valley, has just shipped a large quantity of them. They will go direct to England, where they will bring a fancy price, as they are large and of a superior quality. The dancing party given at Orth's ball Friday night was thoroughly enjoyed by those in attendance. Although the night was stormy, quite a number "tripped the light fantastic." Excellent music was furnished by E. W. Carver of Medford, the popular violinist. The entertainment that will be given at Orth's hall Saturday evening is attracting much attention, and will be one of the best given in Jacksonville for sometime. The excellent programme announced is being rehearsed industriously. A. T. Robinson, an expert plasterer and brick mason, will be employed at C. C. Beckman's residence in Jacksonville Tuesday, Wednesday and Friday of this week, and those needing his services can then give him their orders. He guarantees satisfaction. Tickets, \$1.50. All are invited to come and enjoy themselves. Miss Lena Breyman of Salem, who is well known in Southern Oregon, lately had the misfortune, while operating a sewing machine, to run the needle of the machine through the forefinger of the left hand, penetrating the digit twice, the sharp steel being driven through the bone of the finger. Fruit growers will find the Pacific Nursery Co. of Tangent, Linn county, one of the most reliable on the Pacific coast. They grow a large assortment of the best and most popular fruit, shade and ornamental trees, and warrant the quality and name of everything they sell. Intending purchasers can save agents' profits by sending directly to them. Mrs. Powell, who had a writ of habeas corpus issued to obtain custody of her daughter, Inez Holman, (who had been placed in St. Mary's Academy by her father) had the case dismissed, Mr. Holman consenting to stipulation that both parties should have the child, at stated times. Mrs. Powell left Saturday for her home in California, accompanied by her daughter. An interesting debate took place at the Jacksonville public school Friday. Helen Colvig and Iris Cook represented the affirmative and the negative was upheld by Jesse Applegate and Flora Thompson. Government ownership of railroads was the subject debated. The judges decided in favor of the affirmative, although the other side also presented some excellent arguments. More turkeys were raised in southern Oregon this year than ever, and several thousands were shipped out of Jackson county alone. Most of them went to San Francisco. In Douglas county more turkeys are raised than anywhere else in Oregon. J. F. Barker & Co., Kruse & Newlands, H. Marks & Co. of Roseburg this week shipped 3000, 2000 and 600 respectively. E. G. Young & Co. of Oakland, who are the champion shippers, forwarded 4000 of the birds, while Beckley Bros. of the same town, shipped 2000. D. W. Knutzen of Thompson creek had a narrow escape from a fatal accident a few days ago. While driving a four-horse team down the long Steamboat hill the brake to the wagon broke and caused a runaway. Mr. Knutzen was thrown to the ground and caught in such a manner by the vehicle that he could not extricate himself. He was kept in this position for several hours, until rescued by some one who happened to come that way. Fortunately no bones were broken, although he received painful bruises. There will be a game of foot ball at Gold Hill Thanksgiving day, between a local team and one from Jacksonville, which promises to be a lively one. The following will probably be the line-up of the Gold Hill eleven: Center, Ivan Humason; left guard, John Hays; left tackle, Ed Bolt; left end, John Reed; right guard, J. L. Hammersly; right tackle, Will Reames; right end, E. Lemming; quarter back, Prof. J. P. Wells; half back, Ed Perham; half back, Robert Fleming; full back, John Miller. Prof. Washburn, who is an excellent coach, and will captain the Jacksonville team, has not selected all of his players; but it is reasonably certain that H. G. McCarthy, Ernest Elmer, Chas. Nunan, Henry Orth, P. H. Dailey, John Hurley, John Wilson, Geo. Vonder Hellen, Chris. Kenney, Jas. Eaton, will constitute the eleven. Prof. J. S. Diller, a geologist, who has been spending a great portion of the past summer at Crater Lake, in a study of the wonderful phenomenon, reports that he has found a number of trout in the lake. It has been long conceded that the waters of Crater Lake contained no fish. Mr. Diller says that the fish found are a peculiar species of cold water or mountain trout, and of a large size, many of them being 30 inches in length. Since finding the trout he has made an investigation for the purpose of ascertaining whether or not any fish have ever been placed in Crater Lake or not. He has found that in 1897 the United States Fish Commission had a number of trout placed in the lake. It was thought at the time that the fish would soon die for want of food, as the lake basins but solid, slippery rocks, affording no vegetation whatsoever. The only thing contained in the lake on which fish might feed is a water dog or lizard, peculiar to Crater Lake alone. The little reptiles are from three to five inches in length. They inhabit the lake in vast numbers, and it is thought likely that they are furnishing sustenance for the trout now found and which are beyond doubt a result of the fish placed in the lake by the government five years ago.

Mrs. Bryan is Cured. Read Her Letter to Mrs. Pinkham. "DEAR MRS. PINKHAM—I was sick for two years with falling of the womb and inflammation of the ovaries and bladder. I was bloated very badly. My left limb would swell so I could not step on my foot. I had such bearing-down pains I could not straighten up or walk across the room, and such shooting pains would go through me that I thought I could not stand it. My mother got me a bottle of Lydia E. Pinkham's Vegetable Compound and told me to try it. I took six bottles and now, thanks to your wonderful medicine alone, I am a well woman. "I wish every woman suffering with female weakness would begin its use at once."—MRS. ELSIE BRYAN, Otisville, Mich. How many women there are who suffer just like Mrs. Bryan did! If you ask such sufferers what treatment they have, you will find they are depending upon some professional theorist who has never cured a case of uterine or ovarian trouble, or you will find that they went to their druggist to get Lydia E. Pinkham's Vegetable Compound and were advised by the dealer to take something else. You may be sure that such suffering from female derangement will not exist when Lydia E. Pinkham's Vegetable Compound is used. This statement finds overwhelming verification in the grateful letters from women. When you ask for Mrs. Pinkham's medicine at your dealer's, you may safely distrust the motives of any one who asks you to take something else in place of Lydia E. Pinkham's Vegetable Compound. \$5000 REWARD We have deposited with the National City Bank, of Lynn, \$5,000, which will be paid to any person who can find that the above testimonial letter is not genuine, or was published before the writer's special permission. LYDIA E. PINKHAM MEDICINE CO.
