CONGRESSMAN RICHARDSON of Tennessee was again chosen leader of the minority of the lower house of Congress.

TWELVE British columns operating under the block-house system are to hem in the Boers. This means they will build block houses and garrison them with soldiers as they re-take the country.

A PROMINENT MEMBER of the Cabinet, who has assisted in the preparation of Mr. Roosevelt's message, says that the President has endeavored to follow as nearly as possible the policy laid down by the late President McKinley.

PRESIDENT ROOSEVELT, in his message to Congress, recommends the advisability of reducing the duty on Cuban sugar in return for trade concessions when the independent government in the island is set up, and also the reduction of the duty on sugar from the Philippines, as a means of stimulating the production of sugar in those islands.

THE small, jealous press of the country, which made the assassination of the late President McKinley the opportunity of an attempt to destroy the business and influence of the Hearst newspapers, have finally discovered that their efforts proved a boomerang.

Judge Gillette has granted Dayid Nation a divorce from his wife, Mrs. Carrie Nation, the "joint smasher," on the ground of gross neglect of duty. He exonerated her from the charge of cruelty to her husband, and divided the property.

CONGRESS is again in session. It will doubtless be kept busy until August, as a great deal of important business will come up for transaction. These matters will certainly be considered: The Hay-Pauncefote treaty, abrogating the old Clayton-Bulwer treaty; a bill organizing the construction of the Nicaragua canal, with proper appropriations; a river and harbor bill, carrying appropriations of \$70,000,000; legislation for Cuba, Porto Rico and the Philippines; a trans-Pacific cable; reduction of the war revenue taxes; the pending reciprocity treaties; revision of the tariff schedules; an investigation of the war with Spain on the navy side and special investigation probably on the Sampson-Schley controversy; the Chinese exclusion question; tightening of the immigration laws to prevent the entrance of anarchists; the establishment of a department of commerce with special functions with reference to trusts; a bill by Senator Elkins to change some of the interstate commerce laws; ratification of a treaty for the acquisition of the Danish West Indies; ratification of treaties with Nicaragua and Costa Rica for the acquisition of territory for the Nicaragua canal.

HERE AND THERE.

A fine assortment of up-to-date visiting cards can always be found at THE TIMES office.

Men's and boy's clothing entirely new and up to date garments. Prices the very lowest. Nunan's.

The University of Oregon's football team met defeat at the hands of the Multnomah Athletic Club once more at Portland Thanksgiving day.

Sixty-three miles in 56 minutes is the remarkable speed attained by the Portland-Spokane "flyer" on the O. R. & N. Co.'s line. Jack Wright is the engineer who performed the feat.

The city of Colon, Colombia, which was captured by the insurgents, has been turned over to the government. The surrender was accomplished through Commander Perry of the U. S. battleship Iowa.

The fight at Portland Thursday night, between Mysterious Billy Smith and Al. Nell, was declared a draw, neither man being hurt much after the 20th round. Three thousand people witnessed it.

New Seeded Raisins, New Zante Currants, New Citron and Lemon Peel, New Cream Cheese, New Cranberries, At Nunan's.

To make sure the punishment of Wm. Dalton, his partner in crime, Joseph Ewing made certain his own fate by pleading guilty to murder in the first degree, for the killing of James R. Morrow at Portland recently. It is said that Dalton is becoming a gibbering maniac.

The uncertainty of prize-fighting was again illustrated at Hartford, Conn., Thanksgiving, when Young Corbett of Denver knocked out in the second round Terry McGovern, who had never before been defeated. The victor was supposed to have no show at all, and betting was 3 to 1 against him.

Some excitement has been caused in Chinatown at San Francisco by the arrival of a special emissary of the Chinese government, ostensibly Chen K'ai Yui's mission to the United States is that of joining the Chinese embassy at Washington; but it is rumored that in reality he is here to bring about, if possible, the defeat of the proposition to re-enact the Chinese exclusion act.

The insurgents attacked a commissary wagon between Magdalen and Gajayass, P. I., seriously wounding a sergeant and a private, and capturing Privates Dunn and Frenning, two horses, three rifles and 300 rounds of ammunition. There has been a recrudescence of insurgent activity at Tanauan, Batangas, Southwest Luzon. An interpreter named Alberto has been killed in the market place for refusing to give percentage of his salary to the insurgents. Other government employees have been threatened.

THE TIMES heartily commends Rev. Joseph Mendel of the Roman Catholic church at Montclair, N. J., who celebrated high mass on Thanksgiving for the souls of the Boers lost in battle against the British, and also for the native Filipinos who died fighting for their independence. Father Mendel was assisted by two priests from Newark—Fathers Sampson and Charuzzi. He has received a large number of letters indorsing his position and congratulating him for celebrating the mass.

The London Times quotes an interview in a Nantes newspaper with a man named Sandberg, who is described as an aide-de-camp to Louis Botha, the Boer commandant-general. Sandberg has been touring the continent to collect Boer funds, and declares that ultimate victory of the Boers was certain. Asked what terms the Boers would accept, he said they would agree to one condition only—that the British quit South Africa. He added: "Their recognition of our autonomy would be insufficient. We must be masters of the Cape as well as of the Transvaal."

Judge Gillette has granted Dayid Nation a divorce from his wife, Mrs. Carrie Nation, the "joint smasher," on the ground of gross neglect of duty. He exonerated her from the charge of cruelty to her husband, and divided the property. When Mrs. Nation started on her career of joint-smashing, a year ago, Mr. Nation seemed to be in sympathy with her raids. But when she spent all her time cursing and serving sentences in jail for destroying property, he went to the home of his daughter in Indiana. He was Mrs. Nation's second husband, and is nearly 70 years old. The couple had lived together for many years.

From 100 to 150 persons were killed or hurt on the night of Nov. 27th in a wreck on the Wabash railroad. Two heavily loaded passenger trains collided head on at full speed one mile east of Seneca, Mich. The west-bound train, composed of two cars loaded with immigrants and five other coaches, was smashed and burned with awful loss of life and fearful injuries to a majority of its passengers. The east-bound passenger train, the Continental limited, suffered in scarcely less degree. The track in the vicinity of the wreck was strewn with dead and dying. One of the engineers misread his orders, which was the cause of the catastrophe.

So successful have been the operations of the \$200,000,000 syndicate of the United States Steel Corporation—no other syndicate has ever equaled it in size—that in less than a year it is able to return to its members all the money that was actually paid in. The managers of this syndicate, J. P. Morgan & Co., have made this payment, distributing \$25,000,000 that they realized from the original call for 12 1/2 per cent. of the total amount subscribed. Instead of another subscription call a member of the syndicate said that a distribution of profits next year is looked for. The reason why the syndicate is not expected to be called upon again to furnish money is because the billion-dollar trust's earnings are exceeding even the most sanguine expectations.

MINING NEWS.

Notices for the location of placer and quartz mines, etc., up-to-date and complete, for sale at THE TIMES office.

Operations have been resumed at the Sterling mine; but it will not be run to its full capacity until Supt. Ankeny returns.

Miners' liens, deeds to mines, water-right locations and other mining blanks always on hand at THE TIMES office.

The number of visitors in Grant's Pass, for the purpose of examining the Josephine county mines, is increasing, although it has already been large.

The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at THE TIMES office.

The late rains have been of great advantage to the placer miners of Southern Oregon, a number of whom are at work with a good supply of water.

The old Virtue mine, situated near Baker city, has again entered the list of producing mines. The monthly cleanup runs into the thousands, although it is supposed to be a pocket mine.

B. E. Haney and Jas. Irvine have bonded Pearce & Sons ledge, situated in Poorman's creek district, and are developing it. As the vein is well defined and the ore assays favorably, the prospects are promising.

The Tip Top quartz mine, situated in Williams creek district, has been sold to A. C. Merrill and George St. John. The consideration has not been made public. These gentlemen are largely interested in the Rising Star and Champion mines, in the same district. The Tip Top adjoins these, and is an old and excellent mine.

Broad & Reid's mine, situated in Forest creek district, is yielding good ore and making an excellent showing. It is supplied with a cyanide process and a Huntington mill, which run steadily. A new drift tunnel has been started, that is expected to tap the ledge at a depth of 200 feet. The vein, which is free milling as far as developed, is about three feet wide.

The Black Channel hydraulic mines, located in Foothills creek district, which have been leased by S. C. Ruble, have undergone a great change since he took charge of them. The ditches have been widened and deepened, several thousand feet of new piping laid and a new giant added. The slope of the mining grounds being insufficient for a dump, Mr. Ruble has put in one of his grizzlies to elevate the tailings.

The big Yank ledge, situated in Galice creek district, Josephine county, will be put on the market. J. C. Matison has the management of the property, and states that in running the prospect tunnel he has cross-cut the mine to a depth of 100 feet, and near the center its ore runs from \$20 to \$30 a ton, while the poorer part of it does not run less than \$1.00 per ton. Lying as it does, easily accessible to mining on a large scale, the Yank should support a battery of 300 stamps.

Drifts are now being run on both sides of the main shaft in the Ashland mine at the 800-foot level. The ore is of good grade, and carries as much free gold as that extracted from the upper levels. Everything is being put through the mill, and only the concentrates sent to the smelter. The mill reduces 25 to 30 tons per day. From 40 to 60 men are employed at the mine regularly. The ledge on the deep level now being worked sometimes spread out to eight feet in width, and is rarely less than five feet wide. The Ashland mine, under the operation of the Oregon & Montreal Company, has proved to be one of the valuable gold properties in Oregon. It has become the deepest gold mine in Western Oregon, with large ore bodies blocked out and remaining to be stoped, and demonstrates the fact that Southern Oregon is not alone a pocket mining country.

Brain-Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at City Drug Store. Grocery Sense.

People now-a-days are cautious about what they buy for the table. A modern tendency to cheapen methods of manufacture at the expense of quality has made this caution necessary. Our old-fashioned notion is the most of persons still want quality rather than price in the things they eat—and our brands are packed on that principle—quality first—then price—SATISFACTION ALWAYS. Our catalogue tells the rest. Send for it. Complete one ready.
