BRIEF MENTION.

Trespass notices, printed on cloth, on sale at The Times Printing House. President Roosevelt is verbose. His message of twenty thousand words is much longer than ordinary.

Mrs. Roosevelt says a woman can dress well on \$300 a year. Many husbands hope their wives will not insist upon it.

The law passed by the New York legislature, prohibiting scalping of railroad tickets, has been declared unconstitutional.

Deeds, mortgages, leases, bonds, bills of sale and every imaginable kind of legal blanks—the latest and best—are constantly on hand at THE TIMES office.

Representative Taylor of Ohio has introduced a bill to pension Mrs. McKinley at the rate of \$5000 a year, beginning September 14th, 1901, the date of the death of the late president.

A large quantity of newspapers, suitable for wrapping, pasting on walls, putting under carpets, etc., can be obtained cheap in quantities to suit, at THE TIMES Printing House.

Horseless carriages, wireless telegraphy, smokeless powder, hornless cattle, seedless raisins and brainless dudes have long been the vogue; but this year the fad seems to have taken hold of the farmers all over the country, and they have raised earless corn.

The celebrated Snap Shot, the best medicine in the world for allaying inflammation in man or beast, can be found at Dr. Robinson's drug store, also at Dr. Hinkle's, Central Point. Try it.

Miss Helen Gould thinks enough of a country paper, published by an old friend of her father, to insist on paying \$5 a year for it, although the subscription price is only \$1. Such appreciation is rare and deserves special commendation.

A singular railroad wreck took place on the headwaters of the Sacramento river recently. While rounding a curve seven cars went out of the middle of a freight train into the stream. Neither end of the train received damages.

Greeley, Colorado, was one of the few places in the United States where there was a full potato crop this year. The output of that district is estimated at eight thousand carloads. Their crops are grown by the head of irrigation.

The Russian government is making strenuous efforts to relieve the actual necessities of tens of thousands of its famine-stricken subjects in the eastern and southeastern provinces. There has been an allotment made of thirty-six pounds of flour per month to each starving person in twelve provinces.

A. J. Snell wanted to attend a party; but was afraid to do so on account of pains in the stomach, which he feared would grow worse. He says: "I was telling my troubles to a lady friend, who said: 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in a condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by City Drug Store.

Japan has today over 50,000,000 of people. Its revenue is about \$138,900,000. Its national debt now stands at \$250,382,000, accumulated since 1870. In 1899 there were 3635 miles open to traffic. Last year she had 1221 steam vessels with a tonnage of 315,168, and of sailing vessels 3822, with a tonnage of 269,032. In the matter of manufactures, especially those of cotton, Japanese goods are to be found in all the great markets of the far East. Japan has a formidable army and a powerful navy, and is conceded to be one of the great powers of the world.

ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

Change to Change a Quarter.

"How much does it take to change a quarter?" asked the bartender. "Twenty-five cents, eh? Not on your life. It takes seventy cents to do the trick. How many ways do you suppose a quarter dollar can be changed? Just exactly eleven. A fellow of limited means may like the jingle of coin in his clothes. In that event you can give him twenty-five pennies or twenty pennies and one nickel. He may like to have a little sprinkling of silver in his clothes, and you can accommodate him with fifteen pennies and a dime or ten pennies, a dime and a nickel.

"If he prefers to have change handy for a beer and a car fare, why, fifteen pennies and two nickels will fix him up, and if he wants a cigar in addition, besides having a little stock of cash in his jeans, give him ten pennies and three nickels. That makes six ways. Now, then, a fellow with a quarter can trade it off for five pennies and two dimes, five pennies and four nickels, two dimes and one nickel, one dime and three nickels or five nickels, just as he prefers. And to accommodate him in any way that he might select you have to possess twenty-five pennies, two dimes and five nickels—seventy cents in all."—Philadelphia Record.

Never Touched Him.

Shorts—The papers misstated some details of that accident today.

Longs—How so? Shorts—They stated that the tramp who stole a ride on a mud scow was washed overboard. He wasn't. I saw him when they pulled him out, and he was just as dirty as when he left the boat.—Harlem Life.

Grand Holiday Excursion.

Messrs. Bolton and Peil of Ashland who have conducted several successful excursions to San Francisco, announce another for the holidays. It will leave Ashland Thursday, Dec. 26th, at 12:30 A. M., on the regular overland train. Fare for the round-trip will be \$12; children under 12 years, half price. Tickets are good for ten days, which will be extended a like period for \$7.50 additional. This will afford an excellent opportunity to witness New Year's festivities in the chief city of the West. Secure your tickets early, so the railroad company can furnish ample accommodations.

Food Changed to Poison.

Putrefying food in the intestines produces effects like those of arsenic; but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing constipation, biliousness, sick headache, fevers, all liver, kidney and bowel troubles. Only 25c at City Drug Store.

County Treasurer's 25th Notice.

Max Muller, county treasurer, gives notice that there are funds in the county treasury for the redemption of outstanding warrants protested from Oct. 1, 1898, to Oct. 31, 1898, both dates inclusive. Interest on the same will cease after Dec. 6, 1901.

The Tugboat Captain.

A tug lay hard by, and the captain added his bit to my sociological nocturne, as I sat in the pilot house and peered out on the water, where red lights and green lights, with many of yellow and white, dripped zigzag fashion down from the wharfs and ships.

"Where do you sleep?" questioned I. "Why, here," he replied, "in this very pilot house on that nice fluffy bunk you're a-settin' on; an' sometimes I sleep at that wheel, a-steerin' this boat, sir. Can't be helped, sir. The hours we work would stave in a trained nurse an' send a sentinel to be shot. Why, man, I've seed the time when I've stuck by that wheel twenty grim hours at a stretch. Once it was forty-two hours. And when you read in the paper about town's a big propeller clean through a dock or jammin' her into her next door neighbor for keeps don't you say us tug folks are Johnnie Raws. Just say we're worked and worked till we sleep at the wheel. For that's God's truth, sir."—Atlantic.

Sterilized Books.

To guard against insidious bacilli physicians are recommending sterilizing books in the public libraries, not in the hope of killing evil producing literature, but to destroy noxious germs concealed in their leaves and bindings. That disease has frequently been transmitted by the circulation of books has long been suspected, and the belief has recently been verified.

The most careful work in this direction has been done by the Chicago Public Library, and Dr. Kufewski reports that he found a large number of bacilli, representing nearly a hundred different poisons and disease germs. Fifty books, selected at random, were examined, and all of them were found more or less infected. Dry sterilization is recommended.

Pound Foolishness.

One of the commonest forms of pound foolishness is countenanced by many high authorities. This is the purchase of certain household provisions in large quantities. Few writers on domestic topics fail to lay stress upon the economy of buying groceries in bulk. That sugar and flour, potatoes and apples should be bought by the half or whole barrel, cereals by the case, butter by the tub and other things in like proportion is one of the early precepts in the "Young Housekeeper's Complete Guide to Domestic Economy."

The ignorant young things buy the provisions first and the experience afterwards. The flour grows musty, the cereals develop weevils, the potatoes and apples rot long before they can be eaten, and the cook exercises a lavishness in the use of the butter and sugar she would never show were they bought in such limited amounts that the housekeeper could hold close watch over them. Even after these events the young mistress feels as if she were absolutely reckless and no manager at all when she so far departs from household law as to buy food in small quantities.—Independent.

KICK A DOG

Kick a dog and he bites you. He bites you and you kick him. The more you kick the more he bites and the more he bites the more you kick. Each makes the other worse.

A thin body makes thin blood. Thin blood makes a thin body. Each makes the other worse. If there is going to be a change the help must come from outside.

Scott's Emulsion is the right help. It breaks up such a combination. First it sets the stomach right. Then it enriches the blood. That strengthens the body and it begins to grow new flesh.

A strong body makes rich blood and rich blood makes a strong body. Each makes the other better. This is the way Scott's Emulsion puts the thin body on its feet. Now it can get along by itself. No need of medicine.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 409 Pearl St., New York. 50c. and \$1. all druggists.

Did you ever compare a delicious, flaky, delicately browned loaf of bread made from

Snowy Butte Flour

With the sad results achieved from the use of cheaper flour? The one, the highest triumph of cookery—the most useful of all the arts; the other, a monument to wasted energy, blasted hopes and poor judgment. But why continue the comparison? If you have made the mistake in the past, trying to exist on inferior flour, redeem yourself by ordering Snowy Butte flour only in future.

Every up-to-date dealer Handles it.

GIVE US A CALL

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble. Dr. Kilmer's Swamp-Root the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y. and mention this paper.
