No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife used several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system, with very marked effect by way of improvement. We regard it a great tonic and blood purifier."—J. F. DUFF, Princeton, Mo.

SSS is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice.
THE SWIFT SPECIFIC CO., ATLANTA, GA.

"NERVE WASTE"

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer, of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is an agreeable contrast to the vast sum of false teaching which prevails on this interesting subject. It abounds in carefully considered and practical advice, and has the two great merits of wisdom and sincerity.

It is endorsed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment."
The book is \$1 by mail, postpaid.

One of the most interesting chapters—chapter XX, on Nerves and Nerve Tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp, by the publishers, THE PACIFIC PUB. CO., Box 2658, San Francisco.

A "Loop" Witness.
The Schley inquiry has given striking evidence of how the doctors sometimes disagree. Officers with apparently equal opportunities for observation during the Santiago blockade and the battle that resulted in the destruction of Cervera's fleet have made directly conflicting statements, and logs have been found to disagree with nearly everybody, including sometimes the man who wrote the log. One of the interesting witnesses has been Lieutenant

LIEUTENANT COMMANDER A. C. HODGSON, Commander A. C. Hodgson, who was navigating officer of the Brooklyn, Hodgson's prominence in the inquiry has been emphasized because of a controversy in which he and a New York newspaper editor have engaged over the case, resulting in an exchange of some unusually strong language.

To Get Rid of a Troublesome Corn.

First soak it in warm water to soften it, then pare it down as closely as possible without drawing the blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism Pain Balm is unequalled. For sale by City Drug Store.

The Mistake of the Polar Bear.

Nordenskjold found that the white bears generally went through a long performance of stalking his sailors, clearly on the mistaken conclusion that they were seals. As the men were clothed partly in sealskin, it was a very natural mistake. But the interest of the story lies in the generalization made by the bear. The bear said: "There are two or three seals, one standing up on its flippers in a very unusual way. I will therefore stalk them unseen as long as I can and when they see me pretend to be doing something else."

So the men, with their guns and lances, who wanted to shoot the bear and the pleasure of seeing him carefully crawling behind rocks and ice hummocks, making long detours this way and that and every now and then clambering up a rock and peeping cautiously over to see if the seals had gone. On the open snow the bear would saunter off in another direction and then, falling flat, push himself along on his belly, with his great front paws covering his black muzzle, the only thing not matching the snow about him. Just as the bear thought he had got his "seal" the latter fired and shot him, a victim of false analogy. —Spectator.

Of Benefit to You.

D. S. Mitchell, Fulford, Md.: "During a long illness I was troubled with bed sores, was advised to try DeWitt's Witch Hazel Salve, and did so with wonderful results. I was perfectly cured. It is the best salve on the market." Sure cure for piles, sores, burns. Beware of counterfeits. City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

Room at the Top.

When Tom, Dick or Harry is leaving his "teens," he has to think very seriously of what he is going to be. In most cases he turns from the learned professions because, he says, they are already overstocked. A young lawyer once made this complaint about the law to Daniel Webster, the famous American statesman. Webster's reply was short and sharp. "My friend," quoth he, "there is plenty of room at the top." This is true of every career. We have only to aim high enough.

An Automobillist at Fourteen.

William D. Warner, fourteen years old, has a license from the city of Chicago to operate an automobile. The city electrician said that he was one of the most thoroughly posted applicants for a license he had ever examined. The young man has run a little electric light plant for years and knows a great deal about boilers and engines. He is healthy and vigorous, with steady nerves and good eyes, and there was no good reason for refusing the license.

The Ground Squirrel.

The ground squirrels of California are interesting animals to watch. Our potatoes were disappearing, and I tried to find out where they went to. Soon I found out the ground squirrels had taken them. What do you think they did with them? They bit them up in small pieces and dried them in the sun. Don't you think they knew it was a good way to preserve them for storage? —Herman Klen in American Boy.

Matrimony and Eyes.

An old man was rallied by his friends, on his marrying a young wife, on the inequality of their ages. He replied, "She will be near me to close my eyes."

"Well," replied a friend, "I've had two of them, and they opened my eyes." —Exchange.

Smart Girl.

Her Mother—Edith, don't you think you are getting too old to play with little boys?
Edith—No, mamma; the older I get the better I like them.—The Bits.

The Consultation.

"My wife always consults me about every article of attire she buys—trunks, hats, shoes, gloves, everything."
"My wife does, too—that is, she asks me for the money."

Catarh Cannot be Cured

WITH LOCAL APPLICATIONS as they cannot reach the seat of the disease. Catarh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarh Cure is of a queer medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces so rich wonderful results in curing Catarh. Send for testimonials free of charge. **DR. J. CHENEY & CO., Props., Toledo, O.** Sold by druggists, price 50c.

Thin Boots and Shoes.

Brown boots and shoes are invariably, let it be remembered, the most correct and convenient footwear when traveling for obvious reasons, and, when well made, can no longer have the reproach leveled at them of being clumsy or apparently increasing the size of the foot. The American Shoe company—and, indeed, most of the best bootmakers—have now brought the brown shoe and boot to a point of perfection in shape and color which leaves nothing to be desired by the most fastidious, and in this connection it is worth remarking that brown stockings should always match the tone of leather in one's boot or shoe, the union of color in both being one of those details which a well dressed woman will be careful to consider.
