Bob Fitzsimmons is going to referee the McGovern-Sullivan fight, providing he is free from other engagements at the time.

The Springfield rifles now in use by the Oregon National Guard are to be supplanted by the Krag-Jorgenson make at an early date.

Deeds, mortgages, leases, bonds, bills of sale and every imaginable kind of legal blanks—the latest and best—are constantly on hand at THE TIMES office.

Gen. Kitchener reports that Gen. Hamilton has captured a Boer Laager at Wehraens, and killed 16 and captured 76 prisoners and one of Benson's guns.

A large quantity of newspapers, suitable for wrapping, pasting on walls, putting under carpets, etc., can be obtained cheap, in quantities to suit, at THE TIMES Printing House.

The celebrated Soap Shot, the best medicine in the world for allaying inflammation in man or beast, can be found at Dr. Robinson's drug store, also at Dr. Hinkle's, Central Point. Try it.

In Pendleton Dec. 14th, at the marriage altar, pretty Elsie Parker, who had promised to wed James Sprague, changed her mind and uttered a most emphatic "no" when a "yes" was properly in order. Mutual friends of the twain who were present argued in vain. Elsie did not and did not wed.

No one can reasonably hope for good health unless his bowels move once each day. When this is not attended to disorders of the stomach arise, biliousness, headache, dyspepsia and piles soon follow. If you wish to avoid these ailments keep your bowels regular by taking Chamberlain's Stomach and Liver Tablets when required. They are so easy to take, and mild and gentle in effect. For sale by City Drug Store.

The Department of Agriculture is anxious to encourage the growing of flowers for perfume-making in this country, and attention is called to the fact that conditions in the Southern states, and particularly in Southern California, are exceptionally favorable for industries of this kind. It is believed that in California the essential oil, or attar, of roses might be produced on an extensive scale to great advantage.

A case that is interesting St. Louis physicians is that of Eli Daniels, a patient at the city hospital, who is convalescing from an operation of the heart. He was stabbed in the heart at Chester, Ill., and Dr. H. L. Nietzer, superintendent of the hospital, where Daniels was taken 24 hours after being cut, sewed up the wound, taking several stitches, and the patient is now well on the road to recovery.

Barney Jacobson, a Swede, was run over by a couple of light engines near Cottonwood, Calif., had his leg cut off and died soon after. He was riding on a railroad velocipede, and asleep under the influence of liquor. The signals of loud whistles were given and the emergency brakes applied, supposing the man would get off the track in time. The coroner's jury found deceased was struck by locomotive engine in charge of Dennis Freely; and that it was the result of recklessness on the part of the engineer in not stopping his engine, when he saw the car standing still; on the track. Deceased was a lineman of the Postal Telegraph Co., and well known in Southern Oregon.

**DO YOU GET UP WITH A LAME BACK?**

**Kidney Trouble Makes You Miserable.**

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

**The Trip of the Season.**

A winter trip to southern California and Arizona via the famous Shasta Route is one never to be forgotten. Renewed acquaintance with this section will ever develop fresh points of interest, and added sources of enjoyment under its numberless resorts of mountain, shore, valley and plain. Two trains leave Portland daily, morning and evening, for California. These trains are equipped with the most improved pattern of standard and tourist sleeping cars, and the low rates place the trip in reach of all. For illustrated guides California and Arizona winter resorts address  
 E. B. MILLER, Gen'l Pass. Ag't, Portland, Or.

The royal library at Windsor castle is about to be enlarged by the inclusion of a room adjoining hitherto used by the lord in waiting. This will enable many thousands more volumes to be added to the hundred thousand valuable works now on the shelves.

So great has become the demand for American coal in Europe that it has been decided to build an immense receiving station for unloading, screening and grading coal in northern France. Rates have been made on French roads which will drive German coal out of central Europe.

Dr. Bizarro of Gorz has published a pamphlet in which he tries to prove that the Adriatic has for more than a thousand years been rising and encroaching on its shores. The lowest parts of Trieste are experiencing trouble already, and in course of time Venice will be buried in the mud of the lagoon.

**Mrs. Cornwallis-West's Wit.**

Not so long ago Joseph Chamberlain refused, with that firmness, not to say obstinacy, that is so irritating to the inquiring mind, to discuss the war with Mrs. George Cornwallis-West. "I see," she said sweetly, "you prefer to discuss your indiscretions in public." Not long after the colonial secretary made some rather sarcastic remark about the political activity of certain women, adding that he could not understand why American women, who kept out of politics at home, overwhelmed us in England. "Ah," said Mrs. Cornwallis-West innocently, "American men are too intelligent to need our educating influence."

**Let Into a Secret.**

During General Sherman's famous "march to the sea" both north and south were completely mystified as to what point the general was striking for, and one day an old Georgia planter who had called at his headquarters and enjoyed his good cheer asked him boldly if he had any objection to telling where his army was bound. "Not the least," said Sherman. Then, leaning over, he whispered in his guest's ear, but so loudly that everybody else in the tent overheard it, "We are going pretty much where we please!"

**A Young Violinist.**

Teddy Baron is a nine-year-old Detroit boy who since his fifth year has been a student of the violin. He is so earnest in his work that he has already made several successful appearances as a soloist. He has a remarkable technique, producing a clear, even tone. He plays his solos from memory, and chief among them are Wieniawski's "Kulawiak," Moszkowski's "Serena," the Polish dance by Scharwenka and the pizzicato movement and octaves in Musini's "Mazourka" and the artificial harmonies in the "Kulawiak."

The skin of the musk ox, which is a denizen of the "Barren Grounds" and the arctic region of Canada, has taken the place of that of the extinct buffalo for sleigh robes. It varies in price from \$50 to as low as \$5 for a poor article.

The industrial depression in Germany is reaching serious proportions. Employment agencies are deluged with applicants. From the mining regions come reports of numerous dismissals and reduced work. The same is true in iron and steel work.

Gigantic water power developments are projected in the Alps. There are now in the French Alps forty-eight factories supplied by 250,000 horsepower, electrically generated. Engineers estimate that 3,000,000 horsepower is now running to waste in the Alps.

**That Cough Hangs On**

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious chest affection. You need something that will give you strength and build up the body.

**SCOTT'S EMULSION**

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.
