Scrofula
THE OFFSPRING
OF HEREDITARY
BLOOD TAIN.

Scrofula is but a modified form of Blood
 Poison and Consumption. The parent
 who is tainted by either will see in the
 child the same disease
 manifesting itself in
 the form of swollen
 glands of the neck and
 throat, catarrh, weak
 eyes, offensive sores
 and abscesses and of-
 tentimes white swell-
 ing—sure signs of
 Scrofula. There may
 be no external signs for
 a long time, for the disease develops slowly
 in some cases, but the poison is in the
 blood and will break out at the first favor-
 able opportunity. S. S. S. cures this wast-
 ing, destructive disease by first purifying
 and building up the blood and stimulating
 and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn.
 "Ten years ago my daughter fell and cut
 her forehead. From this wound the glands on
 the side of her face became swollen and burst.
 Some of the best doctors here and elsewhere
 attended her without any benefit. We decided
 to try S. S. S., and a few bottles cured her en-
 tirely."

SSS makes new and pure
 blood to nourish and
 strengthen the body,
 and is a positive and
 safe cure for Scrofula.
 It overcomes all forms of blood poison,
 whether inherited or acquired, and no
 remedy so thoroughly and effectively
 cleanses the blood. If you have any
 blood trouble, or your child has inherited
 some blood taint, take S. S. S. and get
 the blood in good condition and prevent
 the disease doing further damage.
 Send for our free book and write our
 physicians about your case. We make no
 charge whatever for medical advice.

She Knows From Experience.
 "Seems to me that the rising genera-
 tion is rising very fast," said the bac-
 chelor who expects soon to become a ben-
 edict after his friends had given him
 up as hopeless. "I was out walking
 with my intended the other day, and
 her small niece, a girl not over seven
 years of age, accompanied us. Natural-

"Oh, don't mind me!"
 by the conversation, owing to the near
 approach of our wedding day, took a
 turn that was interesting to two of us,
 but not to the third.
 "Finally I turned to the young lady
 who is soon to be my bride and said,
 with a smile:
 "I suppose all this talk is over the
 little one's head?"
 "Before she could reply the nose of
 the 'little one' went up several degrees,
 and she answered telly, her words fall-
 ing like so many hailstones on a tin
 roof:
 "Oh, don't mind me! I know what
 it is! I've been in love myself!"
 "It was several minutes before I
 succeeded in catching my breath."—Det-
 roit Free Press.

Child Worth Millions.

"My child is worth millions to me,"
 says Mrs. Mary Bird of Harrisburg,
 Pa., "yet I would have lost her by
 group had I not purchased a bottle of
 One Minute Cough Cure." One Min-
 ute Cough Cure is sure cure for
 coughs, croup and throat troubles.
 An absolutely safe cough cure which
 acts immediately. The youngest
 child can take it with entire safety.
 The little ones like the taste and re-
 member how often it helped them.
 Every family should have a bottle of
 One Minute Cough Cure handy. At
 this season especially it may be need-
 ed suddenly. City Drug Store, Jack-
 sonville, and Dr. J. Hinkle, Central
 Point.

Gluttonous Bass.

"Talk about sharks," said an Orange
 county lake fisherman; "I don't believe
 they are in it for promiscuous diet with
 the black bass."
 "I was fishing one day with a very
 large minnow on a big hook. I had a
 bite and hooked a bass. It was a big
 one and gave me as pretty a fight as
 I ever saw till it broke the leader at
 the point where it is attached to the
 line and got away.
 "We fished in other parts of the lake
 after that and finally started to the
 landing, the guide rowing while I skit-
 tered with a minnow. We were pass-
 ing close by the place where I had lost
 the fish in the morning when I saw a
 bass dart for my bait. I gave it time
 to swallow and then struck. When I
 got the fish into the boat, I saw a
 three foot leader sticking out of its
 mouth. It was the leader I had lost
 in the morning. When I cut the bass
 open, there was the same big chap it
 had taken from my line, and it came so
 nearly filling the fish's maw that the
 tail of the last minnow was sticking
 out of the mouth. There wasn't room
 for it in the interior of the bass."—New
 York Times.

Lowering Glasgow's Death Rate.

Twenty-five years ago there was in
 central Glasgow a great accumulation of
 narrow streets, dismal lanes and
 filthy closes, "where disease and death
 held high carnival and vice and crime
 lifted their heads unabashed." But
 special acts of parliament have been
 obtained, and the larger portion of this
 district has been reconstructed, and
 the remainder is being dealt with. As a
 result the death rate, which in 1876
 was 27.4 per 1,000 is now 21.1 per 1,000
 for the whole town. The death rate
 of the central district was 40 per 1,000,
 and it is still 30 per 1,000.

The Care of Silver.

In the care of silver the work of pol-
 ishing becomes easier if the whitening
 is made into a thin paste with water to
 which a little ammonia has been added.
 First put the silver into a bath of
 hot soap and then use the paste,
 rubbing it off with a piece of chamois.
 When the silver is not much discolored,
 rubbing with a little dry whitening after
 the soap bath will be sufficient.—Mary
 Graham in Woman's Home Companion.

Older Than That Himself.

One of the last letters written by W.
 S. Gilbert, the comic opera librettist,
 before his recent sickness was address-
 ed to Clement Scott on the occasion
 of Mr. Scott's sixtieth birthday. Mr.
 Gilbert's note was enigmatical. "Nor do
 I think," he wrote, "that the fact that
 you will have celebrated sixty years on
 Oct. 6 is a reason for general jubila-
 tion. I am sixty five, and nobody seems
 to care."

The Day After Thanksgiving.
 Said little Willie to little Millie:
 "What did you do on Thanksgiving?"
 "Oh, I had the loveliest time! I was
 helped four times to turkey."
 "So was I."
 "And I had half a mince pie and
 three dishes of ice cream and a lot of
 cranberry sauce."
 "So did I."
 "Then I had nuts and raisins and
 oranges."
 "So did I."
 "And a box of candy."
 "So did I."
 "And the next day I had the doc-
 tor."
 "So did I."
 Said little Willie to little Millie.—Chi-
 cago Record-Herald.

Doing Much Good.
 The London school board has opened
 the first of a series of schools for cripples.
 The children are taken from
 their homes to school in an ambulance
 and afterward taken home by am-
 bulance. The school curriculum includes
 a substantial midday meal. The plan
 enables poor little lame boys or girls
 to get a good schooling and is without
 doubt doing a great deal of good.

Brain-Food Nonsense.
 Another ridiculous food fad has
 been branded by the most competent
 authorities. They have dispelled the
 silly notion that one kind of food is
 needed for brain, another for muscles,
 and still another for bones. A cor-
 rect diet will not only nourish a
 particular part of the body, but it
 will sustain every other part. Yet,
 however good your food may be, its
 nutriment is destroyed by indigestion
 or dyspepsia. You must prepare for
 their appearance or prevent their
 coming by taking regular doses of
 Green's August Flower, the favorite
 medicine of the healthy millions. A
 few doses aids digestion, stimulates
 the liver to healthy action, purifies
 the blood, and makes you feel buoyant
 and vigorous. You can get Dr. G. G.
 Green's reliable remedies at City
 Drug Store. Get Green's special
 almanac.

Romance of the Corinthian Column.
 In the winter a young girl had died
 in Corinth. Some time afterward her
 maid gathered together various trinkets
 and playthings which the girl had
 loved and brought them to the girl's
 grave. There she placed them in a
 basket near the monument and put
 a large square tile upon the basket
 to prevent the wind from overturning it.
 It happened that under the basket was
 a root of an acanthus plant. When
 spring came, the acanthus sprouted,
 but its shoots were not able to pierce
 the basket, and accordingly they grew
 around it, having the basket in their
 midst. Such of the long leaves as
 grew up against the four protruding
 corners of the tile on the top of the
 basket curled round under these
 corners and formed pretty volutes.
 Kallimachos, the sculptor, walking
 that way one day, saw this and im-
 mediately conceived the notion that
 the form of the basket with the plaque
 on top of it and surrounded by the
 leaves and stalks of acanthus would
 be a comely heading for columns in ar-
 chitecture. He from this idea formed
 the beautiful Corinthian style of cap-
 ital. Such, at least, is the story as the
 architect Vitruvius told it 1,900 years
 ago.

Too Much Apathy.

Couldock's company was once barn-
 storming through Virginia. It was at
 Petersburg, and the play was "The
 Chimney Corner." All through the
 audience sat in distressing silence, neither
 laughing nor shedding a tear, although
 "The Chimney Corner" abounds with
 humor and pathos and the company
 "then producing it was of great merit
 for those times. Couldock appeared to
 pay no attention to the apathy of his
 audience until just at the close of the
 performance. The concluding lines of
 the play are somewhat to this effect:
 "You, John, are happy, and so are you,
 Ellen; so am I, and so are we all. Let
 us hope that our friends the public
 share our happiness."
 But, to the surprise of everybody,
 Couldock fell into a towering passion
 when he reached these lines, and it
 thundered tones he said, "You, John,
 are happy, and so are you, Ellen; so
 am I, and so are we all except the fools
 that have been sitting like stouthead
 bottles in front of the footlights to-
 night!"

The Best Prescription for Malaria.

Chills and Fever is a little of GROVES' TASTE-
 LESS CHILI TONIC. It is simply iron and
 Quinine in a tasteless form. No cure, No Pay,

The Artichoke.

The artichoke has nothing to do with
 art or the choking of it. The artichoke
 is an innocent vegetable, known to the
 Arabians as the ardischanki, or earth
 thorn. The Jerusalem artichoke was
 never seen near Jerusalem. Its first
 name is a corruption of the Italian gi-
 rasole, which means turning to the sun.
 It is a species of sunflower, bearing a
 tuber like that of a potato.
